HARE KRISHNA GOLDEN TEMPLE (ISKCON) · HYDERABAD

Prasadam, Sweets & Savories
A New Revenue Vertical

Business plan and roadmap for temple leadership and top management

From the house of Radha Krishna: satvik, pure, no preservatives

Prepared for: Temple leadership and top management

Prepared by: Mukunda Dasa, with DMTT and the production team

Based on: Prasadam Revenue Generation Plan meeting, 26 September 2026, plus market research

Version: v1.2, 21 October 2026

CONFIDENTIAL · FOR INTERNAL DECISION-MAKING · FIGURES MARKED [ESTIMATE] ARE PLANNING ASSUMPTIONS

Appendix C Audience profiles and sources

How to read this document

Sections 1–2 are the summary and the decisions requested; they can be read on their own. Sections 3–15 hold the detail behind each decision. Appendix A records everything said in the planning meeting.

SECTION 1

Executive summary

Temple-made satvik sweets and savories, from the house of Radha Krishna, sold through every circle the temple already reaches: counters, restaurant, corporate gifting, white-label, catering, communities, e-commerce and, later, QSRs and exports.

₹6 L	₹2.2 Cr	₹15 L	₹7.5 Cr
Janmashtami 2026 counter sales, sold out with limited stalls	Year-1 revenue target (Oct 2026–Sep 2027) [estimate]	Year-1 net contribution after new costs, before capex [estimate]	Year-3 revenue as channels and capacity scale [estimate]

The opportunity

Demand already exists and is not being served. Janmashtami 2026 counters sold out at about ₹6 lakh. Three companies asked for Dasara gift boxes that we could not supply. Chinmaya Mission has asked for 50,000 meals over two days. Big donors ask for 5 kg tins of namkeen every monsoon. India's packaged-sweets market is growing at about 16% a year, and corporate gifting is expected to exceed ₹27,000 crore by 2030.

Why we can win

People trust the ISKCON name. A satvik, preservative-free product, prepared in a temple kitchen and offered to Sri Sri Radha Krishna, is something no local sweet shop can claim. We already have the network (company owners, MNR's 42 institutions, chambers of commerce, BNI, Rotary, 100 gated communities, donor databases), the systems (donor dispatch, Shopify, negotiated vendor rates) and the people (a production lead for the kitchen; Mukunda Dasa and the DMTT team for marketing, technology and sales). The piece that was missing in earlier attempts, an owner for production, is now in place.

The plan

- **Two price tiers.** A competitive mass tier for volume, which keeps the kitchen busy and covers fixed costs, and a premium tier for margin.
- **14 revenue streams in five audience circles.** Start with those that need little capital: internal supply, festival stalls, corporate and white-label gifting.
- **Six phases.** Dasara and Diwali 2026 are the pilot. E-commerce, communities and catering follow. A dedicated unit, QSRs and exports come only after demand is proven.
- **Accountability.** DMTT tracks every rupee and every hour, with a monthly ROI report to leadership.

> **What we are asking leadership for**
>
> Approval of the vertical, a Year-1 operating budget of about ₹67 lakh released by phase, staged capex under ₹30 lakh, a decision on the brand name used on packs, and a policy that all prasadam orders go to the in-house kitchen. The full list is in Section 2.

All financial figures marked [estimate] are planning assumptions built from the meeting and desk research. They will be replaced by the 6–12 month order analysis (action A4) before money is committed.

SECTION 2

Decisions requested from leadership

Each decision below is needed for the plan to proceed. Budgets are released in stages, each tied to a phase gate (see Section 11).

#	Decision	Type	Approved / Comments
1	Approve the Prasadam, Sweets & Savories vertical as a temple revenue vertical with its own cost centre	Strategic approval	
2	Approve Year-1 incremental operating budget of about ₹67 lakh, released by phase	Budget	
3	Approve staged capex under ₹30 lakh (machines, pagodas, storage), each item released only after the previous phase meets its targets	Budget	
4	Decide the brand name on packs (ISKCON Hyderabad / Hare Krishna Golden Temple / a sub-brand) and give written approval for its commercial use	Brand	
5	Mandate that all departments place prasadam orders only with the in-house production team	Policy	
6	Approve one immediate hire for production/order coordination and seasonal staff for hero campaigns	People	
7	Authorise an FSSAI State Licence covering manufacturing, e-commerce and off-site stalls	Compliance	
8	Adopt the governance rhythm: monthly ROI report from DMTT, quarterly steering review	Governance	

Phase-gate funding

Gate	When	Release	Condition to pass
G0 Charter	October 2026	Foundation and pilot opex (packaging, samples, 1 hire, seasonal staff)	Plan approved; brand and licence decisions made
G1 Pilot review	30 Nov 2026	Phase 2 opex (e-commerce, sales executive, catering pilot)	Pilot cash-positive; on-time delivery ≥ 95%; no food-safety incidents
G2 Channel review	31 Mar 2027	Phase 3 capex (pagodas, small machines, storage)	Monthly revenue run-rate ≥ ₹15 lakh; online store live
G3 Year-1 review	30 Sep 2027	Business case for a dedicated unit and QSR pilot	Year-1 revenue ≥ 80% of plan; positive ROI

SECTION 3

Strategic context and market

Evidence from our own temple

Demand we have seen

- Janmashtami 2026: almost all prasadam counters sold out (≈ ₹6 lakh)
- A single stall draws queues of 10–50 people; many walk away
- Three companies asked for Dasara gift boxes, calendars and gifts
- Chinmaya Mission asked for 50,000 meals over two days
- Big donors order 5 kg namkeen tins in monsoon
- A partner has offered funds and execution for 100 QSRs in Hyderabad
- A new 250 g weekly item in a see-through box had very good response

Assets we already own

- ISKCON brand, and our pages rank first when people search for ISKCON Hyderabad
- Donor databases; WhatsApp, SMS, RCS, Google and Meta ads skills
- System to dispatch prasadam to online donors across India
- Shopify experience; about 15,000 Amazon parcels shipped
- Negotiated vendor rates, HR, spaces, new kitchen
- AI engineers and data scientists in DMTT
- Wooden gift boxes in stock; see-through boxes in use

Market research

Topic	Finding	Source
India packaged sweets market	₹8,431 crore in 2025, forecast ₹30,506 crore by 2034 (≈16% CAGR). Boxes are the largest packaging format (49%).	IMARC Group
India namkeen market	Expected to grow by USD 4.89 billion between 2025 and 2030 at ≈10.2% CAGR; Tier-II/III retail expansion is a driver.	Technavio
Corporate gifting	India's corporate gifting market could cross ₹27,000 crore by 2030, with organised players taking nearly half.	Chococraft industry note
Diwali gifting mix	About 58% of Diwali gifts in 2025 were for corporate celebrations and 42% personal.	Outlook India / MyFlowerTree report
Premiumisation	Consumers increasingly prefer premium packaged sweets, curated hampers and customised assortments.	Mordor Intelligence
GST 2.0	From 22 Sept 2025, pre-packaged and labelled namkeen, bhujia and mixtures moved from 12% to 5% GST; sweets are at 5%. Lower tax helps the mass segment.	Upstox / GST Council 56th meeting
FSSAI licence thresholds	From 1 April 2026 Basic Registration covers turnover up to ₹1.5 crore (was ₹12 lakh); Central Licence threshold raised from ₹20 crore to ₹50 crore; State Licence in between.	Mondaq / FSSAI order of 13 March 2026
Labelling	Pre-packaged sweets must show date of manufacture and best-before date. The best-before display for loose sweets on trays is now voluntary (recommended anyway).	FSSAI / Free Press Journal

Topic	Finding	Source
Temple precedent	ISKCON Govinda's (Bangalore) runs an online store with same-day delivery slots for sweets, snacks, bakery, thalis and catering.	iskcongovindas.in
Local competition	Hyderabad incumbents: G Pulla Reddy (since 1948, pure ghee, gifting page), Almond House (ships worldwide), Vellanki Foods, Dadu's, Pista House, Olive Mithai, Godavari Vantillu.	Brand sites / IndiaShopping

What this means for us

Boxes are the leading format in a market growing about 16% a year, and corporate buyers drive most festival gifting, so gift boxes sold through our owner-level network are the fastest route to revenue. The cut in GST on packaged namkeen to 5% helps the mass tier. Under the April 2026 FSSAI limits, turnover of ₹1.5–50 crore needs a State Licence, which we should plan for from the start.

SECTION 3 (CONTD.)

Competition and SWOT

Competitor	Profile	Tier	Our edge
G Pulla Reddy Sweets	Heritage pure-ghee brand; strong gifting and online	Premium	Temple sanctity + satvik + cause; prasadam is offered to the Deity
Almond House	Premium dry-fruit sweets, global shipping	Premium	Price flexibility (mass tier), institutional network
Vellanki Foods / Godavari Vantillu	Andhra traditional snacks, pickles, powders; online	Mid	Brand trust, festival footfall, donor base
Pista House / Dadu's / Olive Mithai	Retail chains, festival boxes	Mid–Premium	No-chemical, no-colour promise; spiritual story
Online gifting platforms	Aggregators (IGP, FNP, etc.) curate hampers	Mid	Direct relationships with company owners; white-label
Other temple Govinda's	ISKCON Bangalore, Jaipur, Ahmedabad stores	Mid	Not competitors but partners and benchmarks; Hyderabad has no scale player
Big national brands	Haldiram's, Bikaji, and new entrants selling laddus	Mass–Mid	Freshness, devotion, local connect; competitive pricing on mass tier

SWOT analysis

Strengths

- ISKCON / Hare Krishna brand trust built over decades
- Satvik, preservative-free, offered-to-Deity positioning
- Warm network: company owners, chambers, BNI, Rotary, institutions
- Large donor databases and top SEO ranking
- Existing dispatch system, Shopify skills, negotiated vendor rates
- Proven festival demand (Janmashtami sold out)
- In-house AI, data and marketing team (DMTT)

Weaknesses

- Kitchen capacity: 4 people today
- No dedicated packaging, design and pricing kit yet
- No historical cost/demand data compiled
- Limited cold chain and storage
- Production and marketing in different reporting lines
- Premium-only pricing would not cover fixed costs

Opportunities

- Dasara, Diwali, New Year, Sankranti corporate gifting
- White-label for companies' staff and clients
- 100 gated communities, weekend flea markets
- Large event catering (e.g. 50,000 meals)
- E-commerce pan-India; diaspora / export (Malaysia, Europe)
- QSR franchise with an interested partner
- GST cut to 5% on namkeen; growing packaged-sweets market (≈16% CAGR)

Threats

- Established Hyderabad sweet brands and national players
- Perception that the temple is 'commercialising' prasadam
- Food-safety incident damaging brand reputation
- Trademark/brand-use questions on the ISKCON name
- Ingredient price swings (ghee, jaggery, nuts)
- Festival demand volatility and weather

SECTION 4

Vision, mission and positioning

Vision

Make prasadam, sweets and savories one of the organisation's biggest verticals: first in Hyderabad, then across South India and all of India, and eventually in export markets. Profits fund our own kitchen, our own staff and machinery, and the temple's service to society.

Mission

Offer pure, satvik, preservative-free prasadam, prepared with devotion and offered to Sri Sri Radha Krishna, to every audience we already touch: visitors, donors, devotees, companies, institutions, communities and online buyers. Production is done by the temple kitchen; marketing, technology and sales are done by the DMTT; every rupee and hour is tracked for ROI.

Positioning statement

For families, companies and devotees who want sweets they can trust, our prasadam is the only satvik, preservative-free range prepared in a temple kitchen and offered to Sri Sri Radha Krishna, backed by decades of ISKCON goodwill. Unlike local shops that use colours and chemicals, every pack is pure, and every purchase supports the temple's service.

Brand pillars

Pillar	Promise
Purity	Satvik (no onion, garlic or eggs), no preservatives, no artificial colours
Devotion	Prepared with care and offered to the Deity first
Trust	The ISKCON / Hare Krishna name and a long record in Hyderabad
Service	Proceeds support temple activities and food-for-all programmes
Delight	Packaging that makes a gift feel special

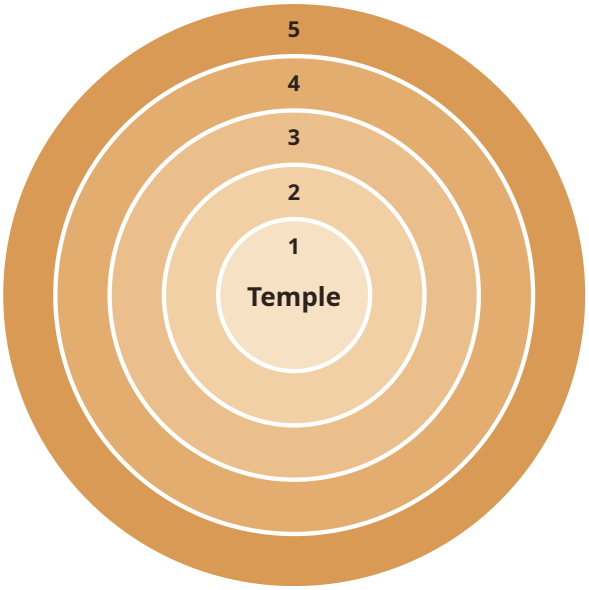

Guiding principles

- Passive selling, not pushing: stalls go where people already are, and people choose to buy.
- Start with what we have; invest only after demand is proven.
- Technology is the engine of scale (as with Zomato, Swiggy, Amazon): data, e-commerce, automation.
- Every rupee and every hour is tracked; ROI is visible to anyone who asks.
- Quality and food safety are never traded for volume.

SECTION 5

Target audiences

Different audiences, different circles, different products for each. We start inside (Circle 1 funds the kitchen from day one), then go to our B2B network (Circle 2) for the big festival orders. Circles 3 and 4 add year-round volume; Circle 5 is the long-term scale play.

Circle 1: those who come to us
Temple visitors and festival crowds, Donors and life members, Internal departments

Circle 2: those we go to (B2B)
Corporate companies, Educational institutions, Associations and professional networks, Event management companies

Circle 3: open public (B2C outside)
Gated communities, Life-event families (open circle)

Circle 4: digital
Online shoppers across India, Health-conscious and diabetic buyers

Circle 5: scale
Institutional bulk / large gatherings, QSR and restaurant diners, Export and diaspora

Figure 1. The five audience circles, from those who already come to us (inner) to scale markets (outer).

Audience	Circle	Our offer	Channel	Price point
Temple visitors and festival crowds	Circle 1	Restaurant, lawn food court, multiple festival stalls, take-home packs, 250 g see-through boxes	Stalls at entrance/exit/Goshala path, restaurant, QR menus, UPI	Mass tier ₹30–₹250
Donors and life members	Circle 1	Donor prasadam packs, bahumana boxes, 5 kg namkeen tins, festival hampers	Existing donor dispatch system, WhatsApp, donor-care calls	Mid to premium
Internal departments	Circle 1	Weekly standing order, one fixed delivery day, festival top-ups	Internal order form in the system; monthly budget per department	Internal transfer price (cost + agreed margin)
Corporate companies	Circle 2	Own-brand gift boxes (3 tiers) and white-label boxes with company branding; samples, menu, price list	Owner-level meetings (Mukunda Dasa + production rep), chamber and BNI referrals, LinkedIn, email	₹250–₹2,500 per box; volume slabs
Educational institutions	Circle 2	Low-ticket student packs, staff boxes, event catering	Chairman relationships; academic-calendar planning	Mass tier with bulk slabs
Associations and professional networks	Circle 2	Co-branded hampers, member discount codes, event snack boxes	Presidents/secretaries, chapter meetings, newsletters	Mid tier
Event management companies	Circle 2	Return-gift boxes, live counters, catering	Partner commission / referral fee	Mid tier

Audience	Circle	Our offer	Channel	Price point
Gated communities	Circle 3	Weekend stall with top sellers, pre-order for festivals, community WhatsApp group	Flea-market organisers (free stalls offered before), RWA committees	Mass tier
Life-event families (open circle)	Circle 3	Occasion packs, catering menus, bulk sweets	Google Ads, Instagram, referrals, temple ceremony desk	Mid tier
Online shoppers across India	Circle 4	Shopify store + Amazon; subscriptions; diabetic-friendly namkeen; jaggery range	Meta Ads, Google Ads, WhatsApp, RCS, SMS, SEO, influencers	Mid tier + shipping
Health-conscious and diabetic buyers	Circle 4	'Satvik Wellness' sub-range; namkeen for diabetics	Content marketing, doctors/yoga communities	Premium
Institutional bulk / large gatherings	Circle 5	Bulk meal packets, prasadam packs, catering	Direct leadership contact; tender responses	Per-plate contract
QSR and restaurant diners	Circle 5	Satvik QSR outlets (franchise with partner), later fine dine	Franchise partner, food-delivery apps	₹99–₹399 meals
Export and diaspora	Circle 5	Export-grade packaged range	Family business in Malaysia, European contacts, APEDA, Amazon Global	Export pricing

SECTION 6

Business model and revenue streams

Fourteen revenue streams, sequenced by how much capital they need and how fast they pay back. The quick wins (top left in Figure 2) start in the Dasara–Diwali pilot.

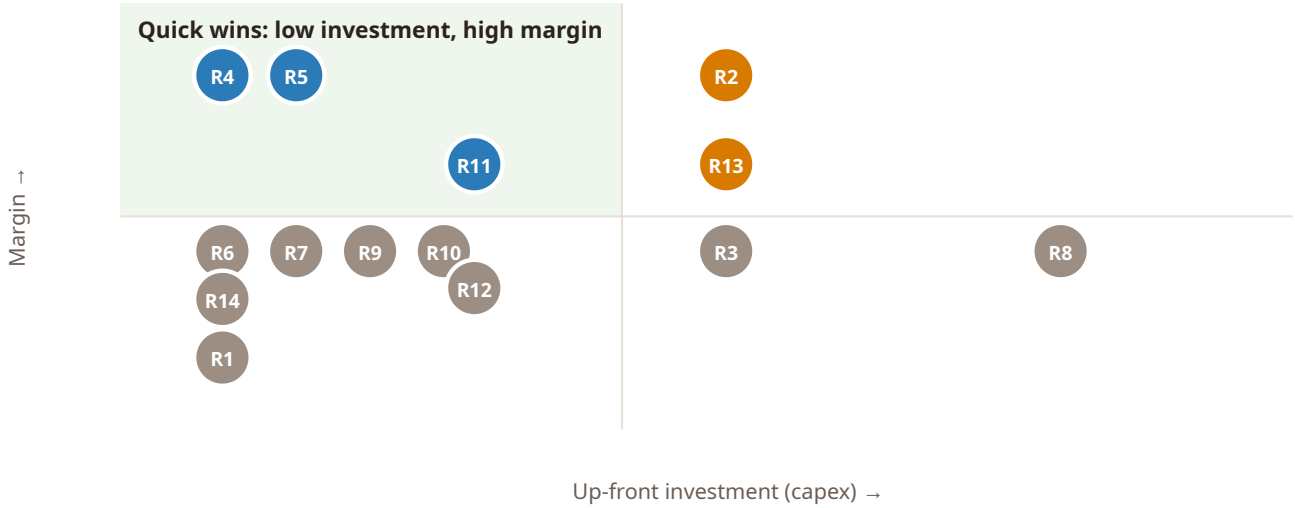

Figure 2. Revenue streams by up-front investment and margin. Blue = quick wins; saffron = high margin but more investment; grey = volume or strategic streams. IDs match the table.

ID	Stream	Phase	Capex	Margin
R1	Internal supply to departments	Phase 0–1	Low	Low–Medium
R2	Festival stalls and counters	Phase 1 onward	Medium (pagodas)	High
R3	Temple restaurant and lawn food court	Phase 1–3	Medium	Medium
R4	Corporate gifting (own brand)	Phase 1 onward	Low (packaging)	High
R5	White-label / co-branded gifting	Phase 1 onward	Low	High
R6	Daily snacking (365-day retail)	Phase 1–2	Low	Medium
R7	E-commerce (own store + marketplaces)	Phase 2	Low	Medium
R8	Catering and bulk meals	Phase 2–4	High (at scale)	Medium
R9	Gated community flea markets	Phase 2	Low	Medium
R10	Outbound B2B and life-event sales	Phase 2–3	Low	Medium
R11	Pickles, papads and powders	Phase 3	Low–Medium	Medium–High
R12	QSR and fine-dine restaurants	Phase 4–5	Partner-funded	Royalty 4–8% [ESTIMATE]
R13	Exports and diaspora	Phase 5	Medium	Medium–High
R14	Donor and sponsor packs	Phase 1 onward	Low	Medium

SECTION 6 (CONTD.)

Revenue streams in detail

R1 · Internal supply to departments Phase 0–1

What: Weekly standing orders to Culture Connect, LLP, online donors dispatch, corporate relations and campaigns, with one fixed delivery day and festival top-ups.

Why: Guaranteed base load for the kitchen from day one; replaces outside vendors.

How: Order-trend analysis (6–12 months) → minimum weekly quantity per department → internal price list → order form in the system.

KPIs: Weekly order fulfilment %, on-time %, internal cost saved vs outside vendors

R2 · Festival stalls and counters Phase 1 onward

What: Rows of stalls at high-footfall points on festival days; permanent rain-proof pagodas; restaurant takes the entire lawn.

Why: Proven: Janmashtami 2026 sold out at ≈₹6 lakh with limited counters. Target 10×.

How: Footfall map → stall layout (entrance, exit queue, Goshala path, staircases, garden, waterfall, Samskara) → UPI + POS → stock plan from calendar → leftovers go online.

KPIs: Sales per festival, sales per stall per hour, stock-out time, leftover %

R3 · Temple restaurant and lawn food court Phase 1–3

What: Restaurant as the daily anchor; on festival days full-length counters, chairs and round tables across the lawn.

Why: Captures every visitor; 365-day revenue.

How: Menu engineering, QR ordering, festival lawn SOP, rental furniture contracts.

KPIs: Daily covers, average bill, festival-day revenue

R4 · Corporate gifting (own brand) Phase 1 onward

What: Dasara, Diwali, New Year, Sankranti and other gift boxes in three tiers, with dry fruits and sweets; samples, menu, price list.

Why: About 58% of Diwali gifting is corporate; our network reaches owners directly; three companies have already asked.

How: Gift catalogue + samples → owner meetings (Mukunda Dasa with production rep) → PO with 50% advance → production calendar → dispatch.

KPIs: Boxes sold, average order value, repeat clients, advance collected

R5 · White-label / co-branded gifting Phase 1 onward

What: Same boxes with the client's logo and message (sticker or printed sleeve), so their brand travels with our prasadam.

Why: Companies are already paying some vendor; the owner prefers a trusted source.

How: Brand-sticker template, MOQ per design, proof approval, 10–15 day lead time.

KPIs: White-label orders, lead time, design approval cycle

R6 · Daily snacking (365-day retail) Phase 1–2

What: Sweets and savories unconnected to festivals: chikkis, kaja, khara, namkeen, puri unde, laddus, 250 g weekly specials.

Why: Evergreen demand; rotation keeps the kitchen busy.

How: Top-10 SKU list, standard pack sizes, shelf-life testing, temple shop + restaurant + online.

KPIs: Units per SKU per week, sell-through, returns/spoilage

R7 · E-commerce (own store + marketplaces) Phase 2

What: Shopify store and Amazon listing for shelf-stable items, pan-India shipping, subscriptions, donor bundles.

Why: Scale through technology; reuse donor dispatch and Amazon experience (≈15,000 parcels).

How: Catalogue & photography → Shopify + payment + courier aggregator → Amazon → ads funnel → WhatsApp retargeting.

KPIs: Orders/month, CAC, ROAS, repeat rate, delivery TAT

R8 · Catering and bulk meals Phase 2–4

What: Satvik catering for house programmes, life events, corporate and institutional events; bulk meal packets (e.g. 50,000 meals).

Why: Strong demand; many requests already; high visibility for the brand.

How: Start with drop-off catering from existing kitchen; partner kitchens for very large orders; later dedicated catering unit.

KPIs: Events/month, plates served, per-plate margin, feedback score

R9 · Gated community flea markets Phase 2

What: Weekend stalls in ~100 gated communities, pre-orders for festivals, community WhatsApp groups.

Why: Access already exists; organisers have given free stalls.

How: Mobile stall kit, 2-person team, route calendar, lead capture for donor/preaching programmes.

KPIs: Events/month, sales/event, leads captured

R10 · Outbound B2B and life-event sales Phase 2–3

What: Sell to companies, event managers and families for openings, naming ceremonies, birthdays, weddings, vehicle pujas.

Why: The open 'public circle' beyond our own contacts.

How: Sales executive, CRM pipeline, Google Ads for 'satvik catering Hyderabad', referral fees for event planners.

KPIs: Leads, conversion %, revenue per salesperson

R11 · Pickles, papads and powders Phase 3

What: Masala powders, sambar powder, pickles, papads: very long shelf life, ideal for online and export.

Why: Adjacent vertical with low spoilage; strong Andhra/Telangana demand.

How: Recipe standardisation, lab testing, FSSAI labelling, co-packer if needed.

KPIs: SKUs live, online share, export enquiries

R12 · QSR and fine-dine restaurants Phase 4–5

What: Satvik quick-service outlets under the brand via the interested franchise partner; vision of 100 QSRs in Hyderabad; later fine dine.

Why: Partner offers network, funds and execution; pure-veg QSR is under-served.

How: Brand licence agreement, central kitchen, 1–3 pilot outlets, SOPs, then scale.

KPIs: Outlets live, royalty income, food-safety audit scores

R13 · Exports and diaspora Phase 5

What: Long-shelf-life range for diaspora markets and temples abroad.

Why: Family business in Malaysia; European contacts; ISKCON global network.

How: Central FSSAI licence + IEC + APEDA; export partner; destination-country labelling.

KPIs: Countries served, export revenue

R14 · Donor and sponsor packs Phase 1 onward

What: Bahumana gift boxes for big donors, sponsor prasadam for festivals, 5 kg namkeen tins in monsoon.

Why: Deepens donor relationships; big donors already ask.

How: Donor-care team offers packs with campaigns; sponsorship tiers include prasadam.

KPIs: Packs sent, donor retention uplift

SECTION 7

Products, packaging and pricing

First criterion: a shelf life of at least 15–20 days, so stock can be made ahead of festivals and any surplus can be sold online. Shelf-life figures are typical values and will be confirmed by lab tests on our own recipes and packs.

Product	Category	Shelf life (days)	Tier	Sweetener	Packs
Groundnut chikki	Sweet – brittle	60–90	Mass	Jaggery	100 g, 200 g, 500 g
Til chikki (black & white)	Sweet – brittle	60–90	Mass/Premium	Jaggery	100 g, 200 g
Dry-fruit chikki	Sweet – brittle	45–60	Premium	Jaggery/Sugar	200 g, gift tin
Puri unde (puffed-rice balls)	Sweet – laddu	20–30	Mass	Jaggery, coconut, elaichi	6-pc, 12-pc
Poha puffed-rice unde	Sweet – laddu	20–30	Wellness	Jaggery	6-pc
Kaja / square kaja	Sweet – fried	15–20	Mass	Sugar syrup	250 g, 500 g
Besan / boondi laddu	Sweet – laddu	10–15	Mass/Premium	Sugar, ghee	250 g, 500 g, 1 kg
Dry-fruit laddu	Sweet – laddu	20–30	Premium	Dates/jaggery	250 g, gift box
Mysore pak	Sweet – ghee	15–20	Premium	Sugar, ghee	250 g, 500 g
Khara / mixture namkeen	Savory	30–45	Mass	—	200 g, 500 g, 5 kg tin
Chakli / murukku	Savory	30–45	Mass	—	200 g, 400 g
Ribbon pakoda / chekkalu	Savory	30–45	Mass	—	200 g
Roasted/spiced nuts	Savory	60–90	Premium	—	150 g tins
Masala powders & sambar powder	Pantry	180+	Mid	—	100 g, 250 g
Pickles	Pantry	180+	Mid	—	250 g, 500 g
Papads	Pantry	180+	Mass	—	200 g
Dry fruits assortment	Gifting	90+	Premium	—	Gift boxes
Weekly special (250 g box)	Rotating	7–20	Mass	Varies	250 g see-through

Gift-box tiers

Tier	Price	Contents	Best for
Seva box	₹250–₹450	3 items (chikki, namkeen, laddu) in a see-through or card box with brand sticker	Staff gifting at scale, students, communities
Utsav box	₹600–₹1,200	5–6 items including a premium sweet and dry fruits in a printed rigid box	Employees, association members, donors
Vaikuntha box	₹1,500–₹3,000+	Wooden box, dry fruits, premium sweets, small Deity picture / Gita card	Clients, VIPs, directors, big donors
White-label add-on	+₹15–₹60 per box	Client logo sticker/sleeve, greeting card, custom message	Any tier, MOQ applies

Packaging

- See-through plastic boxes (already in use) for counters and the 250 g weekly item; move to food-grade PET with tamper seal.
- Branded stickers: temple brand + FSSAI number + MFD/best-before + ingredients + veg mark; client stickers for white-label.
- Printed rigid boxes for the Utsav tier; wooden boxes (stock in storeroom) for the Vaikuntha tier.
- Gift sleeve with a short story card: 'Prepared with devotion and offered to Sri Sri Radha Krishna'.
- Tins for 5 kg namkeen and premium nuts.
- Eco option: kraft paper boxes and cloth bags for premium buyers; reduce single-use plastic over time.
- Every pack carries a QR code to the online store and to donation pages (cross-sell).

Pricing strategy and unit economics

Why two tiers

Premium alone means limited customers and limited business, and it cannot pay for rent, power and salaries. Competitive pricing alone means thin margins. Running both lets volume keep the kitchen busy while premium boxes add margin.

Tier	Logic	Used for
Mass / competitive tier	Priced at or slightly below local shop prices; high volume; keeps the kitchen running and covers fixed costs (rent, salaries, power).	Counters, communities, internal supply, student packs
Premium tier	Premium ingredients (pure ghee, dry fruits, jaggery), premium packaging; limited volumes, high margin.	Corporate VIP boxes, donors, online wellness range
Internal transfer price	Cost + agreed small margin; fixed for a quarter; budget per department.	Culture Connect, LLP, online donors
Volume slabs (B2B)	e.g. 100–499 boxes list price; 500–1,999 −5%; 2,000+ −8% [ESTIMATE]; 50% advance, balance before dispatch.	Corporate and institutional orders
Festival pricing	Fixed MRP; combos for quick checkout (₹100/₹200/₹500) to reduce queues.	Festival stalls

Illustrative unit economics [estimate]

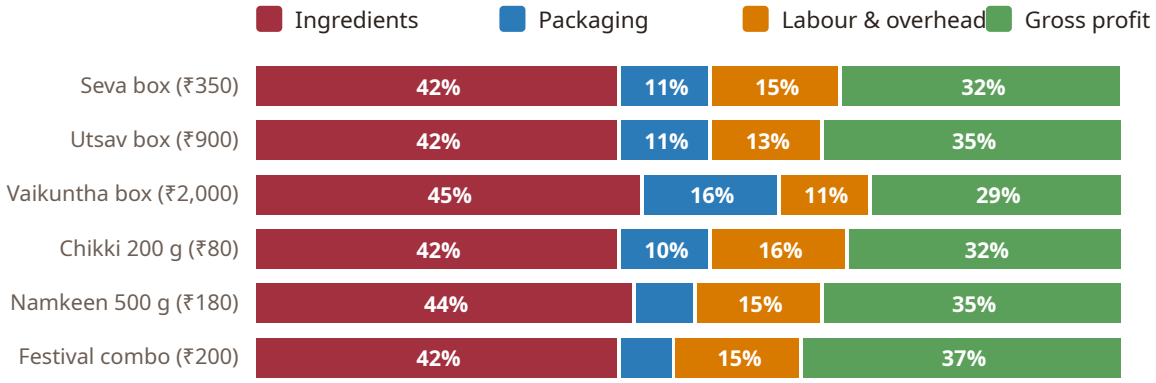

Figure 3. Where each rupee of net price goes (after 5% GST). To be replaced by production's costing sheets (task 3.3).

Item	MRP	Net of GST	Ingredients	Packaging	Labour & OH	Gross profit	GM %
Seva box (₹350)	₹350	₹333	₹140	₹35	₹50	₹108	32%
Utsav box (₹900)	₹900	₹857	₹360	₹90	₹110	₹297	35%
Vaikuntha box (₹2,000)	₹2000	₹1905	₹850	₹300	₹200	₹555	29%
Chikki 200 g (₹80)	₹80	₹76	₹32	₹8	₹12	₹24	32%
Namkeen 500 g (₹180)	₹180	₹171	₹75	₹12	₹25	₹59	35%
Festival combo (₹200)	₹200	₹190	₹80	₹12	₹28	₹70	37%

SECTION 8

Go-to-market: marketing and sales

Lever	Plan
Brand story	'From the house of Radha Krishna': satvik, pure, no preservatives, no artificial colours, offered to the Deity, profits support temple service.
Databases	Segment donor, visitor, event and corporate databases; AI scoring to find likely buyers (DMTT data scientists).
WhatsApp / SMS / RCS	Festival broadcast calendars, catalogue links, one-tap reorder, community groups for gated societies.
Google Ads	Search: 'Diwali gift boxes Hyderabad', 'corporate gifts Hyderabad', 'satvik catering', 'pure ghee sweets online'.
Meta Ads & Instagram	Reels of prasadam preparation, Deity offering, festival crowds; flash sales for leftovers; retargeting.
SEO & content	Leverage existing top ranking; product pages, recipes, 'why satvik' articles; Google Business Profile for the food court.
Owner-level selling	Personal meetings with company owners via chambers, BNI, Rotary, T-Hub; sample box + catalogue + price list.
Events & PR	Record attempts, Dandiya tie-ups, stalls at chamber and BNI events; press on 'temple kitchen goes online'.
On-campus visibility	Signage and QR codes at darshan exit, Goshala, waterfall, restaurant; 'take prasadam home' messaging.
Cross-sell	QR on every pack to store and donation pages; prasadam with donation receipts; yatra packs.

Customer funnel

Stage	Activities
Awareness	Festival crowds, social reels, SEO, chamber/BNI events
Interest	Catalogue on WhatsApp, website product pages, sample boxes
Consideration	Owner meeting, price list, white-label mock-up, reviews
Purchase	Online checkout / PO with advance / UPI at stall
Delivery & delight	On-time dispatch, story card, feedback call
Repeat & referral	Festival calendar reminders, subscription, referral rewards

Corporate gifting sales process

1. Build the target list from chamber, BNI, Rotary, T-Hub, donor and MNR contacts; rank by staff size.
2. Warm introduction by Mukunda Dasa; meet the owner/HR with a sample box, catalogue and price list.
3. Offer own-brand or white-label; share the mock-up within 48 hours.
4. Quote with volume slab, delivery date and 50% advance.
5. Confirm PO, lock the production slot, approve the sticker proof.
6. Dispatch with story card; feedback call; reminder for the next festival.

Festival stall playbook

- Put stalls where footfall is: entrance, darshan exit queue, Goshala walking path, staircases, garden, waterfall and benches, Goshala entrance to Samskara hall.
- Several counters in a row instead of one crowded counter.
- Pre-packed combos (₹100 / ₹200 / ₹500) and UPI at every counter.
- Runners restock hourly; stock-out alerts on WhatsApp.
- Restaurant takes over the lawn with chairs and round tables on festival days.
- Permanent rain-proof pagodas.
- Leftover shelf-stable stock goes online within 48 hours.

If someone says the temple is becoming commercial

This is passive selling. We are not pushing anyone; we place stalls where devotees already are, and they choose to approach. Prasadam is offered to the Deity first and the proceeds support temple service.

SECTION 9

Operations and compliance

Area	Plan
Kitchen & production	Start in the existing/new kitchen with 4 staff + 1 hire now; add seasonal staff for hero campaigns; exclusive cook once weekly volume is committed; later a dedicated unit (converted building outside the temple).
Standard recipes	Written recipes and yield sheets for every SKU so taste and cost stay constant; batch records.
Shelf-life & quality	Lab shelf-life test per SKU before online launch; moisture-proof packing; first-in-first-out; batch codes.
Procurement	Use negotiated temple vendor rates; bulk-buy ghee, jaggery, groundnut, dry fruits before festival season; two suppliers per key item.
Storage	Dry store with racks, pest control and temperature/humidity monitoring; separate finished-goods store.
Order management	One system for all orders (internal, B2B, online, festival): Shopify/ERP + production calendar; weekly minimum orders; festival forecasts from the calendar.
Fulfilment	Reuse donor-dispatch set-up; courier aggregator for fastest partner; own vehicle for Hyderabad B2B; Amazon for marketplace.
Festival stall SOP	Layout map, stall kit (pagoda, table, POS, UPI QR, signage), cash-handling rules, hourly restocking runners, stock-out alerts.
Compliance	FSSAI registration/licence matched to turnover, labelling (MFD, best-before, ingredients, veg mark, FSSAI no.), GST 5%, trade licence, fire NOC, staff medical checks, water testing.
Finance & ROI (DMTT)	Separate cost centre; track revenue, ingredient cost, packaging, salaries, marketing, hours spent by each team; monthly P&L and ROI dashboard.

Compliance checklist

- FSSAI State Licence (manufacturing), covering e-commerce and off-site stalls.
- Labels: product name, ingredients, allergens (nuts, milk, sesame), net weight, MRP, date of manufacture, best-before, batch, FSSAI logo and number, veg mark, customer-care contact.
- Voluntary best-before boards on loose sweets at counters.
- GST registration; 5% GST on sweets and packaged namkeen (check HSN for each SKU).
- Legal metrology for pre-packed goods; trade licence; fire NOC; pest control; water testing; staff medical fitness.
- Written approval for using the temple / ISKCON name and logo on commercial packs.

Quality management

- Standard recipes and yield sheets for every SKU; taste-panel sign-off before launch.
- Shelf-life lab test per SKU and pack before selling online.
- Batch codes and FIFO; retained samples of each batch for 30 days.
- Hygiene SOP: head covers, gloves, hand-wash, cleaning log, pest control.
- Complaint log with 48-hour response and root-cause review; monthly internal audit.

SECTION 10

Organisation and governance

Role	Person	Responsibility
Executive sponsor	Temple leadership	Approves budget, brand use and major decisions
Vertical lead – marketing, sales & technology	Mukunda Dasa	Vision, network, marketing, e-commerce, DMTT reporting
Production lead	Prabhu (production)	Recipes, costing, samples, capacity, kitchen team
Production manager (reporting line)	Production lead's manager	Approves production commitments and resources
E-commerce & logistics advisor	Subhadra Radha Devi Mataji	Shopify/Amazon, fastest shipping
Corporate sales representative	To be assigned by Mukunda Dasa	Joins owner meetings; manages B2B pipeline
Order coordinator (new hire)	To hire now	Order confirmations, internal orders, production calendar
Design & packaging	DMTT designer	Catalogue, boxes, stickers, white-label mock-ups
Data & AI	DMTT data scientists	Demand analysis, targeting, ROI dashboard
Finance	Accounts team	Cost centre, GST, P&L, ROI
Quality & compliance	To assign	FSSAI, labelling, hygiene audits

Responsibility matrix (RACI)

R = Responsible · A = Accountable · C = Consulted · I = Informed

Activity	Sponsor	Mukunda Dasa	Production lead	Prod. manager	DMTT	Sales rep	Finance	Quality
Vertical strategy & budget	A	R	C	C	C	I	C	I
Product list, recipes, samples	I	C	R/A	C	I	I	I	C
Costing & pricing	I	A	R	C	C	C	C	I
Packaging & catalogue design	I	A	C	I	R	C	I	C
Corporate & white-label sales	I	A	C	I	C	R	I	I
Festival stalls	I	A	R	C	C	C	C	C
Internal weekly orders	I	A	R	I	C	I	C	I
E-commerce & logistics	I	A	C	I	R	I	C	I
Compliance (FSSAI, labels, hygiene)	I	C	R	C	I	I	I	A
ROI tracking & reporting	I	A	C	I	R	I	R	I
Hiring & staffing	I	C	R	A	I	I	C	I
Capex (pagodas, machines, unit)	A	R	C	C	I	I	C	C

Governance rhythm

Cadence	Forum	Chair
Daily (festival weeks)	Stand-up: production + stalls + dispatch	Production lead
Weekly	Order & pipeline review (orders, production plan, sales pipeline, issues)	Mukunda Dasa
Monthly	P&L and ROI review with DMTT & finance; KPI dashboard	Mukunda Dasa + Finance
After each hero campaign	Post-campaign review and lessons learned	Vertical lead
Quarterly	Steering review with temple leadership; budget and capex decisions	Sponsor

SECTION 11

Roadmap

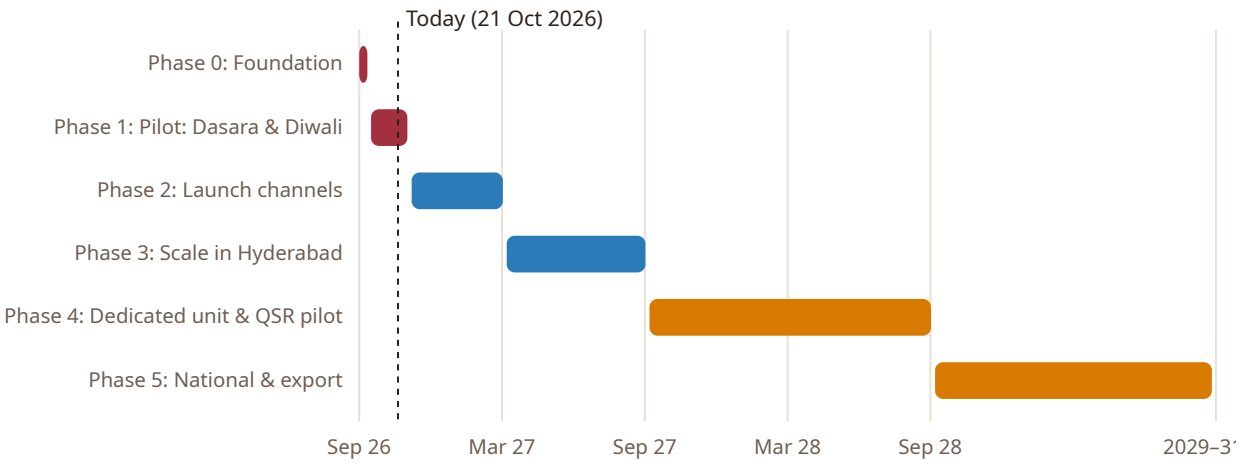

Figure 4. Baseline roadmap (dated 26 Sep 2026). Phases 0 and 1 overlap with the Dasara–Diwali season now under way.

Phase 0 – Foundation

26 Sep – 10 Oct 2026 (2 weeks)

Goal: Data, decisions and a ready-to-sell kit

- Share order confirmation details requested by production
- Analyse 6–12 months of prasadam purchases and order volumes
- Estimate weekly minimum and festival peak demand
- Budget per department (LLP, Culture Connect, online donors)
- Final product list, quantities and samples from production
- Costing and two-tier pricing (mass and premium)
- Hire one additional production/order person
- Gift catalogue, menu, price list, sample boxes, sticker templates
- Decision meeting: Mukunda Dasa + production lead + his manager
- Set up DMTT cost centre and ROI tracking sheet
- Check FSSAI licence scope and brand-use approval

Phase 1 – Pilot: Dasara & Diwali 11 Oct – 30 Nov 2026

Goal: Prove corporate gifting, stalls and internal supply

- Owner meetings with 20+ companies, MNR, chambers, BNI
- Serve the three companies that already asked
- White-label boxes for first clients
- Mahalaya / Pitru Paksha and Dasara stalls in multiple locations
- Diwali gift box production and dispatch
- Weekly standing internal orders live
- Leftover stock sold online / Instagram
- Post-pilot review: sales, margin, hours, lessons

Phase 2 – Launch channels Dec 2026 – Mar 2027

Goal: Year-round revenue and digital sales

- Shopify store + Amazon listing for shelf-stable range
- Shelf-life lab tests and full FSSAI labelling
- New Year, Sankranti (til chikki), Vaikuntha Ekadashi, Gita Jayanti campaigns
- Gated community weekend stalls (start 10, grow to 30)
- Catering pilot: house programmes and small events
- Satvik subscription box beta
- CRM and B2B sales executive

Phase 3 – Scale in Hyderabad Apr – Sep 2027

Goal: 10× festival sales and new product lines

- Permanent rain-proof pagodas; lawn food-court SOP
- Pickles, papads and powders line
- Janmashtami 2027 target: 10× 2026 counter sales
- Catering scale-up; partner kitchens for 50,000-meal orders
- Learning visits: ISKCON Mysore and Ahmedabad
- Year-1 review and Year-2 budget

Phase 4 – Dedicated unit & QSR pilot Oct 2027 – Sep 2028 (Year 2)

Goal: Own capacity, machinery and first outlets

- Dedicated production unit (converted building), machinery
- State/Central FSSAI licence as turnover grows
- Brand licence agreement with QSR partner; 1–3 pilot outlets
- Pan-India e-commerce push; corporate contracts across South India
- Team of ~25–40

Phase 5 – National & export Year 3–5 (2028–2031)

Goal: A national vertical with exports

- Scale QSRs towards the 100-outlet Hyderabad vision
- Export via Malaysia and Europe contacts; APEDA/IEC
- Replicate model with other temples
- ~100 employees

SECTION 11 (CONTD.)

Milestones and hero-campaign calendar

Milestone	Target	Gate criteria
M1 Plan circulated	30 Sep 2026	Plan shared with production lead and manager
M2 Decision meeting / charter signed	Oct 2026	Products, quantities, budget, pricing agreed
M3 Sales kit ready	12 Oct 2026	Catalogue, prices, 10 sample boxes
M4 Dasara delivered	20 Oct 2026	Stalls live, first corporate orders delivered
M5 Diwali delivered	6 Nov 2026	All Diwali orders dispatched on time
M6 Pilot review (gate G1)	30 Nov 2026	P&L, ROI, lessons; go/no-go for Phase 2
M7 Online store live	15 Jan 2027	Shopify live with ≥ 12 SKUs
M8 Pagodas installed	30 Jun 2027	Permanent stalls in place
M9 Janmashtami 2027	Sep 2027	Counter sales ≥ ₹30 L (base) / ₹60 L (stretch)
M10 Year-1 review (gate G3)	30 Sep 2027	Annual report and Year-2 budget approved

Hero-campaign calendar

Dates are approximate; confirm against the temple Panchang.

Festival	When	Opportunity	Demand
Mahalaya / Pitru Paksha	26 Sep – 10 Oct 2026	Stalls for devotees doing service; prasadam packs	Medium
Navaratri & Dasara (Vijayadashami)	11 – 20 Oct 2026	Corporate & institution gifting, Dandiya tie-ups	Very high
Deepavali	8 Nov 2026	Gift boxes, white-label, donors	Very high
Kartika month / Damodara	Oct – Nov 2026	Lamp-offering visitors; stalls	High
Gita Jayanti	Dec 2026	Gita + prasadam gift packs	Medium
New Year	1 Jan 2027	Corporate new-year gifting	High
Vaikuntha Ekadashi	Dec 2026 / Jan 2027	Huge footfall; stalls	Very high
Makara Sankranti	14 Jan 2027	Til chikki, sweets, gifting	High
Gaura Purnima / Holi	Mar 2027	Stalls, festival feast	Medium
Ugadi & Sri Rama Navami	Mar – Apr 2027	Ugadi packs, gifting	Medium
Narasimha Chaturdashi	May 2027	Stalls	Medium
Ratha Yatra	Jun – Jul 2027	Street stalls along the route	High
Sri Krishna Janmashtami	Aug/Sep 2027	10× target on counters, online pre-orders	Very high
Ganesh Chaturthi	Sep 2027	Laddu/modak demand, gifting	High

SECTION 12

Financial plan [estimate]

₹224 L
Year-1 revenue

37%
Blended gross margin

₹67 L
Year-1 incremental opex

₹15 L
Year-1 net contribution (before capex)

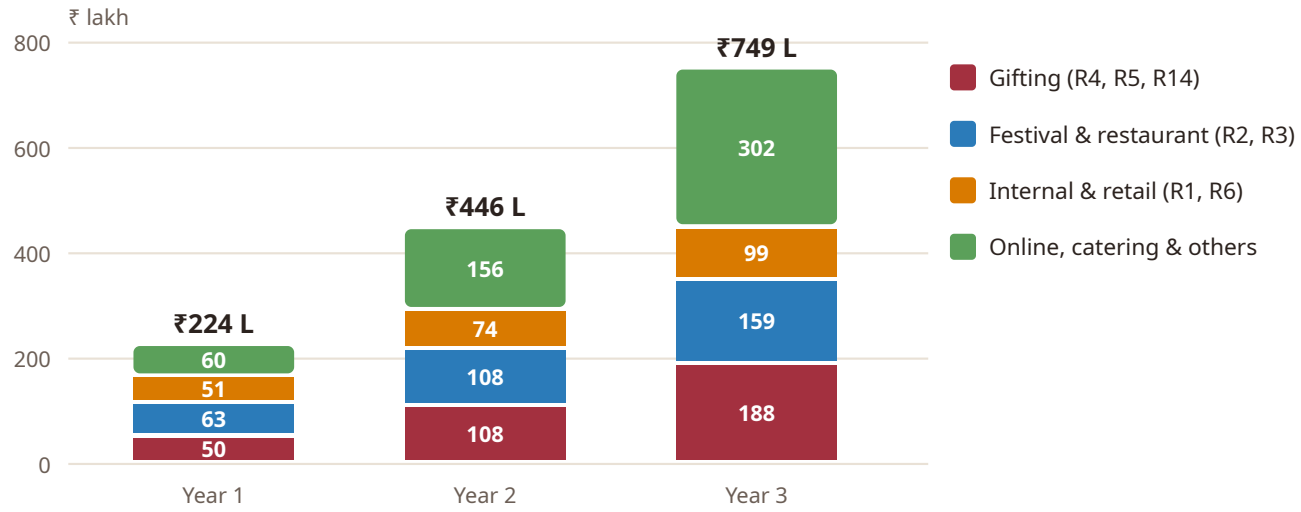

Figure 5. Revenue by stream group, ₹ lakh. Year 2 and Year 3 apply the growth multipliers in the table below.

Stream	Y1	Y2	Y3	GM	Basis
Internal supply (R1)	36	47	56	25%	₹3 L/month average across departments
Festival stalls (R2)	45	81	122	50%	Janmashtami 2027 ₹30 L (5× first year) + other festivals ₹15 L
Restaurant & lawn uplift (R3)	18	27	38	35%	Incremental ₹1.5 L/month
Corporate gifting – own brand (R4)	30	66	119	40%	Diwali/Dasara 5,000 boxes × ₹450 + New Year/Sankranti
White-label gifting (R5)	12	30	54	40%	8–10 clients
Daily snacking retail (R6)	15	27	43	40%	Top-10 SKUs via shop and counters
E-commerce (R7)	18	54	108	30%	Ramp ₹0.5 L → ₹3 L/month
Catering & bulk meals (R8)	20	50	100	25%	Events + 1 large order
Gated communities (R9)	10	20	30	40%	10→30 communities, ₹12k–₹15k per event
Outbound B2B & life events (R10)	8	20	40	35%	Sales executive from Phase 2
Pickles, papads, powders (R11)	4	12	24	40%	Launch Phase 3
Donor & sponsor packs (R14)	8	12	16	35%	Bahumana, monsoon tins
QSR royalty (R12)	0	0	0	100%	Year 2 pilots; Year 3 royalty modelled separately
Total (₹ lakh)	**224**	**446**	**749**	**37%**	**Year 3 excludes QSR royalty**

Costs, sensitivity and funding

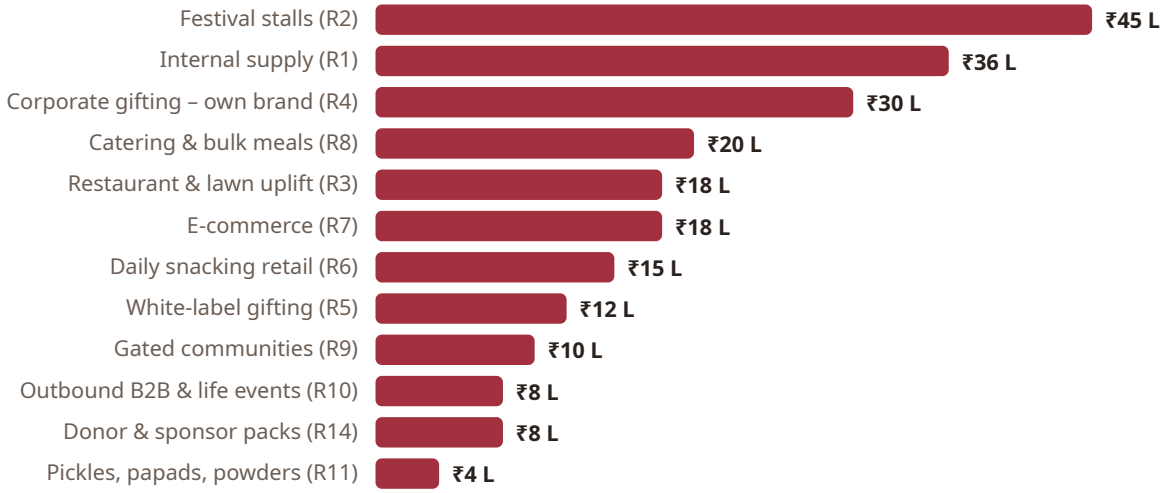

Figure 6. Year-1 revenue by stream, ₹ lakh.

Year-1 summary (₹ lakh)

Line	₹ lakh
Gross revenue	224
Gross profit (after ingredients, packaging, direct labour)	82
Incremental operating costs	67
Net contribution before capex	15
Net margin	6.8%

Year-1 incremental operating costs

Item	₹ lakh	Note
Additional staff salaries	24	1 order coordinator now + seasonal cooks + sales exec (Phase 2)
Marketing (ads, content, samples)	12	≈5% of revenue
Packaging design & moulds	3	One-time catalogue, dies, stickers
Pagodas & stall kits	6	Rain-proof pagodas, tables, signage, POS
Technology (Shopify, apps, POS, CRM)	3	Subscriptions and integrations
Utilities & kitchen overheads (allocated)	8	Power, gas, water, maintenance
Compliance, testing, licences	2	Shelf-life tests, FSSAI, audits
Logistics not charged to customers	5	Free-shipping offers, B2B deliveries
Contingency	4	≈5%
Total	**67**	

Sensitivity: what if revenue misses plan?

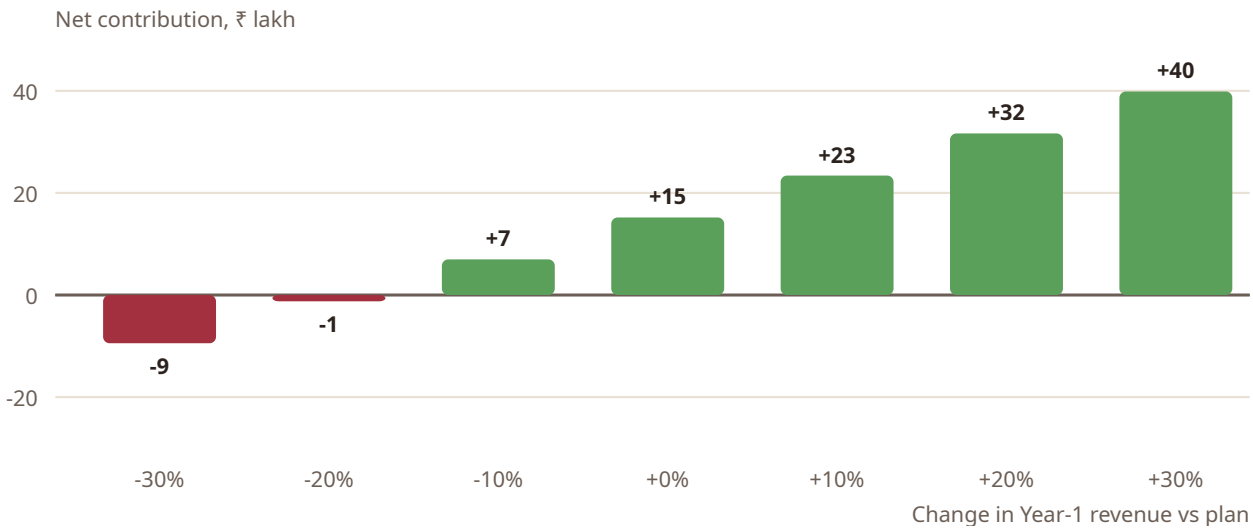

Figure 7. Year-1 net contribution if revenue lands above or below plan, holding opex and gross margin constant.

> **Reading the sensitivity**
>
> The new costs are covered at about 82% of planned revenue (≈ ₹183 lakh). A 20% shortfall means the vertical roughly breaks even rather than losing money, so the downside is limited. That is why opex and capex are released only at the phase gates.

Capital expenditure (staged)

Item	Estimate	When
Small machines (chikki cutter, laddu maker, sealing, packing)	₹8–15 L	Phase 2–3
Permanent pagodas (8–12 units)	₹6–12 L	Phase 3
Storage racks, dehumidifier, weighing & labelling	₹3–5 L	Phase 2
Dedicated production unit fit-out	₹50 L–1.5 Cr	Phase 4 (only after demand is proven)
Delivery vehicle	₹8–12 L	Phase 3–4

Funding

- Phases 0–1: existing kitchen budget plus 50% customer advances on B2B orders.
- Phases 2–3: reinvested surplus; sponsors and donors for pagodas and machines.
- Phase 4 onward: surplus plus partner capital (the QSR partner has offered funds); CSR support where appropriate.

SECTION 13

Risks and mitigation

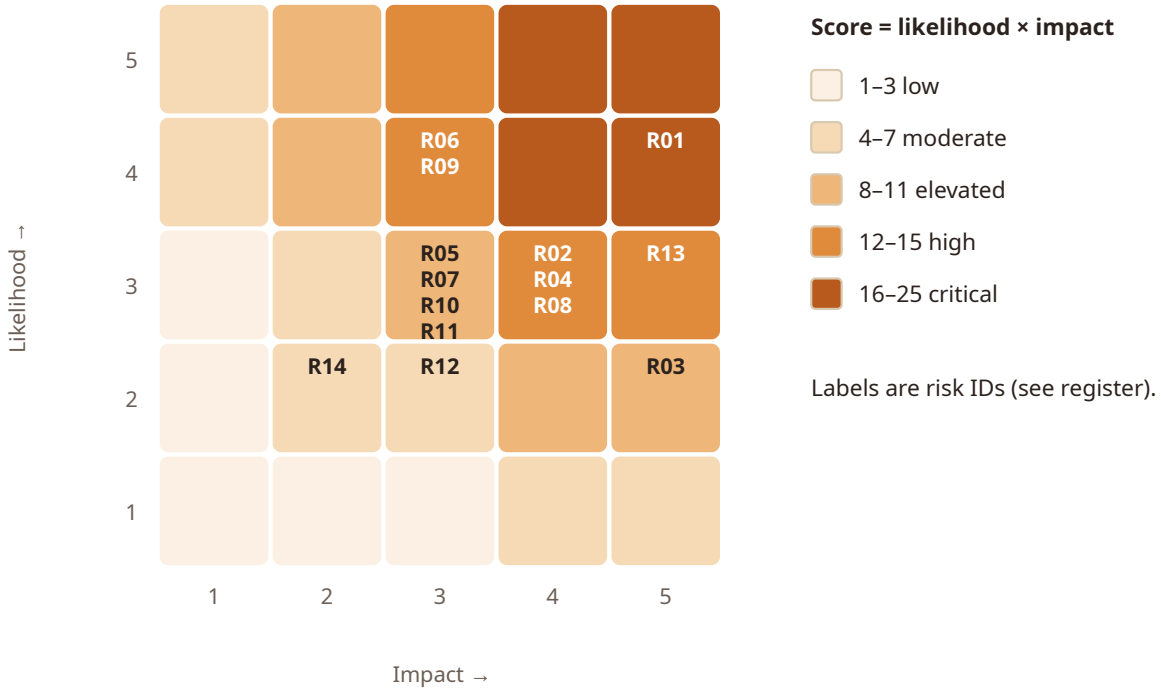

Figure 8. Risk heat map. Two risks score 15 or more: Diwali peak capacity (R01) and QSR partner quality (R13).

ID	Risk	L	I	Score	Mitigation	Owner
R-01	Kitchen cannot meet Diwali peak volume	4	5	20	Forecast from order data; seasonal staff; cap orders by capacity; 50% advance; partner kitchens on standby	Production lead
R-13	QSR partner quality not aligned with temple standards	3	5	15	Strict brand licence, audits, satvik SOPs, exit clauses	Sponsor
R-02	Premium-only pricing fails to cover fixed costs	3	4	12	Two-tier model; mass tier for volume; monthly margin review	Mukunda Dasa
R-04	Use of the ISKCON name on commercial packaging questioned	3	4	12	Written approval from temple leadership / group legal; consistent brand guidelines; consider a sub-brand	Sponsor
R-06	Ingredient price spikes (ghee, jaggery, nuts)	4	3	12	Forward-buy before season, two suppliers, sugar/jaggery flexibility, price validity clauses	Production lead
R-08	Late B2B deliveries during peak	3	4	12	Production calendar, cut-off dates, dispatch buffer, own vehicle	Order coordinator
R-09	Staff overload across departments	4	3	12	Dedicated hires; clear RACI; hours tracked in DMTT	Prod. manager
R-03	Food-safety incident harms temple reputation	2	5	10	FSSAI compliance, hygiene SOPs, batch codes, shelf-life tests, staff medical checks, recall plan	Quality
R-05	Perception that prasadam is being commercialised	3	3	9	Passive selling, devotional messaging, transparent use of proceeds, prasadam offered first	Mukunda Dasa

ID	Risk	L	I	Score	Mitigation	Owner
R-07	Festival sales below plan; leftover stock	3	3	9	Shelf-stable SKUs, pre-orders, online/Instagram clearance	DMTT
R-10	Online shipping damage/spoilage	3	3	9	Moisture-proof packs, tested courier partners, only shelf-stable items online	E-commerce advisor
R-11	Rain disrupts festival stalls	3	3	9	Rain-proof pagodas; indoor fallback locations	Facilities
R-12	Cash/stock leakage at stalls	2	3	6	UPI-first, POS, stock reconciliation per shift	Finance
R-14	Regulatory changes (FSSAI, GST)	2	2	4	Quarterly compliance review	Finance

SECTION 14

KPIs and ROI accountability

DMTT will track the vertical so that the question "we spent this much; what did we get back?" always has a clear answer.

KPI	Definition	Unit	Frequency
Revenue	Monthly gross revenue by stream	₹ lakh	Monthly
Gross margin	Revenue minus ingredients, packaging, direct labour	%	Monthly
ROI	(Contribution − DMTT & marketing cost) ÷ total invested cost	%	Monthly
Hours invested	Hours spent by DMTT, production, sales on the vertical	hours	Weekly
Festival sales	Sales per festival and per stall-hour	₹	Per event
Corporate pipeline	Leads, meetings, proposals, POs, boxes	count	Weekly
Online	Orders, conversion rate, CAC, ROAS, repeat rate	various	Weekly
Operations	On-time delivery %, order fill rate, spoilage %	%	Weekly
Quality	Complaints per 1,000 orders; audit score	count / score	Monthly
Customer	Rating, NPS, repeat B2B clients	score	Quarterly

ROI formula

ROI % = (Revenue − ingredients − packaging − direct labour − marketing − allocated overheads − value of hours invested) ÷ total cost including capex depreciation × 100. Hours are logged weekly by each team and valued at a standard hourly cost, so staff time is never treated as free.

Objectives and targets

#	Objective	Measure
O1	Launch the vertical with a ready sales kit	Catalogue, prices, samples and packaging ready by 10 Oct 2026
O2	Win Dasara/Diwali corporate orders	≥ 5,000 gift boxes and ≥ 10 corporate/institution clients by 8 Nov 2026 [ESTIMATE]
O3	Stabilise internal supply	100% of internal prasadam orders placed with in-house production by Nov 2026
O4	Go online	Shopify + Amazon live with ≥ 12 SKUs by 31 Jan 2027
O5	10× festival counters	Janmashtami 2027 counter sales ≥ ₹60 lakh (10× 2026) as stretch; ₹30 lakh base
O6	Prove ROI	Monthly DMTT ROI report from Nov 2026; vertical cash-positive by month 6
O7	Year-1 revenue	₹2.2 crore gross revenue Oct 2026–Sep 2027 [ESTIMATE]

SECTION 15

Immediate actions and open questions

#	Action	Owner	Due
A1	Provide the order confirmation information requested for prasadam orders	Production team (order coordinator)	29 Sep 2026
A2	Hire an additional person for prasadam production work	Production lead	10 Oct 2026
A3	Propose available budget and requested items to production for samples and planning	Mukunda Dasa's team	30 Sep 2026
A4	Analyse 6–12 months of prasadam purchases and order volumes; share regular and festival estimates	DMTT data	3 Oct 2026
A5	Prepare and send the detailed plan for the prasadam and sweets vertical	Mukunda Dasa	30 Sep 2026 (this document)
A6	Identify additional prasadam products with longer shelf life	Production lead	4 Oct 2026
A7	Prepare packaging and product presentation for bulk corporate gifting	DMTT designer + Production lead	10 Oct 2026
A8	Send a representative to support meetings with large company owners	Mukunda Dasa	3 Oct 2026
A9	Hold the finalisation meeting on products and quantities	Mukunda Dasa	5 Oct 2026
A10	Route all prasadam orders only to the internal production lead	All departments	Immediate
A11	Get pagoda costing done	Facilities	31 Oct 2026
A12	Respond to the Chinmaya Mission 50,000-meal request	Mukunda Dasa	Immediate

Open questions for leadership and the production team

- Final product list, quantities and weekly minimum per department?
- Budget allocated for prasadam per department (LLP, Culture Connect, online donors)?
- Pricing model split between premium and competitive tiers?
- Real production capacity per day now, with one more hire, and at peak with seasonal staff?
- Which infrastructure and staffing investments are justified before demand is validated?
- Brand name on packs: 'ISKCON Hyderabad', 'Hare Krishna Golden Temple', or a sub-brand?
- Which FSSAI licence covers commercial sale and e-commerce, and does it cover off-site stalls?
- Transfer-pricing and profit-sharing between production and marketing teams?
- Who owns catering for very large orders (50,000 meals) until a catering unit exists?

New ideas to test cheaply

Idea	Description
Satvik Subscription Box	Monthly box of 4–6 seasonal sweets and savories delivered to homes and offices; donor-exclusive pricing.
Festival Pre-order App/Page	Pre-book Janmashtami/Diwali boxes online; pick up at a dedicated counter to avoid queues; stock planned from pre-orders.
Corporate 'Prasadam Friday'	Weekly snack trays for company pantries on a subscription contract.

Idea	Description
Student and hostel packs	Low-ticket packs for MNR and other institutions during exams and festivals.
Diabetic-friendly namkeen line	Clearly labelled low-sugar/no-sugar range for donors who cannot eat sweets.
Jaggery & millet wellness range	Premium health range (jaggery chikki, millet laddu, poha puffed-rice unde).
Occasion kits	House-warming, naming ceremony, vehicle puja, shraddha and wedding return-gift kits.
Monsoon namkeen tins	5 kg tins for big donors and showrooms in the rainy season.
World-record event	Largest laddu / largest chikki / most prasadam packets in a day for PR (India Book of Records).
Live-kitchen experiences	Weekend 'make your own laddu' workshops for families and corporate teams.
Temple-to-desk vending	Branded shelf-stable snack racks in corporate offices and co-working spaces.
Instagram flash sales	Clear post-festival leftover stock with limited-time offers.
Referral programme for event planners	Commission for every catering or return-gift order referred.
Sponsor-a-box	Donors sponsor prasadam boxes distributed to the needy on festivals (cause marketing).
Travelling prasadam (Yatra tie-in)	Shelf-stable packs for yatris on the temple's pilgrimage tours (links to the Yatra department).
NRI gifting portal	Order from abroad, delivered to family in India for festivals.

SECTION 16

Approval and sign-off

By signing below, leadership approves the vertical, the phase-gated budget and the decisions recorded in Section 2.

Sign-off

Role	Name	Signature	Date
Executive sponsor (temple leadership)			
Vertical lead: marketing, sales & technology	Mukunda Dasa		
Production lead			
Finance			

Decisions recorded

#	Decision	Approved (Y/N)	Comments
1	Approve the Prasadam, Sweets & Savories vertical as a temple revenue vertical with its own cost centre		
2	Approve Year-1 incremental operating budget of about ₹67 lakh, released by phase		
3	Approve staged capex under ₹30 lakh (machines, pagodas, storage), each item released only after the previous phase meets its targets		
4	Decide the brand name on packs (ISKCON Hyderabad / Hare Krishna Golden Temple / a sub-brand) and give written approval for its commercial use		
5	Mandate that all departments place prasadam orders only with the in-house production team		
6	Approve one immediate hire for production/order coordination and seasonal staff for hero campaigns		
7	Authorise an FSSAI State Licence covering manufacturing, e-commerce and off-site stalls		
8	Adopt the governance rhythm: monthly ROI report from DMTT, quarterly steering review		

APPENDIX A

Everything said in the planning meeting

From the Prasadam Revenue Generation Plan meeting, 26 September 2026: recording, transcript and summary. Grouped by theme; nothing omitted.

Why now

- Mukunda Dasa is already driving revenue generation for the temple from several sources (gift items, e-commerce); prasadam is one of them.
- "Already we are late. If not today, tomorrow we have to start." Target to be doing this at scale within one year at most.
- First-mover advantage: no temple in the Bangalore group of temples has done this at large scale yet; the market is untapped.
- Earlier attempts (with Vasudha, with T-Hub and Justdial.com founders and government networks) stalled because margins did not work and nobody owned production. Now a dedicated production lead (Prabhu) is in place, so the missing piece is solved.
- Division of labour: "You take care of production. We take care of marketing and technology."
- A devotee must own the vision for 5–10 years and keep driving it.

Brand advantage

- When customers hear it is from ISKCON, customer acquisition is easy; people trust the name.
- Competing small shops often use chemicals and artificial colours; buyers do not trust them.
- Positioning: 'from the house of Radha Krishna', satvik, pure, without preservatives. People will pay for that.
- Strong SEO and digital presence: anyone searching for ISKCON Hyderabad finds our pages first.
- Proposal discussed to move email addresses to an iskconhyderabad.org-style domain for brand consistency.
- Brand-building stunt idea: an India Book of Records / world-record attempt (e.g. via the 'Mandal Yatra' platform) for a large-quantity preparation, used on social media and the website.

Existing assets to reuse

- Huge databases, networks and warm contacts who have already contributed to the temple.
- Existing system for dispatching prasadam to online donors all over India; other departments already copy this system.
- Existing human resources, spaces, vendor list and negotiated rates.
- Existing e-commerce experience: Shopify, order management, fastest-courier comparison.
- Subhadra Radha Devi Mataji has shipped around 15,000 parcels via Amazon across the country and knows fastest shipping.
- AI engineers and data scientists in the team; cross-sell databases; SMS, WhatsApp, RCS, Google Ads, Meta Ads and organic marketing.
- A new kitchen was recently inaugurated.
- Wooden gift boxes are already available in the storeroom; see-through plastic boxes already in use.
- Personal network in the trade: Mukunda Dasa's cousins run a large sweets business in Malaysia and have supplied bahumana sweets before; family has long experience in this business.

Named contacts and circles

- MNR group: 42 institutions (schools, colleges: medical, engineering, commerce, arts). Staff and student gifting at Dasara.
- Steel/foundry company owners with ~10,000 employees across Karnataka, AP, Telangana, Kerala, Tamil Nadu.
- T-Hub mentors, directors, CEOs, founders.
- Event-management firms, e.g. Naukaran Entertainment (Kavitaji); high-profile Dasara Dandiya events attended by prominent people.
- Telangana Chamber of Commerce (president is close); member companies registered on its platform.
- Rotary, Round Table, Alpha Circle, BNI.
- Institute of Company Secretaries and chartered accountants, Hyderabad chapter (president, secretary).
- About 100 gated communities with weekend flea markets; organisers have given free stalls before.
- About 100 companies currently in touch; outbound selling is possible with manpower.
- Chinmaya Mission Bhagavad Gita recitation event asked for 50,000 meals over two days: an order we should not lose.
- Big donors (e.g. from large showrooms) phone asking for 5 kg of namkeen in the rainy season.
- Three companies have asked us for gift boxes, calendars and Dasara gifts; we could not serve them yet ("my heart is paining").
- A partner has offered network, funds and execution for 100 restaurants / 100 QSRs in Hyderabad under the brand (KFC-style popularity).

Festival counters evidence

- Janmashtami 2026: almost all prasadam counters sold out; around ₹6 lakh sales. Target: 10 times more.
- A family member of the production lead watched the corner stall for four hours; continuous crowds.
- Mahalaya (Pitru Paksha) brings many people for service; a figure of about 200 lakh was mentioned for last year (the transcript is unclear on what it measured). Put sweets and savories stalls there too.
- One stall causes queues of 10–50 people and others walk away; put many stalls in a row.
- Place stalls where footfall is: entrance, exit (especially the darshan exit queue), Goshala walking path, staircases, garden, near benches and the waterfall, from Goshala entrance to Samskara hall.
- A counter in a garden where people do not gather is of no use; traffic goes out through the exit.
- Permanent pagodas that can be closed in rain and opened otherwise; costing was requested earlier but not done.
- The restaurant should take over the entire lawn on festival days: chairs, round tables, full-length counters, sweets and savories in a full row.
- Answer to 'the temple is becoming commercial': this is passive selling. We are not pushing; people choose to approach a stall.
- Shelf-stable stock is the hedge: if festival sales fall short, sell the balance online / via Instagram with a small discount.

Pricing and unit economics

- Two options: premium price for limited premium customers (limited staff, high revenue per order), or competitive price for huge volumes.
- Illustration used: 1 lakh orders per month at a small ticket making ₹10 lakh, versus 10,000 premium orders.
- Premium alone cannot cover capex, rent, electricity and salaries; it is a niche and hard to push.
- Decision: run two segments. The mass segment keeps the kitchen running (rotation, maintenance); premium adds margin.

- Very attractive packaging wins the market.
- Big brands have entered (a well-known brand now sells a full range of laddus and products), which proves the market.
- Prabhu will give good costing for mass and premium items; we help Prabhu grow so he gets volume-based better pricing.
- Jaggery is costlier than sugar; sugar is acceptable. Prefer jaggery-based where price allows; pick whichever gives the better price.
- Namkeen for diabetics, who cannot eat sweets.

Production and capacity

- Production lead currently has 4 people; will add people directly for good orders.
- Internal demand exists daily: donor campaigns, Culture Connect, the corporate relations department, the new Virpaksha campaign (daily donors).
- Weekly minimum order with one fixed delivery day (4 deliveries a month) so the kitchen can plan.
- Festival months (hero campaigns) communicated in advance through the system with quantities from the calendar.
- An exclusive cook for our orders if we commit volume.
- Last Krishna-related order was received and prepared quickly even at the last minute.
- Procurement rule: stop giving prasadam orders to anyone else; order only from the internal production lead.
- Infrastructure can be established if needed; later, a separate building outside the temple can be converted into a unit, as other temples do.
- Catering needs heavy capex and infrastructure; plan it as its own vertical.
- A pantry/service area exists near the restaurant; cooking happens in the main kitchen.

Products

- Criterion one: shelf life of 15–20 days.
- Kaja (including square kaja), khara (savoury) and sweet items.
- Groundnut chikki; black til and white til chikkis.
- Puri unde (puffed-rice balls) with jaggery, coconut and elaichi; poha puffed-rice variant for health-conscious buyers.
- Laddus and a 250 g weekly new item in a see-through box, which had very good response.
- Namkeens / mixtures.
- Pickles, papads, masala powders, sambar powder: another vertical.
- Dry fruits for gifting.
- Samples shown of small machines (e.g. a small red machine) for making items.

Governance and ROI

- Track from DMTT how much effort, time and energy was spent and how much revenue was generated for the temple.
- If someone asks 'you spent this much, what did we get back?', the ROI must be clearly visible.
- Budget for prasadam must be stated per department: LLP, Culture Connect, online donors.
- Approval path: production lead discusses with his reporting manager; then one meeting of Mukunda Dasa, the production lead and the manager to finalise.

Learning visits and long-term vision

- Visit ISKCON Mysore (prasadam there is very good) and Ahmedabad; spend a day with those devotees. Introductions available.
- Tech-platform thinking: Zomato, Swiggy, Zerodha, Amazon own little but scale through technology. Our scale will also come from technology.
- Long-term: 100 employees, export to different countries, 100 QSRs.
- Other related ideas raised: dairy products and ghee; temple advertising projects; education company in 150 languages; Krishna-conscious games; audio/video in 50 languages (outside this plan's scope but share the same DMTT capability).

Smaller details also mentioned

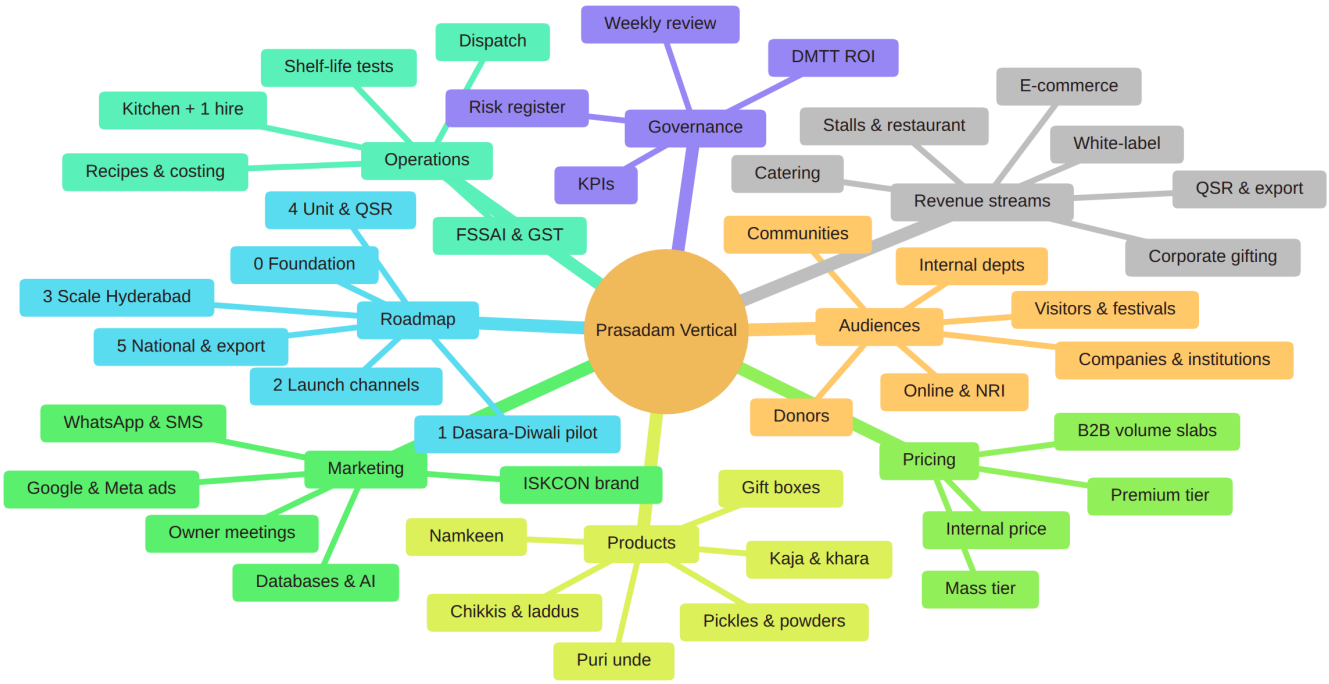

- About 10 days was mentioned for samples and feasibility on internal-department pricing.
- "In 65 days we can do it" was said about getting the vertical moving before the hero campaigns.
- Hero campaigns named: Dasara, Ganesh Chaturthi, New Year, Pitru Paksha, Acharya month and other temple festivals.
- Vasudha is not a competitor; it works on a different platform. Few other temple groups produce sweets and savories at scale.
- Mukunda Dasa recently visited a well-known business that now sells a full range of laddus and products, and brought back samples.
- A visitor with long-running business in Europe offered a connection.
- Companies already pay some vendor for festival gifts; middlemen in purchase departments may take commission, but owners prefer a source they trust.
- Gift boxes can carry the client's branding with a sticker; earlier requests were refused because no facility existed.
- Chinmaya Mission's 50,000-meal enquiry was passed to a professor contact; it should not be lost.
- Google has given the organisation ₹75 lakh in funding for technology products (context for DMTT's capacity).
- Some passages of the transcript are garbled (names, a few numbers); points are recorded as heard.

APPENDIX C

Audience profiles and sources

Temple visitors and festival crowds — Circle 1: those who come to us

Who: Daily visitors, weekend families, festival crowds (Janmashtami, Mahalaya, Ratha Yatra, Gaura Purnima, etc.) · **Needs:** Quick purchase, prasadam to take home, meals on the lawn

Donors and life members — Circle 1: those who come to us

Who: Online donors across India, big donors, sponsors, Virpaksha daily donors · **Needs:** Blessed prasadam at home; gifts for family and staff

Internal departments — Circle 1: those who come to us

Who: Culture Connect, LLP, online donor team, corporate relations, campaigns · **Needs:** Reliable weekly supply at an agreed rate

Corporate companies — Circle 2: those we go to (B2B)

Who: Owners/HR/admin of firms with 500–10,000+ staff (steel, IT, pharma, real estate, T-Hub startups) · **Needs:** Festival gifts for staff and clients, on time, branded, within budget

Educational institutions — Circle 2: those we go to (B2B)

Who: MNR group (42 institutions) and other school/college chains · **Needs:** Gifts for staff and students; event snacks

Associations and professional networks — Circle 2: those we go to (B2B)

Who: Telangana Chamber of Commerce, BNI, Rotary, Round Table, Alpha Circle, ICSI/ICAI Hyderabad chapters · **Needs:** Member gifts, event hampers, meeting snacks

Event management companies — Circle 2: those we go to (B2B)

Who: Firms running Dandiya, weddings, corporate events (e.g. Naukaran Entertainment) · **Needs:** Return gifts, event food counters

Gated communities — Circle 3: open public (B2C outside)

Who: ~100 gated communities with weekend flea markets · **Needs:** Tasty, pure snacks; festival supplies

Life-event families (open circle) Circle 3: open public (B2C outside)

Who: Families holding house-warming, naming ceremony, birthdays, weddings, car/vehicle puja, shop openings, shraddha · **Needs:** Prasadam packs, return gifts, satvik catering

Online shoppers across India Circle 4: digital

Who: Social-media followers, NRIs sending gifts home, health-conscious buyers · **Needs:** Trusted, pure, shelf-stable sweets delivered fast

Health-conscious and diabetic buyers Circle 4: digital

Who: Buyers avoiding refined sugar, chemicals and colours · **Needs:** Jaggery-based, low-sugar, millet, poha puffed rice

Institutional bulk / large gatherings Circle 5: scale

Who: Spiritual/cultural organisations (e.g. Chinmaya Mission 50,000 meals), government and corporate events · **Needs:** Very large volumes, on time, hygienic

QSR and restaurant diners Circle 5: scale

Who: Urban young families and office-goers wanting pure veg fast food · **Needs:** Fast, affordable, pure veg

Export and diaspora Circle 5: scale

Who: Indian diaspora (Malaysia, Europe, USA, Middle East), ISKCON temples abroad, Indian grocery stores · **Needs:** Authentic long-shelf-life sweets, pickles, powders

1. Executive summary

The idea. Temple-made satvik sweets and savories, from the house of Radha Krishna, sold through every circle the temple already reaches: counters, restaurant, corporate gifting, white-label, catering, communities, e-commerce and, later, QSRs and exports.

Why us, why now. Temple visitors, donors, company owners, institutions and online followers already trust the ISKCON name. Janmashtami 2026 counters sold out at about ₹6 lakh with limited stalls. Three companies asked for Dasara gift boxes that we could not supply. A group has asked for 50,000 meals. Demand is real; what has been missing is a production owner, a sales kit and a system. That now exists: the temple production lead handles the kitchen, and Mukunda Dasa with the DMTT handles marketing, technology and sales.

The model. Run two price segments: a competitive mass tier for volume that keeps the kitchen busy and covers fixed costs, and a premium tier for margin. Sell through 14 revenue streams, starting with those needing little capital (internal supply, festival stalls, corporate and white-label gifting), then e-commerce, communities and catering, and later a dedicated unit, QSRs and exports.

The numbers. Year 1 (Oct 2026–Sep 2027) target gross revenue about ₹2.2 crore, rising to about ₹4.5 crore in Year 2 and ₹7.5 crore in Year 3 [ESTIMATE]. Year-1 incremental opex about ₹67 lakh and small capex under ₹30 lakh. No large building investment until demand is proven.

The ask. Approve the plan in the decision meeting (target 5 Oct 2026), finish the 2-week foundation sprint (data, samples, pricing, sales kit, one hire), and use Dasara and Diwali 2026 as the pilot.

Objectives at a glance

#	Objective	Measure
O1	Launch the vertical with a ready sales kit	Catalogue, prices, samples and packaging ready by 10 Oct 2026
O2	Win Dasara/Diwali corporate orders	≥ 5,000 gift boxes and ≥ 10 corporate/institution clients by 8 Nov 2026 [ESTIMATE]
O3	Stabilise internal supply	100% of internal prasadam orders placed with in-house production by Nov 2026
O4	Go online	Shopify + Amazon live with ≥ 12 SKUs by 31 Jan 2027
O5	10× festival counters	Janmashtami 2027 counter sales ≥ ₹60 lakh (10× 2026) as stretch; ₹30 lakh base
O6	Prove ROI	Monthly DMTT ROI report from Nov 2026; vertical cash-positive by month 6
O7	Year-1 revenue	₹2.2 crore gross revenue Oct 2026–Sep 2027 [ESTIMATE]

2. Background and meeting insights

This plan is built from the Prasadam Revenue Generation Plan meeting, 26 September 2026 (audio recording, transcript and summary). Every point raised is captured below, grouped by theme, so nothing is lost.

Why now

- Mukunda Dasa is already driving revenue generation for the temple from several sources (gift items, e-commerce); prasadam is one of them.
- "Already we are late. If not today, tomorrow we have to start." Target to be doing this at scale within one year at most.
- First-mover advantage: no temple in the Bangalore group of temples has done this at large scale yet; the market is untapped.
- Earlier attempts (with Vasudha, with T-Hub and Justdial.com founders and government networks) stalled because margins did not work and nobody owned production. Now a dedicated production lead (Prabhu) is in place, so the missing piece is solved.
- Division of labour: "You take care of production. We take care of marketing and technology."
- A devotee must own the vision for 5–10 years and keep driving it.

Brand advantage

- When customers hear it is from ISKCON, customer acquisition is easy; people trust the name.
- Competing small shops often use chemicals and artificial colours; buyers do not trust them.
- Positioning: 'from the house of Radha Krishna', satvik, pure, without preservatives. People will pay for that.
- Strong SEO and digital presence: anyone searching for ISKCON Hyderabad finds our pages first.
- Proposal discussed to move email addresses to an iskconhyderabad.org-style domain for brand consistency.
- Brand-building stunt idea: an India Book of Records / world-record attempt (e.g. via the 'Mandal Yatra' platform) for a large-quantity preparation, used on social media and the website.

Existing assets to reuse

- Huge databases, networks and warm contacts who have already contributed to the temple.
- Existing system for dispatching prasadam to online donors all over India; other departments already copy this system.
- Existing human resources, spaces, vendor list and negotiated rates.
- Existing e-commerce experience: Shopify, order management, fastest-courier comparison.
- Subhadra Radha Devi Mataji has shipped around 15,000 parcels via Amazon across the country and knows fastest shipping.
- AI engineers and data scientists in the team; cross-sell databases; SMS, WhatsApp, RCS, Google Ads, Meta Ads and organic marketing.
- A new kitchen was recently inaugurated.
- Wooden gift boxes are already available in the storeroom; see-through plastic boxes already in use.
- Personal network in the trade: Mukunda Dasa's cousins run a large sweets business in Malaysia and have supplied bahumana sweets before; family has long experience in this business.

Named contacts and circles

- MNR group: 42 institutions (schools, colleges: medical, engineering, commerce, arts). Staff and student gifting at Dasara.
- Steel/foundry company owners with ~10,000 employees across Karnataka, AP, Telangana, Kerala, Tamil Nadu.
- T-Hub mentors, directors, CEOs, founders.
- Event-management firms, e.g. Naukaran Entertainment (Kavitaji); high-profile Dasara Dandiya events attended by prominent people.
- Telangana Chamber of Commerce (president is close); member companies registered on its platform.
- Rotary, Round Table, Alpha Circle, BNI.
- Institute of Company Secretaries and chartered accountants, Hyderabad chapter (president, secretary).
- About 100 gated communities with weekend flea markets; organisers have given free stalls before.
- About 100 companies currently in touch; outbound selling is possible with manpower.
- Chinmaya Mission Bhagavad Gita recitation event asked for 50,000 meals over two days: an order we should not lose.
- Big donors (e.g. from large showrooms) phone asking for 5 kg of namkeen in the rainy season.
- Three companies have asked us for gift boxes, calendars and Dasara gifts; we could not serve them yet ("my heart is paining").
- A partner has offered network, funds and execution for 100 restaurants / 100 QSRs in Hyderabad under the brand (KFC-style popularity).

Festival counters evidence

- Janmashtami 2026: almost all prasadam counters sold out; around ₹6 lakh sales. Target: 10 times more.
- A family member of the production lead watched the corner stall for four hours; continuous crowds.
- Mahalaya (Pitru Paksha) brings many people for service; a figure of about 200 lakh was mentioned for last year (the transcript is unclear on what it measured). Put sweets and savories stalls there too.
- One stall causes queues of 10–50 people and others walk away; put many stalls in a row.
- Place stalls where footfall is: entrance, exit (especially the darshan exit queue), Goshala walking path, staircases, garden, near benches and the waterfall, from Goshala entrance to Samskara hall.
- A counter in a garden where people do not gather is of no use; traffic goes out through the exit.
- Permanent pagodas that can be closed in rain and opened otherwise; costing was requested earlier but not done.
- The restaurant should take over the entire lawn on festival days: chairs, round tables, full-length counters, sweets and savories in a full row.
- Answer to 'the temple is becoming commercial': this is passive selling. We are not pushing; people choose to approach a stall.

- Shelf-stable stock is the hedge: if festival sales fall short, sell the balance online / via Instagram with a small discount.

Pricing and unit economics

- Two options: premium price for limited premium customers (limited staff, high revenue per order), or competitive price for huge volumes.
- Illustration used: 1 lakh orders per month at a small ticket making ₹10 lakh, versus 10,000 premium orders.
- Premium alone cannot cover capex, rent, electricity and salaries; it is a niche and hard to push.
- Decision: run two segments. The mass segment keeps the kitchen running (rotation, maintenance); premium adds margin.
- Very attractive packaging wins the market.
- Big brands have entered (a well-known brand now sells a full range of laddus and products), which proves the market.
- Prabhu will give good costing for mass and premium items; we help Prabhu grow so he gets volume-based better pricing.
- Jaggery is costlier than sugar; sugar is acceptable. Prefer jaggery-based where price allows; pick whichever gives the better price.
- Namkeen for diabetics, who cannot eat sweets.

Production and capacity

- Production lead currently has 4 people; will add people directly for good orders.
- Internal demand exists daily: donor campaigns, Culture Connect, the corporate relations department, the new Virpaksha campaign (daily donors).
- Weekly minimum order with one fixed delivery day (4 deliveries a month) so the kitchen can plan.
- Festival months (hero campaigns) communicated in advance through the system with quantities from the calendar.
- An exclusive cook for our orders if we commit volume.
- Last Krishna-related order was received and prepared quickly even at the last minute.
- Procurement rule: stop giving prasadam orders to anyone else; order only from the internal production lead.
- Infrastructure can be established if needed; later, a separate building outside the temple can be converted into a unit, as other temples do.
- Catering needs heavy capex and infrastructure; plan it as its own vertical.
- A pantry/service area exists near the restaurant; cooking happens in the main kitchen.

Products

- Criterion one: shelf life of 15–20 days.
- Kaja (including square kaja), khara (savoury) and sweet items.
- Groundnut chikki; black til and white til chikkis.
- Puri unde (puffed-rice balls) with jaggery, coconut and elaichi; poha puffed-rice variant for health-conscious buyers.
- Laddus and a 250 g weekly new item in a see-through box, which had very good response.

- Namkeens / mixtures.
- Pickles, papads, masala powders, sambar powder: another vertical.
- Dry fruits for gifting.
- Samples shown of small machines (e.g. a small red machine) for making items.

Governance and ROI

- Track from DMTT how much effort, time and energy was spent and how much revenue was generated for the temple.
- If someone asks 'you spent this much, what did we get back?', the ROI must be clearly visible.
- Budget for prasadam must be stated per department: LLP, Culture Connect, online donors.
- Approval path: production lead discusses with his reporting manager; then one meeting of Mukunda Dasa, the production lead and the manager to finalise.

Learning visits and long-term vision

- Visit ISKCON Mysore (prasadam there is very good) and Ahmedabad; spend a day with those devotees. Introductions available.
- Tech-platform thinking: Zomato, Swiggy, Zerodha, Amazon own little but scale through technology. Our scale will also come from technology.
- Long-term: 100 employees, export to different countries, 100 QSRs.
- Other related ideas raised: dairy products and ghee; temple advertising projects; education company in 150 languages; Krishna-conscious games; audio/video in 50 languages (outside this plan's scope but share the same DMTT capability).

Smaller details also mentioned

- About 10 days was mentioned for samples and feasibility on internal-department pricing.
- "In 65 days we can do it" was said about getting the vertical moving before the hero campaigns.
- Hero campaigns named: Dasara, Ganesh Chaturthi, New Year, Pitru Paksha, Acharya month and other temple festivals.
- Vasudha is not a competitor; it works on a different platform. Few other temple groups produce sweets and savories at scale.
- Mukunda Dasa recently visited a well-known business that now sells a full range of laddus and products, and brought back samples.
- A visitor with long-running business in Europe offered a connection.
- Companies already pay some vendor for festival gifts; middlemen in purchase departments may take commission, but owners prefer a source they trust.
- Gift boxes can carry the client's branding with a sticker; earlier requests were refused because no facility existed.
- Chinmaya Mission's 50,000-meal enquiry was passed to a professor contact; it should not be lost.
- Google has given the organisation ₹75 lakh in funding for technology products (context for DMTT's capacity).
- Some passages of the transcript are garbled (names, a few numbers); points are recorded as heard.

3. Vision, mission and positioning

Vision. Make prasadam, sweets and savories one of the organisation's biggest verticals: first in Hyderabad, then across South India and all of India, and eventually in export markets. Profits fund our own kitchen, our own staff and machinery, and the temple's service to society.

Mission. Offer pure, satvik, preservative-free prasadam, prepared with devotion and offered to Sri Sri Radha Krishna, to every audience we already touch: visitors, donors, devotees, companies, institutions, communities and online buyers. Production is done by the temple kitchen; marketing, technology and sales are done by the DMTT; every rupee and hour is tracked for ROI.

Positioning statement

For families, companies and devotees who want sweets they can trust, our prasadam is the only satvik, preservative-free range prepared in a temple kitchen and offered to Sri Sri Radha Krishna, backed by the decades-old goodwill of ISKCON. Unlike local shops using colours and chemicals, every pack is pure, and every purchase supports the temple's service.

Brand pillars

- Purity: satvik (no onion, garlic, eggs), no preservatives, no artificial colours.
- Devotion: prepared with care and offered to the Deity first.
- Trust: the ISKCON / Hare Krishna name and a long record in Hyderabad.
- Service: proceeds support temple activities and food-for-all programmes.
- Delight: attractive packaging that makes a gift feel special.

Guiding principles

- Passive selling, not pushing: stalls where people are; people choose to buy.
- Start with what we have (kitchen, network, systems); invest only after demand is proven.
- Technology is the scale engine (like Zomato, Swiggy, Amazon): data, e-commerce, automation.
- Every rupee and every hour is tracked; ROI must be visible to anyone who asks.
- Quality and food safety are never traded for volume.

4. Market research

Desk research carried out on 26 September 2026. Figures are from third-party reports and should be treated as indicative.

Topic	Finding	Source
India packaged sweets market	₹8,431 crore in 2025, forecast ₹30,506 crore by 2034 (≈16% CAGR). Boxes are the largest packaging format (49%).	IMARC Group
India namkeen market	Expected to grow by USD 4.89 billion between 2025 and 2030 at ≈10.2% CAGR; Tier-II/III retail expansion is a driver.	Technavio
Corporate gifting	India's corporate gifting market could cross ₹27,000 crore by 2030, with organised players taking nearly half.	Chococraft industry note
Diwali gifting mix	About 58% of Diwali gifts in 2025 were for corporate celebrations and 42% personal.	Outlook India / MyFlowerTree report
Premiumisation	Consumers increasingly prefer premium packaged sweets, curated hampers and customised assortments.	Mordor Intelligence
GST 2.0	From 22 Sept 2025, pre-packaged and labelled namkeen,	Upstox / GST Council

	bhujia and mixtures moved from 12% to 5% GST; sweets are at 5%. Lower tax helps the mass segment.	56th meeting
FSSAI licence thresholds	From 1 April 2026 Basic Registration covers turnover up to ₹1.5 crore (was ₹12 lakh); Central Licence threshold raised from ₹20 crore to ₹50 crore; State Licence in between.	Mondaq / FSSAI order of 13 March 2026
Labelling	Pre-packaged sweets must show date of manufacture and best-before date. The best-before display for loose sweets on trays is now voluntary (recommended anyway).	FSSAI / Free Press Journal
Temple precedent	ISKCON Govinda's (Bangalore) runs an online store with same-day delivery slots for sweets, snacks, bakery, thalis and catering.	iskcongovindas.in
Local competition	Hyderabad incumbents: G Pulla Reddy (since 1948, pure ghee, gifting page), Almond House (ships worldwide), Vellanki Foods, Dadu's, Pista House, Olive Mithai, Godavari Vantillu.	Brand sites / IndiaShopping

What this means for us

- The packaged-sweets market is growing about 16% a year and boxes are the leading format, which suits gift boxes.
- Corporate buyers drive most festival gifting; our owner-level network is the fastest route to them.
- The GST cut to 5% on packaged namkeen lowers consumer prices and supports the mass tier.
- Under the April 2026 FSSAI thresholds, Year-1 turnover below ₹1.5 crore could fall under Basic Registration, but turnover of ₹2 crore or more needs a State Licence. Plan for a State Licence from the start.
- Hyderabad has strong heritage brands but none with a temple and satvik story at scale, which leaves a clear gap.
- Other ISKCON temples (e.g. Govinda's Bangalore) prove that temple food can be sold online with same-day delivery.

5. Competitive landscape and SWOT

Competitor	Profile	Tier	Our edge
G Pulla Reddy Sweets	Heritage pure-ghee brand; strong gifting and online	Premium	Temple sanctity + satvik + cause; prasadam is offered to the Deity
Almond House	Premium dry-fruit sweets, global shipping	Premium	Price flexibility (mass tier), institutional network
Vellanki Foods / Godavari Vantillu	Andhra traditional snacks, pickles, powders; online	Mid	Brand trust, festival footfall, donor base
Pista House / Dadu's / Olive Mithai	Retail chains, festival boxes	Mid–Premium	No-chemical, no-colour promise; spiritual story
Online gifting platforms	Aggregators (IGP, FNP, etc.) curate hampers	Mid	Direct relationships with company owners; white-label
Other temple Govinda's	ISKCON Bangalore, Jaipur, Ahmedabad stores	Mid	Not competitors but partners and benchmarks; Hyderabad has no scale player
Big national brands	Haldiram's, Bikaji, and new entrants selling laddus	Mass–Mid	Freshness, devotion, local connect; competitive pricing on mass tier

SWOT analysis

Strengths	Weaknesses
• ISKCON / Hare Krishna brand trust built over decades • Satvik, preservative-free, offered-to-Deity positioning • Warm network: company owners, chambers, BNI, Rotary, institutions • Large donor databases and top SEO ranking • Existing dispatch system, Shopify skills, negotiated vendor rates • Proven festival demand (Janmashtami sold out) • In-house AI, data and marketing team (DMTT)	• Kitchen capacity: 4 people today • No dedicated packaging, design and pricing kit yet • No historical cost/demand data compiled • Limited cold chain and storage • Production and marketing in different reporting lines • Premium-only pricing would not cover fixed costs
Opportunities	**Threats**
• Dasara, Diwali, New Year, Sankranti corporate gifting • White-label for companies' staff and clients • 100 gated communities, weekend flea markets • Large event catering (e.g. 50,000 meals) • E-commerce pan-India; diaspora / export (Malaysia, Europe) • QSR franchise with an interested partner • GST cut to 5% on namkeen; growing packaged-sweets market (≈16% CAGR)	• Established Hyderabad sweet brands and national players • Perception that the temple is 'commercialising' prasadam • Food-safety incident damaging brand reputation • Trademark/brand-use questions on the ISKCON name • Ingredient price swings (ghee, jaggery, nuts) • Festival demand volatility and weather

6. Target audiences

Mukunda Dasa's model: different audiences, different circles and different products for each audience. Circle 1 comes to us; circle 2 is the B2B network we go to; circle 3 is the open public; circle 4 is digital; circle 5 is scale.

Temple visitors and festival crowds (Circle 1: those who come to us)

Who: Daily visitors, weekend families, festival crowds (Janmashtami, Mahalaya, Ratha Yatra, Gaura Purnima, etc.)

Needs: Quick purchase, prasadam to take home, meals on the lawn

Our offer: Restaurant, lawn food court, multiple festival stalls, take-home packs, 250 g see-through boxes

Channel: Stalls at entrance/exit/Goshala path, restaurant, QR menus, UPI

Price point: Mass tier ₹30–₹250

Donors and life members (Circle 1: those who come to us)

Who: Online donors across India, big donors, sponsors, Virpaksha daily donors

Needs: Blessed prasadam at home; gifts for family and staff

Our offer: Donor prasadam packs, bahumana boxes, 5 kg namkeen tins, festival hampers

Channel: Existing donor dispatch system, WhatsApp, donor-care calls

Price point: Mid to premium

Internal departments (Circle 1: those who come to us)

Who: Culture Connect, LLP, online donor team, corporate relations, campaigns

Needs: Reliable weekly supply at an agreed rate

Our offer: Weekly standing order, one fixed delivery day, festival top-ups

Channel: Internal order form in the system; monthly budget per department

Price point: Internal transfer price (cost + agreed margin)

Corporate companies (Circle 2: those we go to (B2B))

Who: Owners/HR/admin of firms with 500–10,000+ staff (steel, IT, pharma, real estate, T-Hub startups)

Needs: Festival gifts for staff and clients, on time, branded, within budget

Our offer: Own-brand gift boxes (3 tiers) and white-label boxes with company branding; samples, menu, price list

Channel: Owner-level meetings (Mukunda Dasa + production rep), chamber and BNI referrals, LinkedIn, email

Price point: ₹250–₹2,500 per box; volume slabs

Educational institutions (Circle 2: those we go to (B2B))

Who: MNR group (42 institutions) and other school/college chains

Needs: Gifts for staff and students; event snacks

Our offer: Low-ticket student packs, staff boxes, event catering

Channel: Chairman relationships; academic-calendar planning

Price point: Mass tier with bulk slabs

Associations and professional networks (Circle 2: those we go to (B2B))

Who: Telangana Chamber of Commerce, BNI, Rotary, Round Table, Alpha Circle, ICSI/ICAI Hyderabad chapters

Needs: Member gifts, event hampers, meeting snacks

Our offer: Co-branded hampers, member discount codes, event snack boxes

Channel: Presidents/secretaries, chapter meetings, newsletters

Price point: Mid tier

Event management companies (Circle 2: those we go to (B2B))

Who: Firms running Dandiya, weddings, corporate events (e.g. Naukaran Entertainment)

Needs: Return gifts, event food counters

Our offer: Return-gift boxes, live counters, catering

Channel: Partner commission / referral fee

Price point: Mid tier

Gated communities (Circle 3: open public (B2C outside))

Who: ~100 gated communities with weekend flea markets

Needs: Tasty, pure snacks; festival supplies

Our offer: Weekend stall with top sellers, pre-order for festivals, community WhatsApp group

Channel: Flea-market organisers (free stalls offered before), RWA committees

Price point: Mass tier

Life-event families (open circle) (Circle 3: open public (B2C outside))

Who: Families holding house-warming, naming ceremony, birthdays, weddings, car/vehicle puja, shop openings, shraddha

Needs: Prasadam packs, return gifts, satvik catering

Our offer: Occasion packs, catering menus, bulk sweets

Channel: Google Ads, Instagram, referrals, temple ceremony desk

Price point: Mid tier

Online shoppers across India (Circle 4: digital)

Who: Social-media followers, NRIs sending gifts home, health-conscious buyers

Needs: Trusted, pure, shelf-stable sweets delivered fast

Our offer: Shopify store + Amazon; subscriptions; diabetic-friendly namkeen; jaggery range

Channel: Meta Ads, Google Ads, WhatsApp, RCS, SMS, SEO, influencers

Price point: Mid tier + shipping

Health-conscious and diabetic buyers (Circle 4: digital)

Who: Buyers avoiding refined sugar, chemicals and colours

Needs: Jaggery-based, low-sugar, millet, poha puffed rice

Our offer: 'Satvik Wellness' sub-range; namkeen for diabetics

Channel: Content marketing, doctors/yoga communities

Price point: Premium

Institutional bulk / large gatherings (Circle 5: scale)

Who: Spiritual/cultural organisations (e.g. Chinmaya Mission 50,000 meals), government and corporate events

Needs: Very large volumes, on time, hygienic

Our offer: Bulk meal packets, prasadam packs, catering

Channel: Direct leadership contact; tender responses

Price point: Per-plate contract

QSR and restaurant diners (Circle 5: scale)

Who: Urban young families and office-goers wanting pure veg fast food

Needs: Fast, affordable, pure veg

Our offer: Satvik QSR outlets (franchise with partner), later fine dine

Channel: Franchise partner, food-delivery apps

Price point: ₹99–₹399 meals

Export and diaspora (Circle 5: scale)

Who: Indian diaspora (Malaysia, Europe, USA, Middle East), ISKCON temples abroad, Indian grocery stores

Needs: Authentic long-shelf-life sweets, pickles, powders

Our offer: Export-grade packaged range

Channel: Family business in Malaysia, European contacts, APEDA, Amazon Global

Price point: Export pricing

7. Business models and revenue streams

ID	Stream	Phase	Capex	Margin
R1	Internal supply to departments	Phase 0–1	Low	Low–Medium
R2	Festival stalls and counters	Phase 1 onward	Medium (pagodas)	High
R3	Temple restaurant and lawn food court	Phase 1–3	Medium	Medium
R4	Corporate gifting (own brand)	Phase 1 onward	Low (packaging)	High
R5	White-label / co-branded gifting	Phase 1 onward	Low	High
R6	Daily snacking (365-day retail)	Phase 1–2	Low	Medium
R7	E-commerce (own store + marketplaces)	Phase 2	Low	Medium
R8	Catering and bulk meals	Phase 2–4	High (at scale)	Medium
R9	Gated community flea markets	Phase 2	Low	Medium
R10	Outbound B2B and life-event sales	Phase 2–3	Low	Medium
R11	Pickles, papads and powders	Phase 3	Low–Medium	Medium–High
R12	QSR and fine-dine restaurants	Phase 4–5	Partner-funded	Royalty 4–8% [ESTIMATE]
R13	Exports and diaspora	Phase 5	Medium	Medium–High

R14	Donor and sponsor packs	Phase 1 onward	Low	Medium

R1. Internal supply to departments

What: Weekly standing orders to Culture Connect, LLP, online donors dispatch, corporate relations and campaigns, with one fixed delivery day and festival top-ups.

Why: Guaranteed base load for the kitchen from day one; replaces outside vendors.

How: Order-trend analysis (6–12 months) → minimum weekly quantity per department → internal price list → order form in the system.

KPIs: Weekly order fulfilment %, on-time %, internal cost saved vs outside vendors

R2. Festival stalls and counters

What: Rows of stalls at high-footfall points on festival days; permanent rain-proof pagodas; restaurant takes the entire lawn.

Why: Proven: Janmashtami 2026 sold out at ≈₹6 lakh with limited counters. Target 10×.

How: Footfall map → stall layout (entrance, exit queue, Goshala path, staircases, garden, waterfall, Samskara) → UPI + POS → stock plan from calendar → leftovers go online.

KPIs: Sales per festival, sales per stall per hour, stock-out time, leftover %

R3. Temple restaurant and lawn food court

What: Restaurant as the daily anchor; on festival days full-length counters, chairs and round tables across the lawn.

Why: Captures every visitor; 365-day revenue.

How: Menu engineering, QR ordering, festival lawn SOP, rental furniture contracts.

KPIs: Daily covers, average bill, festival-day revenue

R4. Corporate gifting (own brand)

What: Dasara, Diwali, New Year, Sankranti and other gift boxes in three tiers, with dry fruits and sweets; samples, menu, price list.

Why: About 58% of Diwali gifting is corporate; our network reaches owners directly; three companies have already asked.

How: Gift catalogue + samples → owner meetings (Mukunda Dasa with production rep) → PO with 50% advance → production calendar → dispatch.

KPIs: Boxes sold, average order value, repeat clients, advance collected

R5. White-label / co-branded gifting

What: Same boxes with the client's logo and message (sticker or printed sleeve), so their brand travels with our prasadam.

Why: Companies are already paying some vendor; the owner prefers a trusted source.

How: Brand-sticker template, MOQ per design, proof approval, 10–15 day lead time.

KPIs: White-label orders, lead time, design approval cycle

R6. Daily snacking (365-day retail)

What: Sweets and savories unconnected to festivals: chikkis, kaja, khara, namkeen, puri unde, laddus, 250 g weekly specials.

Why: Evergreen demand; rotation keeps the kitchen busy.

How: Top-10 SKU list, standard pack sizes, shelf-life testing, temple shop + restaurant + online.

KPIs: Units per SKU per week, sell-through, returns/spoilage

R7. E-commerce (own store + marketplaces)

What: Shopify store and Amazon listing for shelf-stable items, pan-India shipping, subscriptions, donor bundles.

Why: Scale through technology; reuse donor dispatch and Amazon experience (≈15,000 parcels).

How: Catalogue & photography → Shopify + payment + courier aggregator → Amazon → ads funnel → WhatsApp retargeting.

KPIs: Orders/month, CAC, ROAS, repeat rate, delivery TAT

R8. Catering and bulk meals

What: Satvik catering for house programmes, life events, corporate and institutional events; bulk meal packets (e.g. 50,000 meals).

Why: Strong demand; many requests already; high visibility for the brand.

How: Start with drop-off catering from existing kitchen; partner kitchens for very large orders; later dedicated catering unit.

KPIs: Events/month, plates served, per-plate margin, feedback score

R9. Gated community flea markets

What: Weekend stalls in ~100 gated communities, pre-orders for festivals, community WhatsApp groups.

Why: Access already exists; organisers have given free stalls.

How: Mobile stall kit, 2-person team, route calendar, lead capture for donor/preaching programmes.

KPIs: Events/month, sales/event, leads captured

R10. Outbound B2B and life-event sales

What: Sell to companies, event managers and families for openings, naming ceremonies, birthdays, weddings, vehicle pujas.

Why: The open 'public circle' beyond our own contacts.

How: Sales executive, CRM pipeline, Google Ads for 'satvik catering Hyderabad', referral fees for event planners.

KPIs: Leads, conversion %, revenue per salesperson

R11. Pickles, papads and powders

What: Masala powders, sambar powder, pickles, papads: very long shelf life, ideal for online and export.

Why: Adjacent vertical with low spoilage; strong Andhra/Telangana demand.

How: Recipe standardisation, lab testing, FSSAI labelling, co-packer if needed.

KPIs: SKUs live, online share, export enquiries

R12. QSR and fine-dine restaurants

What: Satvik quick-service outlets under the brand via the interested franchise partner; vision of 100 QSRs in Hyderabad; later fine dine.

Why: Partner offers network, funds and execution; pure-veg QSR is under-served.

How: Brand licence agreement, central kitchen, 1–3 pilot outlets, SOPs, then scale.

KPIs: Outlets live, royalty income, food-safety audit scores

R13. Exports and diaspora

What: Long-shelf-life range for diaspora markets and temples abroad.

Why: Family business in Malaysia; European contacts; ISKCON global network.

How: Central FSSAI licence + IEC + APEDA; export partner; destination-country labelling.

KPIs: Countries served, export revenue

R14. Donor and sponsor packs

What: Bahumana gift boxes for big donors, sponsor prasadam for festivals, 5 kg namkeen tins in monsoon.

Why: Deepens donor relationships; big donors already ask.

How: Donor-care team offers packs with campaigns; sponsorship tiers include prasadam.

KPIs: Packs sent, donor retention uplift

8. New business ideas

Additional ideas that build on the meeting and on the research. Each can be tested cheaply before scaling.

Idea	Description
Satvik Subscription Box	Monthly box of 4–6 seasonal sweets and savories delivered to homes and offices; donor-exclusive pricing.
Festival Pre-order App/Page	Pre-book Janmashtami/Diwali boxes online; pick up at a dedicated counter to avoid queues; stock planned from pre-orders.
Corporate 'Prasadam Friday'	Weekly snack trays for company pantries on a subscription contract.
Student and hostel packs	Low-ticket packs for MNR and other institutions during exams and festivals.
Diabetic-friendly namkeen line	Clearly labelled low-sugar/no-sugar range for donors who cannot eat sweets.
Jaggery & millet wellness range	Premium health range (jaggery chikki, millet laddu, poha puffed-rice unde).
Occasion kits	House-warming, naming ceremony, vehicle puja, shraddha and wedding return-gift kits.
Monsoon namkeen tins	5 kg tins for big donors and showrooms in the rainy season.
World-record event	Largest laddu / largest chikki / most prasadam packets in a day for PR (India Book of Records).
Live-kitchen experiences	Weekend 'make your own laddu' workshops for families and corporate teams.
Temple-to-desk vending	Branded shelf-stable snack racks in corporate offices and co-working spaces.
Instagram flash sales	Clear post-festival leftover stock with limited-time offers.
Referral programme for event planners	Commission for every catering or return-gift order referred.
Sponsor-a-box	Donors sponsor prasadam boxes distributed to the needy on festivals (cause marketing).
Travelling prasadam (Yatra tie-in)	Shelf-stable packs for yatris on the temple's pilgrimage tours (links to the Yatra department).
NRI gifting portal	Order from abroad, delivered to family in India for festivals.

9. Products, gift tiers and packaging

First criterion: shelf life of at least 15–20 days. Shelf-life figures are typical and must be confirmed by lab tests on our own recipes and packs.

Product	Category	Shelf life (days)	Tier	Sweetener	Packs	Notes
Groundnut chikki	Sweet – brittle	60–90	Mass	Jaggery	100 g, 200 g, 500 g	Top shelf-life item; ideal for online and gifting
Til chikki (black & white)	Sweet – brittle	60–90	Mass/ Premium	Jaggery	100 g, 200 g	Sankranti hero product
Dry-fruit chikki	Sweet – brittle	45–60	Premium	Jaggery/ Sugar	200 g, gift tin	Corporate gifting
Puri unde (puffed-rice balls)	Sweet – laddu	20–30	Mass	Jaggery, coconut, elaichi	6-pc, 12-pc	Karnataka favourite; light, healthy
Poha puffed-rice unde	Sweet – laddu	20–30	Wellness	Jaggery	6-pc	For health-conscious buyers
Kaja / square kaja	Sweet – fried	15–20	Mass	Sugar syrup	250 g, 500 g	Andhra classic
Besan / boondi laddu	Sweet – laddu	10–15	Mass/ Premium	Sugar, ghee	250 g, 500 g, 1 kg	Festival and temple staple
Dry-fruit laddu	Sweet – laddu	20–30	Premium	Dates/ jaggery	250 g, gift box	No added sugar option
Mysore pak	Sweet – ghee	15–20	Premium	Sugar, ghee	250 g, 500 g	Gift box star
Khara / mixture	Savory	30–45	Mass	—	200 g, 500 g, 5	Diabetic-friendly

namkeen					kg tin	choice
Chakli / murukku	Savory	30–45	Mass	—	200 g, 400 g	All-season
Ribbon pakoda / chekkalu	Savory	30–45	Mass	—	200 g	Telangana favourite
Roasted/spiced nuts	Savory	60–90	Premium	—	150 g tins	Gift boxes
Masala powders & sambar powder	Pantry	180+	Mid	—	100 g, 250 g	Pickles/powders vertical
Pickles	Pantry	180+	Mid	—	250 g, 500 g	Satvik (no onion/garlic) differentiator
Papads	Pantry	180+	Mass	—	200 g	Long shelf life
Dry fruits assortment	Gifting	90+	Premium	—	Gift boxes	Wooden box option
Weekly special (250 g box)	Rotating	7–20	Mass	Varies	250 g see-through	Already tested with very good response

Gift box tiers

Tier	Price	Contents	Best for
Seva box	₹250–₹450	3 items (chikki, namkeen, laddu) in a see-through or card box with brand sticker	Staff gifting at scale, students, communities
Utsav box	₹600–₹1,200	5–6 items including a premium sweet and dry fruits in a printed rigid box	Employees, association members, donors
Vaikuntha box	₹1,500–₹3,000+	Wooden box, dry fruits, premium sweets, small Deity picture / Gita card	Clients, VIPs, directors, big donors
White-label add-on	+₹15–₹60 per box	Client logo sticker/sleeve, greeting card, custom message	Any tier, MOQ applies

Packaging

- See-through plastic boxes (already in use) for counters and the 250 g weekly item; move to food-grade PET with tamper seal.
- Branded stickers: temple brand + FSSAI number + MFD/best-before + ingredients + veg mark; client stickers for white-label.
- Printed rigid boxes for the Utsav tier; wooden boxes (stock in storeroom) for the Vaikuntha tier.
- Gift sleeve with a short story card: 'Prepared with devotion and offered to Sri Sri Radha Krishna'.
- Tins for 5 kg namkeen and premium nuts.
- Eco option: kraft paper boxes and cloth bags for premium buyers; reduce single-use plastic over time.
- Every pack carries a QR code to the online store and to donation pages (cross-sell).

10. Pricing strategy and unit economics

Premium only means limited customers, limited business and no cover for capex, rent, power and salaries. Competitive only means thin margins. Run both.

Tier	Logic	Used for
Mass / competitive tier	Priced at or slightly below local shop prices; high volume; keeps the kitchen running and covers fixed costs (rent, salaries, power).	Counters, communities, internal supply, student packs
Premium tier	Premium ingredients (pure ghee, dry fruits, jaggery),	Corporate VIP boxes,

	premium packaging; limited volumes, high margin.	donors, online wellness range
Internal transfer price	Cost + agreed small margin; fixed for a quarter; budget per department.	Culture Connect, LLP, online donors
Volume slabs (B2B)	e.g. 100–499 boxes list price; 500–1,999 −5%; 2,000+ −8% [ESTIMATE]; 50% advance, balance before dispatch.	Corporate and institutional orders
Festival pricing	Fixed MRP; combos for quick checkout (₹100/₹200/₹500) to reduce queues.	Festival stalls

Illustrative unit economics [ESTIMATE]

Item	MRP	Net of 5% GST	Ingredients	Packaging	Labour & overhead	Gross profit	GM %
Seva box (₹350)	₹350	₹333	₹140	₹35	₹50	₹108	32%
Utsav box (₹900)	₹900	₹857	₹360	₹90	₹110	₹297	35%
Vaikuntha box (₹2,000)	₹2000	₹1905	₹850	₹300	₹200	₹555	29%
Chikki 200 g (₹80)	₹80	₹76	₹32	₹8	₹12	₹24	32%
Namkeen 500 g (₹180)	₹180	₹171	₹75	₹12	₹25	₹59	35%
Festival combo (₹200)	₹200	₹190	₹80	₹12	₹28	₹70	37%

Replace with actual costing sheets from production (task 3.3).

11. Marketing and sales plan

Lever	Plan
Brand story	'From the house of Radha Krishna': satvik, pure, no preservatives, no artificial colours, offered to the Deity, profits support temple service.
Databases	Segment donor, visitor, event and corporate databases; AI scoring to find likely buyers (DMTT data scientists).
WhatsApp / SMS / RCS	Festival broadcast calendars, catalogue links, one-tap reorder, community groups for gated societies.
Google Ads	Search: 'Diwali gift boxes Hyderabad', 'corporate gifts Hyderabad', 'satvik catering', 'pure ghee sweets online'.
Meta Ads & Instagram	Reels of prasadam preparation, Deity offering, festival crowds; flash sales for leftovers; retargeting.
SEO & content	Leverage existing top ranking; product pages, recipes, 'why satvik' articles; Google Business Profile for the food court.
Owner-level selling	Personal meetings with company owners via chambers, BNI, Rotary, T-Hub; sample box + catalogue + price list.
Events & PR	Record attempts, Dandiya tie-ups, stalls at chamber and BNI events; press on 'temple kitchen goes online'.
On-campus visibility	Signage and QR codes at darshan exit, Goshala, waterfall, restaurant; 'take prasadam home' messaging.
Cross-sell	QR on every pack to store and donation pages; prasadam with donation receipts; yatra packs.

Customer funnel

Stage	Activities
Awareness	Festival crowds, social reels, SEO, chamber/BNI events
Interest	Catalogue on WhatsApp, website product pages, sample boxes
Consideration	Owner meeting, price list, white-label mock-up, reviews
Purchase	Online checkout / PO with advance / UPI at stall
Delivery & delight	On-time dispatch, story card, feedback call
Repeat & referral	Festival calendar reminders, subscription, referral rewards

Corporate gifting sales process

1. List target companies from chamber, BNI, Rotary, T-Hub, donor and MNR contacts; rank by staff size.
2. Warm introduction by Mukunda Dasa; meeting with owner/HR with sample box, catalogue and price list.
3. Offer own-brand or white-label; share mock-up within 48 hours.
4. Quote with volume slab, delivery date and 50% advance.
5. Confirm PO, lock production slot, approve sticker proof.
6. Dispatch with story card; feedback call; set reminder for next festival.

Festival stall playbook

- Map footfall: entrance, darshan exit queue, Goshala walking path, staircases, garden, waterfall and benches, Goshala entrance to Samskara hall.
- Put stalls in a row (several counters) instead of one crowded counter; separate queues for combos.
- Pre-packed combos (₹100/₹200/₹500) for fast checkout; UPI QR at every counter.
- Runners restock hourly; stock-out alerts on WhatsApp group.
- Restaurant expands across the lawn with rented chairs and round tables on festival days.
- Leftover shelf-stable stock goes online within 48 hours with a small discount.

12. Operations plan

Area	Plan
Kitchen & production	Start in the existing/new kitchen with 4 staff + 1 hire now; add seasonal staff for hero campaigns; exclusive cook once weekly volume is committed; later a dedicated unit (converted building outside the temple).
Standard recipes	Written recipes and yield sheets for every SKU so taste and cost stay constant; batch records.
Shelf-life & quality	Lab shelf-life test per SKU before online launch; moisture-proof packing; first-in-first-out; batch codes.
Procurement	Use negotiated temple vendor rates; bulk-buy ghee, jaggery, groundnut, dry fruits before festival season; two suppliers per key item.
Storage	Dry store with racks, pest control and temperature/humidity monitoring; separate finished-goods store.
Order management	One system for all orders (internal, B2B, online, festival): Shopify/ERP + production calendar; weekly minimum orders; festival forecasts from the calendar.
Fulfilment	Reuse donor-dispatch set-up; courier aggregator for fastest partner; own vehicle for Hyderabad B2B; Amazon for marketplace.
Festival stall SOP	Layout map, stall kit (pagoda, table, POS, UPI QR, signage), cash-handling rules, hourly restocking runners, stock-out alerts.

Compliance	FSSAI registration/licence matched to turnover, labelling (MFD, best-before, ingredients, veg mark, FSSAI no.), GST 5%, trade licence, fire NOC, staff medical checks, water testing.
Finance & ROI (DMTT)	Separate cost centre; track revenue, ingredient cost, packaging, salaries, marketing, hours spent by each team; monthly P&L and ROI dashboard.

Compliance checklist

- FSSAI State Licence (manufacturing) sized to expected turnover; add e-commerce and off-site stall coverage.
- Labels: product name, ingredients, allergens (nuts, milk, sesame), net weight, MRP, MFD, best-before, batch, FSSAI logo and number, veg mark, customer-care contact.
- Voluntary best-before boards on loose sweets at counters.
- GST registration; 5% GST on sweets and packaged namkeen (check HSN for each SKU).
- Legal metrology for pre-packed goods; trade licence; fire NOC; pest control; water testing; staff medical fitness.
- Written approval for use of the temple / ISKCON name and logo on commercial packs.

13. Organisation and roles

Role	Person	Responsibility
Executive sponsor	Temple leadership	Approves budget, brand use and major decisions
Vertical lead – marketing, sales & technology	Mukunda Dasa	Vision, network, marketing, e-commerce, DMTT reporting
Production lead	Prabhu (production)	Recipes, costing, samples, capacity, kitchen team
Production manager (reporting line)	Production lead's manager	Approves production commitments and resources
E-commerce & logistics advisor	Subhadra Radha Devi Mataji	Shopify/Amazon, fastest shipping
Corporate sales representative	To be assigned by Mukunda Dasa	Joins owner meetings; manages B2B pipeline
Order coordinator (new hire)	To hire now	Order confirmations, internal orders, production calendar
Design & packaging	DMTT designer	Catalogue, boxes, stickers, white-label mock-ups
Data & AI	DMTT data scientists	Demand analysis, targeting, ROI dashboard
Finance	Accounts team	Cost centre, GST, P&L, ROI
Quality & compliance	To assign	FSSAI, labelling, hygiene audits

14. Roadmap

Phase 0 – Foundation · 26 Sep – 10 Oct 2026 (2 weeks)

Goal: Data, decisions and a ready-to-sell kit

- Share order confirmation details requested by production
- Analyse 6–12 months of prasadam purchases and order volumes
- Estimate weekly minimum and festival peak demand

- Budget per department (LLP, Culture Connect, online donors)
- Final product list, quantities and samples from production
- Costing and two-tier pricing (mass and premium)
- Hire one additional production/order person
- Gift catalogue, menu, price list, sample boxes, sticker templates
- Decision meeting: Mukunda Dasa + production lead + his manager
- Set up DMTT cost centre and ROI tracking sheet
- Check FSSAI licence scope and brand-use approval

Phase 1 – Pilot: Dasara & Diwali · 11 Oct – 30 Nov 2026

Goal: Prove corporate gifting, stalls and internal supply

- Owner meetings with 20+ companies, MNR, chambers, BNI
- Serve the three companies that already asked
- White-label boxes for first clients
- Mahalaya / Pitru Paksha and Dasara stalls in multiple locations
- Diwali gift box production and dispatch
- Weekly standing internal orders live
- Leftover stock sold online / Instagram
- Post-pilot review: sales, margin, hours, lessons

Phase 2 – Launch channels · Dec 2026 – Mar 2027

Goal: Year-round revenue and digital sales

- Shopify store + Amazon listing for shelf-stable range
- Shelf-life lab tests and full FSSAI labelling
- New Year, Sankranti (til chikki), Vaikuntha Ekadashi, Gita Jayanti campaigns
- Gated community weekend stalls (start 10, grow to 30)
- Catering pilot: house programmes and small events
- Satvik subscription box beta
- CRM and B2B sales executive

Phase 3 – Scale in Hyderabad · Apr – Sep 2027

Goal: 10× festival sales and new product lines

- Permanent rain-proof pagodas; lawn food-court SOP
- Pickles, papads and powders line
- Janmashtami 2027 target: 10× 2026 counter sales
- Catering scale-up; partner kitchens for 50,000-meal orders
- Learning visits: ISKCON Mysore and Ahmedabad
- Year-1 review and Year-2 budget

Phase 4 – Dedicated unit & QSR pilot · Oct 2027 – Sep 2028 (Year 2)

Goal: Own capacity, machinery and first outlets

- Dedicated production unit (converted building), machinery
- State/Central FSSAI licence as turnover grows

- Brand licence agreement with QSR partner; 1–3 pilot outlets
- Pan-India e-commerce push; corporate contracts across South India
- Team of ~25–40

Phase 5 – National & export · Year 3–5 (2028–2031)

Goal: A national vertical with exports

- Scale QSRs towards the 100-outlet Hyderabad vision
- Export via Malaysia and Europe contacts; APEDA/IEC
- Replicate model with other temples
- ~100 employees

15. Hero campaign calendar

Dates are approximate; confirm against the temple Panchang each year.

Festival	When	Opportunity	Demand
Mahalaya / Pitru Paksha	26 Sep – 10 Oct 2026	Stalls for devotees doing service; prasadam packs	Medium
Navaratri & Dasara (Vijayadashami)	11 – 20 Oct 2026	Corporate & institution gifting, Dandiya tie-ups	Very high
Deepavali	8 Nov 2026	Gift boxes, white-label, donors	Very high
Kartika month / Damodara	Oct – Nov 2026	Lamp-offering visitors; stalls	High
Gita Jayanti	Dec 2026	Gita + prasadam gift packs	Medium
New Year	1 Jan 2027	Corporate new-year gifting	High
Vaikuntha Ekadashi	Dec 2026 / Jan 2027	Huge footfall; stalls	Very high
Makara Sankranti	14 Jan 2027	Til chikki, sweets, gifting	High
Gaura Purnima / Holi	Mar 2027	Stalls, festival feast	Medium
Ugadi & Sri Rama Navami	Mar – Apr 2027	Ugadi packs, gifting	Medium
Narasimha Chaturdashi	May 2027	Stalls	Medium
Ratha Yatra	Jun – Jul 2027	Street stalls along the route	High
Sri Krishna Janmashtami	Aug/Sep 2027	10× target on counters, online pre-orders	Very high
Ganesh Chaturthi	Sep 2027	Laddu/modak demand, gifting	High

16. Financial plan [ESTIMATE]

Stream	Y1 ₹L	Y2 ₹L	Y3 ₹L	GM %	Basis
Internal supply (R1)	36	47	56	25%	₹3 L/month average across departments
Festival stalls (R2)	45	81	122	50%	Janmashtami 2027 ₹30 L (5× first year) + other festivals ₹15 L
Restaurant & lawn uplift (R3)	18	27	38	35%	Incremental ₹1.5 L/month
Corporate gifting – own brand (R4)	30	66	119	40%	Diwali/Dasara 5,000 boxes × ₹450 + New Year/Sankranti
White-label gifting (R5)	12	30	54	40%	8–10 clients
Daily snacking retail (R6)	15	27	43	40%	Top-10 SKUs via shop and counters
E-commerce (R7)	18	54	108	30%	Ramp ₹0.5 L → ₹3 L/month
Catering & bulk meals (R8)	20	50	100	25%	Events + 1 large order
Gated communities (R9)	10	20	30	40%	10→30 communities, ₹12k–₹15k per event
Outbound B2B & life events (R10)	8	20	40	35%	Sales executive from Phase 2
Pickles, papads, powders	4	12	24	40%	Launch Phase 3

(R11)					
Donor & sponsor packs (R14)	8	12	16	35%	Bahumana, monsoon tins
QSR royalty (R12)	0	0	0	100%	Year 2 pilots; Year 3 royalty modelled separately
Total	224	446	749	37%	Year 3 excludes QSR royalty

Year-1 incremental operating costs

Item	₹ lakh	Note
Additional staff salaries	24	1 order coordinator now + seasonal cooks + sales exec (Phase 2)
Marketing (ads, content, samples)	12	≈5% of revenue
Packaging design & moulds	3	One-time catalogue, dies, stickers
Pagodas & stall kits	6	Rain-proof pagodas, tables, signage, POS
Technology (Shopify, apps, POS, CRM)	3	Subscriptions and integrations
Utilities & kitchen overheads (allocated)	8	Power, gas, water, maintenance
Compliance, testing, licences	2	Shelf-life tests, FSSAI, audits
Logistics not charged to customers	5	Free-shipping offers, B2B deliveries
Contingency	4	≈5%
Total	67	

Year-1 summary

- Gross revenue: about ₹224 lakh.
- Gross profit after ingredients, packaging and direct labour: about ₹82 lakh (37%).
- Incremental operating costs: about ₹67 lakh.
- Net contribution to the temple: about ₹15 lakh in Year 1, before capex.
- Break-even: the vertical should be cash-positive in the Dasara–Diwali pilot because gifting orders take 50% advance.

Capital expenditure (staged, only after demand is proven)

Item	Estimate	When
Small machines (chikki cutter, laddu maker, sealing, packing)	₹8–15 L	Phase 2–3
Permanent pagodas (8–12 units)	₹6–12 L	Phase 3
Storage racks, dehumidifier, weighing & labelling	₹3–5 L	Phase 2
Dedicated production unit fit-out	₹50 L–1.5 Cr	Phase 4 (only after demand is proven)
Delivery vehicle	₹8–12 L	Phase 3–4

Funding

- Phase 0–1: funded from existing kitchen budget plus 50% customer advances on B2B orders.
- Phase 2–3: reinvest vertical surplus; sponsors/donors for pagodas and machines.
- Phase 4+: surplus plus partner capital (QSR partner has offered funds); CSR support where appropriate.

17. Risks and mitigation

ID	Risk	L	I	Score	Mitigation	Owner
R-01	Kitchen cannot meet Diwali peak volume	4	5	20	Forecast from order data; seasonal staff; cap orders by capacity; 50% advance; partner kitchens on standby	Production lead
R-02	Premium-only pricing fails to cover fixed costs	3	4	12	Two-tier model; mass tier for volume; monthly margin review	Mukunda Dasa
R-03	Food-safety incident harms temple reputation	2	5	10	FSSAI compliance, hygiene SOPs, batch codes, shelf-life tests, staff medical checks, recall plan	Quality
R-04	Use of the ISKCON name on commercial packaging questioned	3	4	12	Written approval from temple leadership / group legal; consistent brand guidelines; consider a sub-brand	Sponsor
R-05	Perception that prasadam is being commercialised	3	3	9	Passive selling, devotional messaging, transparent use of proceeds, prasadam offered first	Mukunda Dasa
R-06	Ingredient price spikes (ghee, jaggery, nuts)	4	3	12	Forward-buy before season, two suppliers, sugar/jaggery flexibility, price validity clauses	Production lead
R-07	Festival sales below plan; leftover stock	3	3	9	Shelf-stable SKUs, pre-orders, online/Instagram clearance	DMTT
R-08	Late B2B deliveries during peak	3	4	12	Production calendar, cut-off dates, dispatch buffer, own vehicle	Order coordinator
R-09	Staff overload across departments	4	3	12	Dedicated hires; clear RACI; hours tracked in DMTT	Prod. manager
R-10	Online shipping damage/spoilage	3	3	9	Moisture-proof packs, tested courier partners, only shelf-stable items online	E-commerce advisor
R-11	Rain disrupts festival stalls	3	3	9	Rain-proof pagodas; indoor fallback locations	Facilities
R-12	Cash/stock leakage at stalls	2	3	6	UPI-first, POS, stock reconciliation per shift	Finance
R-13	QSR partner quality not aligned with temple standards	3	5	15	Strict brand licence, audits, satvik SOPs, exit clauses	Sponsor
R-14	Regulatory changes (FSSAI, GST)	2	2	4	Quarterly compliance review	Finance

18. KPIs and ROI tracking

Tracked by DMTT so that 'you spent this much; what did we get back?' always has a clear answer.

KPI	Definition	Unit	Frequency
Revenue	Monthly gross revenue by stream	₹ lakh	Monthly
Gross margin	Revenue minus ingredients, packaging, direct labour	%	Monthly
ROI	(Contribution − DMTT & marketing cost) ÷ total invested cost	%	Monthly
Hours invested	Hours spent by DMTT, production, sales on the vertical	hours	Weekly
Festival sales	Sales per festival and per stall-hour	₹	Per event
Corporate pipeline	Leads, meetings, proposals, POs, boxes	count	Weekly
Online	Orders, conversion rate, CAC, ROAS, repeat rate	various	Weekly
Operations	On-time delivery %, order fill rate, spoilage %	%	Weekly
Quality	Complaints per 1,000 orders; audit score	count / score	Monthly
Customer	Rating, NPS, repeat B2B clients	score	Quarterly

ROI formula

ROI % = (Revenue − ingredients − packaging − direct labour − marketing − allocated overheads − value of hours invested) ÷ (total costs incl. capex depreciation) × 100.

Hours are logged weekly by each team (DMTT, production, sales) and valued at a standard hourly cost, so staff time is not treated as free.

19. Immediate action items and open questions

#	Action	Owner	Due
A1	Provide the order confirmation information requested for prasadam orders	Production team (order coordinator)	29 Sep 2026
A2	Hire an additional person for prasadam production work	Production lead	10 Oct 2026
A3	Propose available budget and requested items to production for samples and planning	Mukunda Dasa's team	30 Sep 2026
A4	Analyse 6–12 months of prasadam purchases and order volumes; share regular and festival estimates	DMTT data	3 Oct 2026
A5	Prepare and send the detailed plan for the prasadam and sweets vertical	Mukunda Dasa	30 Sep 2026 (this document)
A6	Identify additional prasadam products with longer shelf life	Production lead	4 Oct 2026
A7	Prepare packaging and product presentation for bulk corporate gifting	DMTT designer + Production lead	10 Oct 2026
A8	Send a representative to support meetings with large company owners	Mukunda Dasa	3 Oct 2026
A9	Hold the finalisation meeting on products and quantities	Mukunda Dasa	5 Oct 2026
A10	Route all prasadam orders only to the internal production lead	All departments	Immediate
A11	Get pagoda costing done	Facilities	31 Oct 2026
A12	Respond to the Chinmaya Mission 50,000-meal request	Mukunda Dasa	Immediate

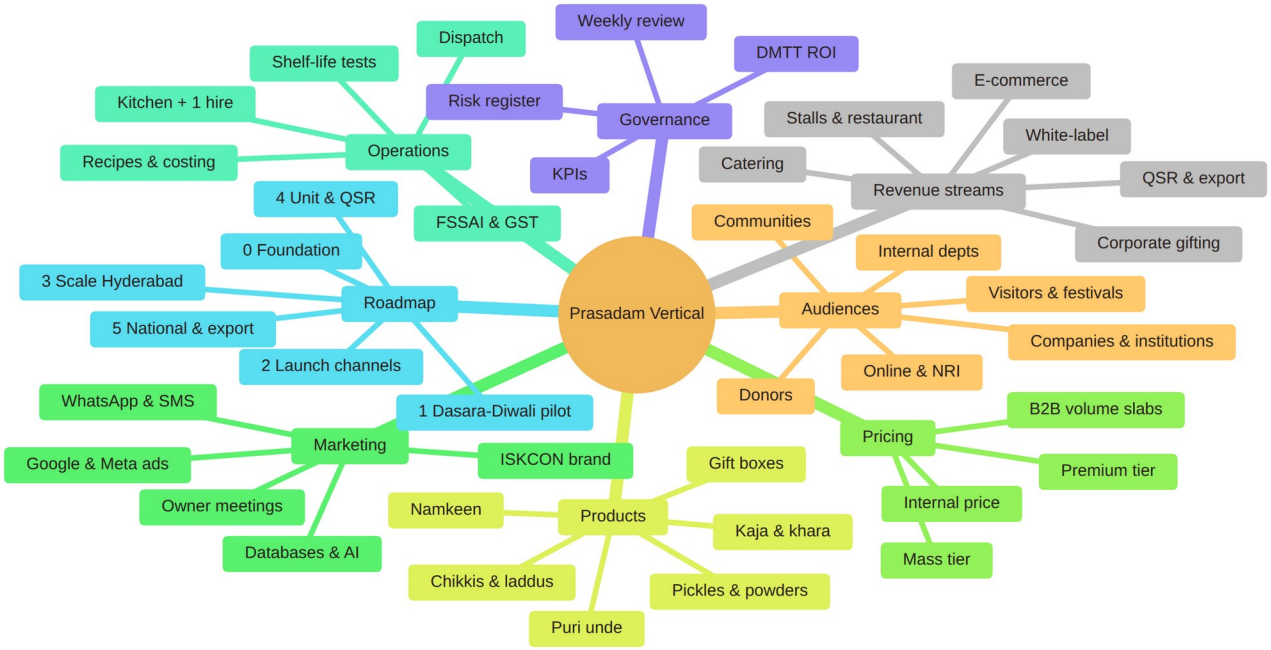

Open questions for the decision meeting

- Final product list, quantities and weekly minimum per department?
- Budget allocated for prasadam per department (LLP, Culture Connect, online donors)?
- Pricing model split between premium and competitive tiers?
- Real production capacity per day now, with one more hire, and at peak with seasonal staff?
- Which infrastructure and staffing investments are justified before demand is validated?
- Brand name on packs: 'ISKCON Hyderabad', 'Hare Krishna Golden Temple', or a sub-brand?
- Which FSSAI licence covers commercial sale and e-commerce, and does it cover off-site stalls?
- Transfer-pricing and profit-sharing between production and marketing teams?
- Who owns catering for very large orders (50,000 meals) until a catering unit exists?

HARE KRISHNA GOLDEN TEMPLE (ISKCON) · HYDERABAD

Prasadam, Sweets & Savories
A New Revenue Vertical

Business plan · Target audiences · Revenue models · Roadmap · Project plan

From the house of Radha Krishna: satvik, pure, no preservatives
v1.2, 21 October 2026

EXECUTIVE SUMMARY

Demand is proven; we now have a production owner

₹6 L	10×	14	₹2.2 Cr
Janmashtami 2026 counters (sold out)	festival sales target	revenue streams across 5 audience circles	Year-1 revenue target [estimate]

- Trust is our moat: people believe in ISKCON; satvik, chemical-free prasadam commands loyalty and price.
- Warm network: company owners (10,000-staff firms), MNR's 42 institutions, chambers, BNI, Rotary, 100 gated communities, donors.
- The missing piece is solved: temple production owns the kitchen; Mukunda Dasa and DMTT own marketing, tech and sales.
- Two-tier pricing: a mass tier keeps the kitchen running, a premium tier adds margin.
- Start lean: internal supply, festival stalls, corporate and white-label gifting for Dasara/Diwali 2026. Build capacity only after demand is proven.
- Grow to about ₹4.5 Cr in Year 2 and ₹7.5 Cr in Year 3; then QSRs, pan-India and exports.

THE OPPORTUNITY

Why now: the market is untapped and we are late

What we heard

- Janmashtami counters sold out (~₹6 L)
- 3 companies asked for gift boxes and we could not supply
- Chinmaya Mission asked for 50,000 meals
- Big donors ask for 5 kg namkeen in monsoon
- A partner offers funds for 100 QSRs
- No temple in our group has done this at scale

What the market says

- Packaged sweets: ₹8,431 Cr (2025) → ₹30,506 Cr by 2034, ~16% CAGR
- Namkeen: +USD 4.9 bn by 2030, ~10% CAGR
- Corporate gifting: > ₹27,000 Cr by 2030
- 58% of Diwali gifts are corporate
- GST on packaged namkeen cut 12% → 5%

What we already have

- ISKCON brand and top SEO ranking
- Donor databases, WhatsApp, ads skills
- Online donor prasadam dispatch system
- Shopify experience; ~15,000 Amazon parcels shipped
- Negotiated vendor rates, new kitchen
- AI engineers and data scientists

DIRECTION

Vision, mission and brand

Make prasadam, sweets and savories one of the organisation's biggest verticals: first in Hyderabad, then across South India and all of India, and eventually in export markets. Profits fund our own kitchen, our own staff and machinery, and the temple's service to society.

Offer pure, satvik, preservative-free prasadam, prepared with devotion and offered to Sri Sri Radha Krishna, to every audience we already touch: visitors, donors, devotees, companies, institutions, communities and online buyers. Production is done by the temple kitchen; marketing, technology and sales are done by the DMTT; every rupee and hour is tracked for ROI.

1

Purity

Satvik, no preservatives, no artificial colours

2

Devotion

Prepared with care and offered to the Deity

3

Trust

Decades of ISKCON goodwill in Hyderabad

4

Service

Proceeds support temple seva

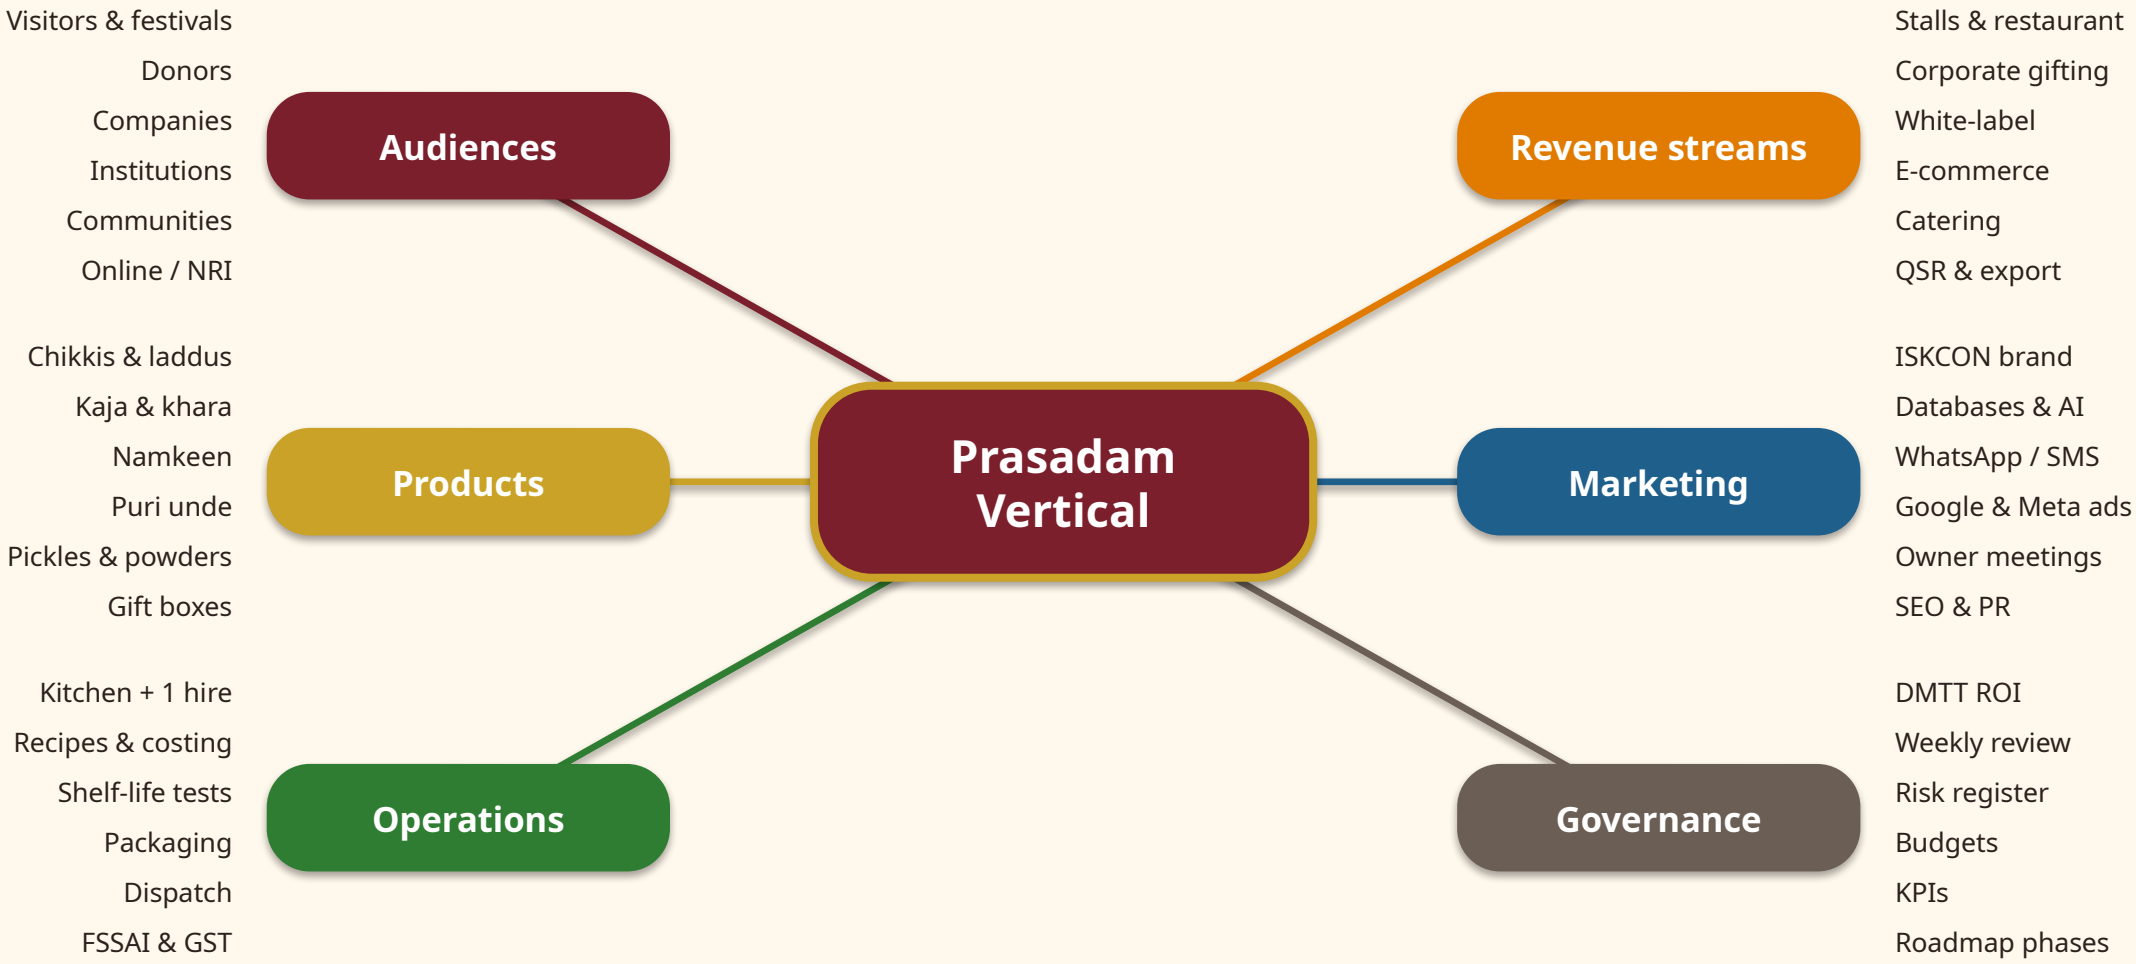

5

Delight

Packaging that makes gifting special

MIND MAP

The whole vertical on one page

TARGET AUDIENCES

Different circles, different products

Circle 1

- Those who come to us
- Temple visitors and festival crowds
- Donors and life members
- Internal departments

Circle 2

- Those we go to (b2b)
- Corporate companies
- Educational institutions
- Associations and professional networks
- Event management companies

Circle 3

- Open public (b2c outside)
- Gated communities
- Life-event families (open circle)

Circle 4

- Digital
- Online shoppers across India
- Health-conscious and diabetic buyers

Circle 5

- Scale
- Institutional bulk / large gatherings
- QSR and restaurant diners
- Export and diaspora

Start inside, then go out: Circle 1 (people already coming to us) funds the kitchen from day one;
Circle 2 (our B2B network) brings the big festival orders; Circles 3–4 add year-round volume; Circle 5 is the long-term scale play.

TARGET AUDIENCES

What each audience needs and what we offer

Audience	Offer	Channel	Price
Temple visitors and festival crowds	Restaurant, lawn food court, multiple festival stalls, take-home packs, 250 g see-through boxes	Stalls at entrance/exit/Goshala path, restaurant, QR menus, UPI	Mass tier ₹30–₹250
Donors and life members	Donor prasadam packs, bahumana boxes, 5 kg namkeen tins, festival hampers	Existing donor dispatch system, WhatsApp, donor-care calls	Mid to premium
Internal departments	Weekly standing order, one fixed delivery day, festival top-ups	Internal order form in the system; monthly budget per department	Internal transfer price (cost + agreed margin)
Corporate companies	Own-brand gift boxes (3 tiers) and white-label boxes with company branding; samples, menu, price list	Owner-level meetings (Mukunda Dasa + production rep), chamber and BNI referrals, LinkedIn, email	₹250–₹2,500 per box; volume slabs
Educational institutions	Low-ticket student packs, staff boxes, event catering	Chairman relationships; academic-calendar planning	Mass tier with bulk slabs
Associations and professional networks	Co-branded hampers, member discount codes, event snack boxes	Presidents/secretaries, chapter meetings, newsletters	Mid tier
Event management companies	Return-gift boxes, live counters, catering	Partner commission / referral fee	Mid tier
Gated communities	Weekend stall with top sellers, pre-order for festivals, community WhatsApp group	Flea-market organisers (free stalls offered before), RWA committees	Mass tier
Life-event families (open circle)	Occasion packs, catering menus, bulk sweets	Google Ads, Instagram, referrals, temple ceremony desk	Mid tier
Online shoppers across India	Shopify store + Amazon; subscriptions; diabetic-friendly namkeen; jaggery range	Meta Ads, Google Ads, WhatsApp, RCS, SMS, SEO, influencers	Mid tier + shipping
Health-conscious and diabetic buyers	'Satvik Wellness' sub-range; namkeen for diabetics	Content marketing, doctors/yoga communities	Premium
Institutional bulk / large gatherings	Bulk meal packets, prasadam packs, catering	Direct leadership contact; tender responses	Per-plate contract
QSR and restaurant diners	Satvik QSR outlets (franchise with partner), later fine dine	Franchise partner, food-delivery apps	₹99–₹399 meals
Export and diaspora	Export-grade packaged range	Family business in Malaysia, European contacts, APEDA, Amazon Global	Export pricing

BUSINESS MODELS

14 revenue streams (1/2)

R1 Internal supply to departments

Weekly standing orders to Culture Connect, LLP, online donors dispatch, corporate relations and campaigns, with one fixed delivery day and festival top-ups.

Phase 0–1 · Capex Low · Margin Low–Medium

R2 Festival stalls and counters

Rows of stalls at high-footfall points on festival days; permanent rain-proof pagodas; restaurant takes the entire lawn.

Phase 1 onward · Capex Medium (pagodas) · Margin High

R3 Temple restaurant and lawn food court

Restaurant as the daily anchor; on festival days full-length counters, chairs and round tables across the lawn.

Phase 1–3 · Capex Medium · Margin Medium

R4 Corporate gifting (own brand)

Dasara, Diwali, New Year, Sankranti and other gift boxes in three tiers, with dry fruits and sweets; samples, menu, price list.

Phase 1 onward · Capex Low (packaging) · Margin High

R5 White-label / co-branded gifting

Same boxes with the client's logo and message (sticker or printed sleeve), so their brand travels with our prasadam.

Phase 1 onward · Capex Low · Margin High

R6 Daily snacking (365-day retail)

Sweets and savories unconnected to festivals: chikkis, kaja, khara, namkeen, puri unde, laddus, 250 g weekly specials.

Phase 1–2 · Capex Low · Margin Medium

R7 E-commerce (own store + marketplaces)

Shopify store and Amazon listing for shelf-stable items, pan-India shipping, subscriptions, donor bundles.

Phase 2 · Capex Low · Margin Medium

BUSINESS MODELS

14 revenue streams (2/2)

R8 Catering and bulk meals

Satvik catering for house programmes, life events, corporate and institutional events; bulk meal packets (e.g. 50,000 meals).

Phase 2–4 · Capex High (at scale) · Margin Medium

R9 Gated community flea markets

Weekend stalls in ~100 gated communities, pre-orders for festivals, community WhatsApp groups.

Phase 2 · Capex Low · Margin Medium

R10 Outbound B2B and life-event sales

Sell to companies, event managers and families for openings, naming ceremonies, birthdays, weddings, vehicle pujas.

Phase 2–3 · Capex Low · Margin Medium

R11 Pickles, papads and powders

Masala powders, sambar powder, pickles, papads: very long shelf life, ideal for online and export.

Phase 3 · Capex Low–Medium · Margin Medium–High

R12 QSR and fine-dine restaurants

Satvik quick-service outlets under the brand via the interested franchise partner; vision of 100 QSRs in Hyderabad; later fine dine.

Phase 4–5 · Capex Partner-funded · Margin Royalty 4–8% [ESTIMATE]

R13 Exports and diaspora

Long-shelf-life range for diaspora markets and temples abroad.

Phase 5 · Capex Medium · Margin Medium–High

R14 Donor and sponsor packs

Bahumana gift boxes for big donors, sponsor prasadam for festivals, 5 kg namkeen tins in monsoon.

Phase 1 onward · Capex Low · Margin Medium

PRICING STRATEGY

Two segments: volume + premium

Mass / competitive tier

- Local-shop price or slightly below; huge volumes
- Covers rent, power, salaries; keeps kitchen rotating
- Counters, communities, internal supply, students

Premium tier

- Pure ghee, dry fruits, jaggery, wooden boxes
- Limited volume, high margin
- VIP corporate boxes, donors, wellness range

Gift box	Price	Contents	Best for
Seva box	₹250–₹450	3 items (chikki, namkeen, laddu) in a see-through or card box with brand sticker	Staff gifting at scale, students, communities
Utsav box	₹600–₹1,200	5–6 items including a premium sweet and dry fruits in a printed rigid box	Employees, association members, donors
Vaikuntha box	₹1,500–₹3,000+	Wooden box, dry fruits, premium sweets, small Deity picture / Gita card	Clients, VIPs, directors, big donors
White-label add-on	+₹15–₹60 per box	Client logo sticker/sleeve, greeting card, custom message	Any tier, MOQ applies

PRODUCT RANGE

Products: 15–20+ days shelf life first

Sweet

- Groundnut chikki (60–90 d)
- Til chikki (black & white) (60–90 d)
- Dry-fruit chikki (45–60 d)
- Puri unde (puffed-rice balls) (20–30 d)
- Poha puffed-rice unde (20–30 d)
- Kaja / square kaja (15–20 d)
- Besan / boondi laddu (10–15 d)
- Dry-fruit laddu (20–30 d)
- Mysore pak (15–20 d)

Savory

- Khara / mixture namkeen (30–45 d)
- Chakli / murukku (30–45 d)
- Ribbon pakoda / chekkalu (30–45 d)
- Roasted/spiced nuts (60–90 d)

Pantry

- Masala powders & sambar powder (180+ d)
- Pickles (180+ d)
- Papads (180+ d)

Gifting

- Dry fruits assortment (90+ d)

Rotating

- Weekly special (250 g box) (7–20 d)

PACKAGING

Attractive packaging wins the market

- See-through plastic boxes (already in use) for counters and the 250 g weekly item; move to food-grade PET with tamper seal.
- Branded stickers: temple brand + FSSAI number + MFD/best-before + ingredients + veg mark; client stickers for white-label.
- Printed rigid boxes for the Utsav tier; wooden boxes (stock in storeroom) for the Vaikuntha tier.
- Gift sleeve with a short story card: 'Prepared with devotion and offered to Sri Sri Radha Krishna'.
- Tins for 5 kg namkeen and premium nuts.
- Eco option: kraft paper boxes and cloth bags for premium buyers; reduce single-use plastic over time.
- Every pack carries a QR code to the online store and to donation pages (cross-sell).

Every pack carries

- Temple brand + story card
- FSSAI logo & number
- MFD, best-before, batch
- Ingredients & allergens
- Veg mark, net weight, MRP
- QR to store & donation page
- Client logo (white-label)

GO-TO-MARKET

Marketing: brand + network + technology

Brand story

'From the house of Radha Krishna': satvik, pure, no preservatives, no artificial colours, offered to the Deity, profits support temple service.

Databases

Segment donor, visitor, event and corporate databases; AI scoring to find likely buyers (DMTT data scientists).

WhatsApp / SMS / RCS

Festival broadcast calendars, catalogue links, one-tap reorder, community groups for gated societies.

Google Ads

Search: 'Diwali gift boxes Hyderabad', 'corporate gifts Hyderabad', 'satvik catering', 'pure ghee sweets online'.

Meta Ads & Instagram

Reels of prasadam preparation, Deity offering, festival crowds; flash sales for leftovers; retargeting.

SEO & content

Leverage existing top ranking; product pages, recipes, 'why satvik' articles; Google Business Profile for the food court.

Owner-level selling

Personal meetings with company owners via chambers, BNI, Rotary, T-Hub; sample box + catalogue + price list.

Events & PR

Record attempts, Dandiya tie-ups, stalls at chamber and BNI events; press on 'temple kitchen goes online'.

On-campus visibility

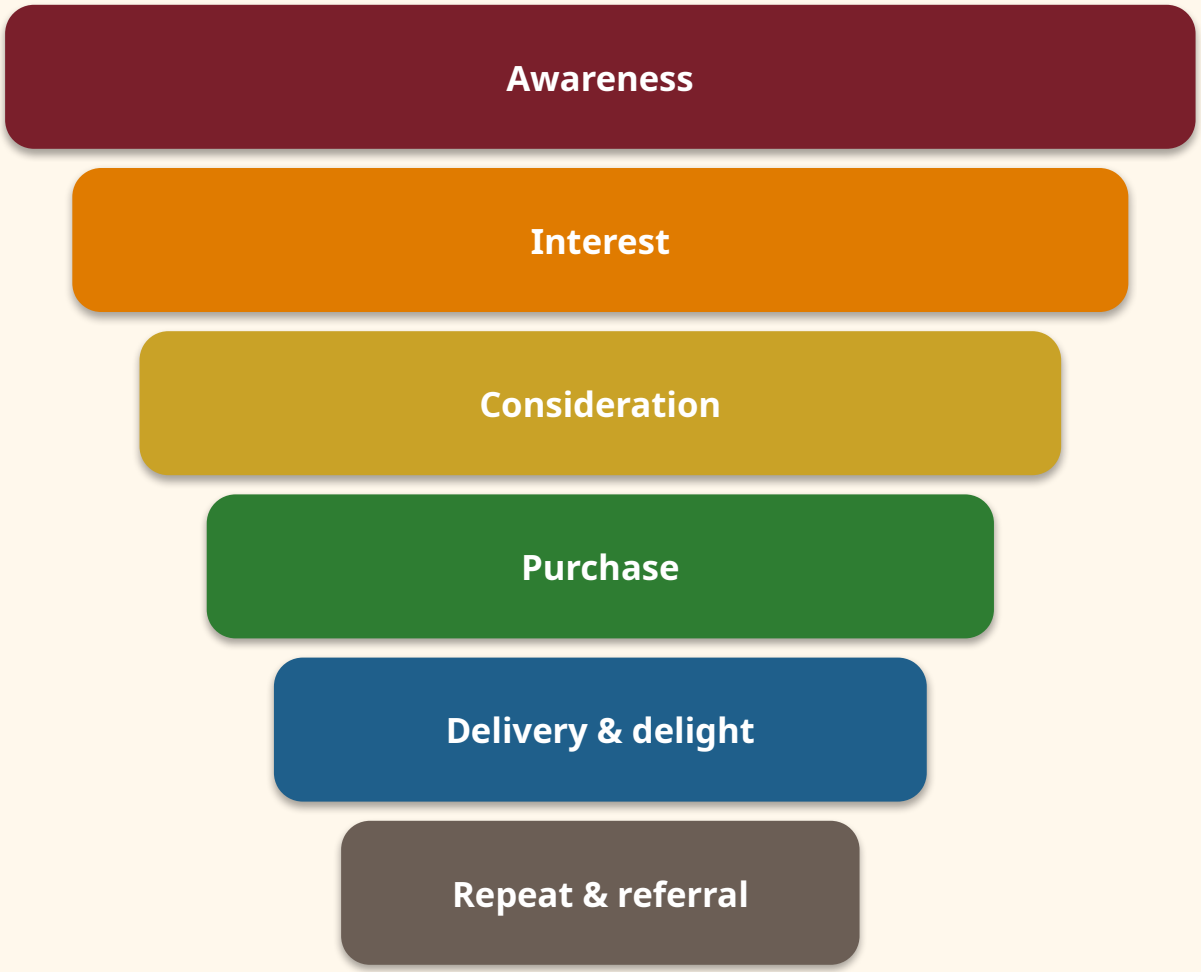

Signage and QR codes at darshan exit, Goshala, waterfall, restaurant; 'take prasadam home' messaging.

Cross-sell

QR on every pack to store and donation pages; prasadam with donation receipts; yatra packs.

SALES FUNNEL

From first touch to repeat order

Festival crowds, social reels, SEO, chamber/BNI events

Catalogue on WhatsApp, website product pages, sample boxes

Owner meeting, price list, white-label mock-up, reviews

Online checkout / PO with advance / UPI at stall

On-time dispatch, story card, feedback call

Festival calendar reminders, subscription, referral rewards

TEMPLE CAMPUS

Festival stalls: 10× by going where the crowd is

Main entrance	**Darshan exit queue**	**Goshala walking path**	**Staircases**
Garden / lawn	**Waterfall & benches**	**Goshala entrance → Samskara**	**Restaurant takes the lawn**

- One stall draws 10–50 people and the rest walk away. Put many counters in a row.
- Pre-packed combos (₹100/₹200/₹500), UPI at every counter, runners restock every hour.
- Permanent rain-proof pagodas: closed in rain, open otherwise.
- Passive selling: we are not pushing. People choose to approach, so this is not commercialising the temple.
- Shelf-stable stock is the hedge: leftovers go online / Instagram within 48 hours.

OPERATIONS

Operations: start with what we have

Kitchen & production

Start in the existing/new kitchen with 4 staff + 1 hire now; add seasonal staff for hero campaigns; exclusive cook once weekly volume is committed; later a dedicated unit (converted building outside the temple).

Standard recipes

Written recipes and yield sheets for every SKU so taste and cost stay constant; batch records.

Shelf-life & quality

Lab shelf-life test per SKU before online launch; moisture-proof packing; first-in-first-out; batch codes.

Procurement

Use negotiated temple vendor rates; bulk-buy ghee, jaggery, groundnut, dry fruits before festival season; two suppliers per key item.

Storage

Dry store with racks, pest control and temperature/humidity monitoring; separate finished-goods store.

Order management

One system for all orders (internal, B2B, online, festival): Shopify/ERP + production calendar; weekly minimum orders; festival forecasts from the calendar.

Fulfilment

Reuse donor-dispatch set-up; courier aggregator for fastest partner; own vehicle for Hyderabad B2B; Amazon for marketplace.

Festival stall SOP

Layout map, stall kit (pagoda, table, POS, UPI QR, signage), cash-handling rules, hourly restocking runners, stock-out alerts.

Compliance

FSSAI registration/licence matched to turnover, labelling (MFD, best-before, ingredients, veg mark, FSSAI no.), GST 5%, trade licence, fire NOC, staff medical checks, water testing.

Finance & ROI (DMTT)

Separate cost centre; track revenue, ingredient cost, packaging, salaries, marketing, hours spent by each team; monthly P&L and ROI dashboard.

PROCESS

One order flow for every channel

- Internal departments: weekly minimum order, one fixed delivery day, festival top-ups entered in advance.
- B2B: 50% advance, sticker proof approval, locked production slot, dispatch buffer before festival.
- All prasadam orders go only to the in-house production lead; no outside vendors.

ROADMAP

Roadmap: six phases from foundation to export

0 — Foundation

26 Sep – 10 Oct 2026

Data, decisions and a ready-to-sell kit

- Share order confirmation details requested by production
- Analyse 6–12 months of prasadam purchases and order volumes
- Estimate weekly minimum and festival peak demand
- Budget per department (LLP, Culture Connect, online donors)
- Final product list, quantities and samples from production
- Costing and two-tier pricing (mass and premium)

1 — Pilot: Dasara & Diwali

11 Oct – 30 Nov 2026

Prove corporate gifting, stalls and internal supply

- Owner meetings with 20+ companies, MNR, chambers, BNI
- Serve the three companies that already asked
- White-label boxes for first clients
- Mahalaya / Pitru Paksha and Dasara stalls in multiple locations
- Diwali gift box production and dispatch
- Weekly standing internal orders live

2 — Launch channels

Dec 2026 – Mar 2027

Year-round revenue and digital sales

- Shopify store + Amazon listing for shelf-stable range
- Shelf-life lab tests and full FSSAI labelling
- New Year, Sankranti (til chikki), Vaikuntha Ekadashi, Gita Jayanti campaigns
- Gated community weekend stalls (start 10, grow to 30)
- Catering pilot: house programmes and small events
- Satvik subscription box beta

3 — Scale in Hyderabad

Apr – Sep 2027

10× festival sales and new product lines

- Permanent rain-proof pagodas; lawn food-court SOP
- Pickles, papads and powders line
- Janmashtami 2027 target: 10× 2026 counter sales
- Catering scale-up; partner kitchens for 50,000-meal orders
- Learning visits: ISKCON Mysore and Ahmedabad
- Year-1 review and Year-2 budget

4 — Dedicated unit & QSR pilot

Oct 2027 – Sep 2028

Own capacity, machinery and first outlets

- Dedicated production unit (converted building), machinery
- State/Central FSSAI licence as turnover grows
- Brand licence agreement with QSR partner; 1–3 pilot outlets
- Pan-India e-commerce push; corporate contracts across South India
- Team of ~25–40

5 — National & export

Year 3–5

A national vertical with exports

- Scale QSRs towards the 100-outlet Hyderabad vision
- Export via Malaysia and Europe contacts; APEDA/IEC
- Replicate model with other temples
- ~100 employees

IMMEDIATE PLAN

The next 60 days: Dasara and Diwali pilot

Week 1–2 · 26 Sep – 10 Oct

- Order data analysis
- Budgets per department
- Samples & costing
- Pricing & gift tiers
- Catalogue & stickers
- Hire 1 person
- Decision meeting 5 Oct

Week 3–4 · 11 – 24 Oct

- Owner meetings
- Serve 3 waiting companies
- Mahalaya & Dasara stalls
- Weekly internal orders live
- Seasonal staff

Week 5–6 · 25 Oct – 8 Nov

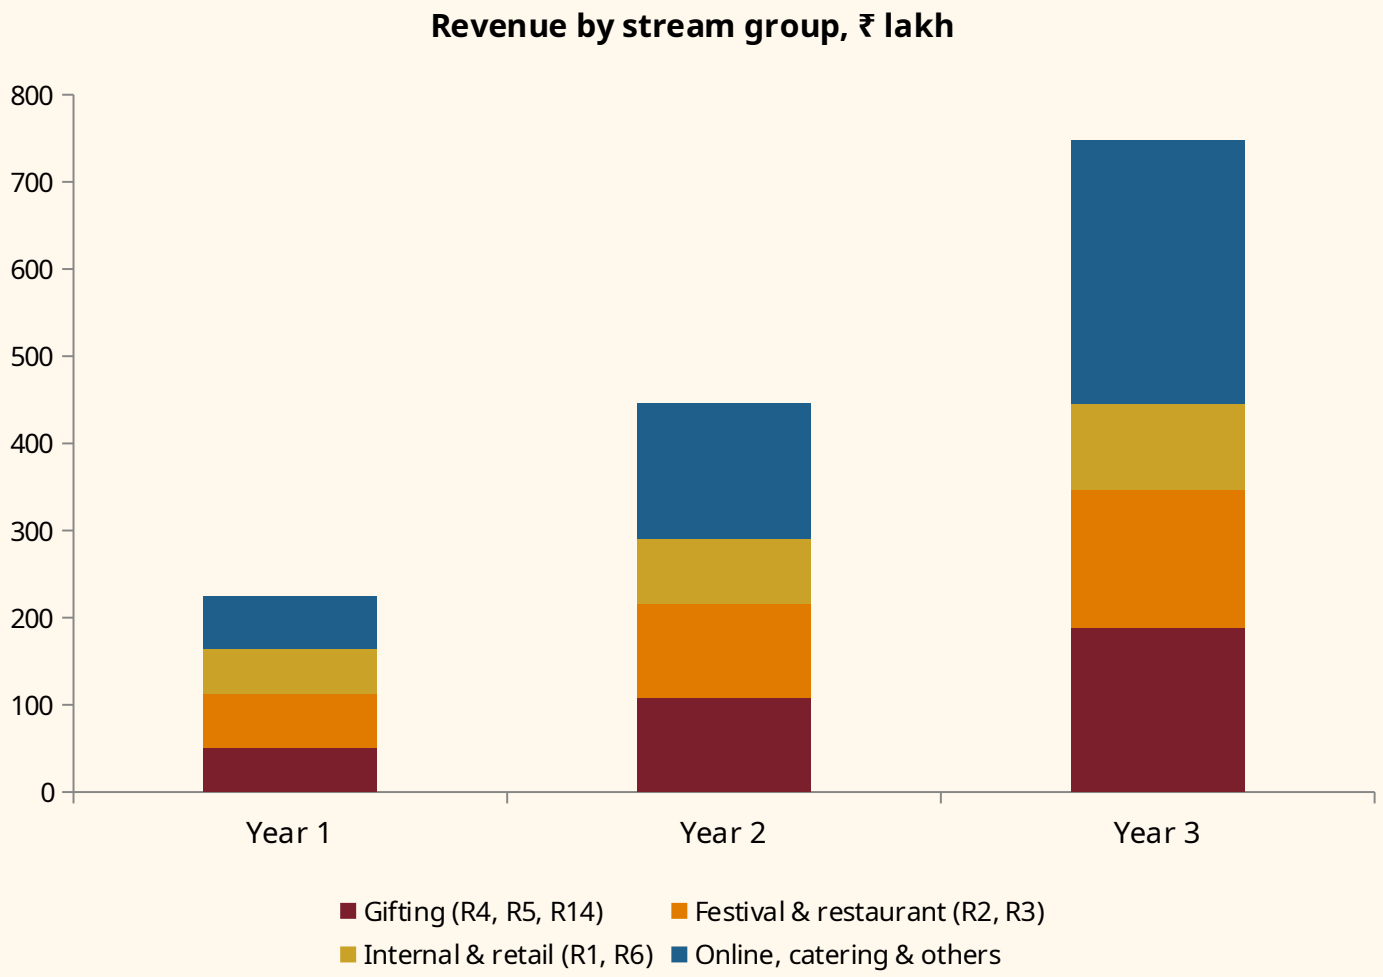

- Diwali production
- White-label dispatch
- Donor bahumana boxes
- Daily stand-ups

Week 7–9 · 9 – 30 Nov

- Leftovers online / Instagram
- Collect payments
- P&L + ROI
- Pilot review & go/no-go

FINANCIALS

Financial outlook [estimate]

Year 1 at a glance

- Revenue ≈ ₹224 L
- Gross profit ≈ ₹82 L (37%)
- Incremental opex ≈ ₹67 L
- Net contribution ≈ ₹15 L before capex
- Capex < ₹30 L (machines, pagodas, storage)
- B2B 50% advances fund the pilot
- Year 2 ≈ ₹446 L · Year 3 ≈ ₹749 L
- Replace with real order data (task 2.2)

TEAM & GOVERNANCE

Who does what

Role	Person	Responsibility
Executive sponsor	Temple leadership	Approves budget, brand use and major decisions
Vertical lead – marketing, sales & technology	Mukunda Dasa	Vision, network, marketing, e-commerce, DMTT reporting
Production lead	Prabhu (production)	Recipes, costing, samples, capacity, kitchen team
Production manager (reporting line)	Production lead's manager	Approves production commitments and resources
E-commerce & logistics advisor	Subhadra Radha Devi Mataji	Shopify/Amazon, fastest shipping
Corporate sales representative	To be assigned by Mukunda Dasa	Joins owner meetings; manages B2B pipeline
Order coordinator (new hire)	To hire now	Order confirmations, internal orders, production calendar
Design & packaging	DMTT designer	Catalogue, boxes, stickers, white-label mock-ups
Data & AI	DMTT data scientists	Demand analysis, targeting, ROI dashboard
Finance	Accounts team	Cost centre, GST, P&L, ROI
Quality & compliance	To assign	FSSAI, labelling, hygiene audits

Governance rhythm

- Daily (festival weeks): Stand-up: production + stalls + dispatch
- Weekly: Order & pipeline review (orders, production plan, sales pipeline, issues)
- Monthly: P&L and ROI review with DMTT & finance; KPI dashboard
- After each hero campaign: Post-campaign review and lessons learned
- Quarterly: Steering review with temple leadership; budget and capex decisions

RISK

Top risks and how we handle them

20 **Kitchen cannot meet Diwali peak volume**

Forecast from order data; seasonal staff; cap orders by capacity; 50% advance; partner kitchens on standby

15 **QSR partner quality not aligned with temple standards**

Strict brand licence, audits, satvik SOPs, exit clauses

12 **Premium-only pricing fails to cover fixed costs**

Two-tier model; mass tier for volume; monthly margin review

12 **Use of the ISKCON name on commercial packaging questioned**

Written approval from temple leadership / group legal; consistent brand guidelines; consider a sub-brand

12 **Ingredient price spikes (ghee, jaggery, nuts)**

Forward-buy before season, two suppliers, sugar/jaggery flexibility, price validity clauses

12 **Late B2B deliveries during peak**

Production calendar, cut-off dates, dispatch buffer, own vehicle

12 **Staff overload across departments**

Dedicated hires; clear RACI; hours tracked in DMTT

10 **Food-safety incident harms temple reputation**

FSSAI compliance, hygiene SOPs, batch codes, shelf-life tests, staff medical checks, recall plan

KPIS & ROI

'What did we get back?': one ROI dashboard

Revenue

Monthly gross revenue by stream

INNOVATION PIPELINE

More ideas to test cheaply

Satvik Subscription Box

Monthly box of 4–6 seasonal sweets and savories delivered to homes and offices; donor-exclusive pricing.

Festival Pre-order App/Page

Pre-book Janmashtami/Diwali boxes online; pick up at a dedicated counter to avoid queues; stock planned from pre-orders.

Corporate 'Prasadam Friday'

Weekly snack trays for company pantries on a subscription contract.

Student and hostel packs

Low-ticket packs for MNR and other institutions during exams and festivals.

Diabetic-friendly namkeen line

Clearly labelled low-sugar/no-sugar range for donors who cannot eat sweets.

Jaggery & millet wellness range

Premium health range (jaggery chikki, millet laddu, poha puffed-rice unde).

Occasion kits

House-warming, naming ceremony, vehicle puja, shraddha and wedding return-gift kits.

Monsoon namkeen tins

5 kg tins for big donors and showrooms in the rainy season.

World-record event

Largest laddu / largest chikki / most prasadam packets in a day for PR (India Book of Records).

Live-kitchen experiences

Weekend 'make your own laddu' workshops for families and corporate teams.

Temple-to-desk vending

Branded shelf-stable snack racks in corporate offices and co-working spaces.

Instagram flash sales

Clear post-festival leftover stock with limited-time offers.

Referral programme for event planners

Commission for every catering or return-gift order referred.

Sponsor-a-box

Donors sponsor prasadam boxes distributed to the needy on festivals (cause marketing).

Travelling prasadam (Yatra tie-in)

Shelf-stable packs for yatris on the temple's pilgrimage tours (links to the Yatra department).

NRI gifting portal

Order from abroad, delivered to family in India for festivals.

THE ASK

Decisions needed at the 5 October meeting

- Final product list, quantities and weekly minimum per department?
- Budget allocated for prasadam per department (LLP, Culture Connect, online donors)?
- Pricing model split between premium and competitive tiers?
- Real production capacity per day now, with one more hire, and at peak with seasonal staff?
- Which infrastructure and staffing investments are justified before demand is validated?
- Brand name on packs: 'ISKCON Hyderabad', 'Hare Krishna Golden Temple', or a sub-brand?
- Which FSSAI licence covers commercial sale and e-commerce, and does it cover off-site stalls?
- Transfer-pricing and profit-sharing between production and marketing teams?
- Who owns catering for very large orders (50,000 meals) until a catering unit exists?

Action items this week

- A1: Provide the order confirmation information requested for prasadam orders (Production team (order coordinator), 29 Sep 2026)
- A2: Hire an additional person for prasadam production work (Production lead, 10 Oct 2026)
- A3: Propose available budget and requested items to production for samples and planning (Mukunda Dasa's team, 30 Sep 2026)
- A4: Analyse 6–12 months of prasadam purchases and order volumes; share regular and festival estimates (DMTT data, 3 Oct 2026)
- A5: Prepare and send the detailed plan for the prasadam and sweets vertical (Mukunda Dasa, 30 Sep 2026 (this document))
- A6: Identify additional prasadam products with longer shelf life (Production lead, 4 Oct 2026)
- A7: Prepare packaging and product presentation for bulk corporate gifting (DMTT designer + Production lead, 10 Oct 2026)
- A8: Send a representative to support meetings with large company owners (Mukunda Dasa, 3 Oct 2026)

Somebody has to take the first bold step.

Depending on Srila Prabhupada and Krishna, let us start today: production by the temple kitchen, marketing and technology by DMTT, every result tracked.

Hare Krishna

Prasadam, Sweets & Savories Vertical

Mind map of the full business plan · Hare Krishna Golden Temple (ISKCON), Banjara Hills, Hyderabad · v1.2, 21 October 2026. Click any node to expand; use search to find a detail.

Prasadam Vertical

Vision & why now

Vision

- Make prasadam, sweets and savories one of the organisation's biggest verticals: first in Hyderabad, then across South India and all of India, and eventually in export markets. Profits fund our own kitchen, our own staff and machinery, and the temple's service to society.

Mission

- Offer pure, satvik, preservative-free prasadam, prepared with devotion and offered to Sri Sri Radha Krishna, to every audience we already touch: visitors, donors, devotees, companies, institutions, communities and online buyers. Production is done by the temple kitchen; marketing, technology and sales are done by the DMTT; every rupee and hour is tracked for ROI.

One-line pitch

- Temple-made satvik sweets and savories, from the house of Radha Krishna, sold through every circle the temple already reaches: counters, restaurant, corporate gifting, white-label, catering, communities, e-commerce and, later, QSRs and exports.

Why now

- Mukunda Dasa is already driving revenue generation for the temple from several sources (gift items, e-commerce); prasadam is one of them.
- "Already we are late. If not today, tomorrow we have to start." Target to be doing this at scale within one year at most.
- First-mover advantage: no temple in the Bangalore group of temples has done this at large scale yet; the market is untapped.

- Earlier attempts (with Vasudha, with T-Hub and Justdial.com founders and government networks) stalled because margins did not work and nobody owned production. Now a dedicated production lead (Prabhu) is in place, so the missing piece is solved.
- Division of labour: "You take care of production. We take care of marketing and technology."
- A devotee must own the vision for 5–10 years and keep driving it.

Meeting insights (everything said)

Why now

- Mukunda Dasa is already driving revenue generation for the temple from several sources (gift items, e-commerce); prasadam is one of them.
- "Already we are late. If not today, tomorrow we have to start." Target to be doing this at scale within one year at most.
- First-mover advantage: no temple in the Bangalore group of temples has done this at large scale yet; the market is untapped.
- Earlier attempts (with Vasudha, with T-Hub and Justdial.com founders and government networks) stalled because margins did not work and nobody owned production. Now a dedicated production lead (Prabhu) is in place, so the missing piece is solved.
- Division of labour: "You take care of production. We take care of marketing and technology."
- A devotee must own the vision for 5–10 years and keep driving it.

Brand advantage

- When customers hear it is from ISKCON, customer acquisition is easy; people trust the name.
- Competing small shops often use chemicals and artificial colours; buyers do not trust them.
- Positioning: 'from the house of Radha Krishna', satvik, pure, without preservatives. People will pay for that.
- Strong SEO and digital presence: anyone searching for ISKCON Hyderabad finds our pages first.
- Proposal discussed to move email addresses to an iskconhyderabad.org-style domain for brand consistency.

- Brand-building stunt idea: an India Book of Records / world-record attempt (e.g. via the 'Mandal Yatra' platform) for a large-quantity preparation, used on social media and the website.

Existing assets to reuse

- Huge databases, networks and warm contacts who have already contributed to the temple.
- Existing system for dispatching prasadam to online donors all over India; other departments already copy this system.
- Existing human resources, spaces, vendor list and negotiated rates.
- Existing e-commerce experience: Shopify, order management, fastest-courier comparison.
- Subhadra Radha Devi Mataji has shipped around 15,000 parcels via Amazon across the country and knows fastest shipping.
- AI engineers and data scientists in the team; cross-sell databases; SMS, WhatsApp, RCS, Google Ads, Meta Ads and organic marketing.
- A new kitchen was recently inaugurated.
- Wooden gift boxes are already available in the storeroom; see-through plastic boxes already in use.
- Personal network in the trade: Mukunda Dasa's cousins run a large sweets business in Malaysia and have supplied bahumana sweets before; family has long experience in this business.

Named contacts and circles

- MNR group: 42 institutions (schools, colleges: medical, engineering, commerce, arts). Staff and student gifting at Dasara.
- Steel/foundry company owners with ~10,000 employees across Karnataka, AP, Telangana, Kerala, Tamil Nadu.
- T-Hub mentors, directors, CEOs, founders.
- Event-management firms, e.g. Naukaran Entertainment (Kavitaji); high-profile Dasara Dandiya events attended by prominent people.
- Telangana Chamber of Commerce (president is close); member companies registered on its platform.
- Rotary, Round Table, Alpha Circle, BNI.

- Institute of Company Secretaries and chartered accountants, Hyderabad chapter (president, secretary).
- About 100 gated communities with weekend flea markets; organisers have given free stalls before.
- About 100 companies currently in touch; outbound selling is possible with manpower.
- Chinmaya Mission Bhagavad Gita recitation event asked for 50,000 meals over two days: an order we should not lose.
- Big donors (e.g. from large showrooms) phone asking for 5 kg of namkeen in the rainy season.
- Three companies have asked us for gift boxes, calendars and Dasara gifts; we could not serve them yet ("my heart is paining").
- A partner has offered network, funds and execution for 100 restaurants / 100 QSRs in Hyderabad under the brand (KFC-style popularity).

Festival counters evidence

- Janmashtami 2026: almost all prasadam counters sold out; around ₹6 lakh sales. Target: 10 times more.
- A family member of the production lead watched the corner stall for four hours; continuous crowds.
- Mahalaya (Pitru Paksha) brings many people for service; a figure of about 200 lakh was mentioned for last year (the transcript is unclear on what it measured). Put sweets and savories stalls there too.
- One stall causes queues of 10–50 people and others walk away; put many stalls in a row.
- Place stalls where footfall is: entrance, exit (especially the darshan exit queue), Goshala walking path, staircases, garden, near benches and the waterfall, from Goshala entrance to Samskara hall.
- A counter in a garden where people do not gather is of no use; traffic goes out through the exit.
- Permanent pagodas that can be closed in rain and opened otherwise; costing was requested earlier but not done.
- The restaurant should take over the entire lawn on festival days: chairs, round tables, full-length counters, sweets and savories in a full row.
- Answer to 'the temple is becoming commercial': this is passive selling. We are not pushing; people choose to approach a stall.

- Shelf-stable stock is the hedge: if festival sales fall short, sell the balance online / via Instagram with a small discount.

Pricing and unit economics

- Two options: premium price for limited premium customers (limited staff, high revenue per order), or competitive price for huge volumes.
- Illustration used: 1 lakh orders per month at a small ticket making ₹10 lakh, versus 10,000 premium orders.
- Premium alone cannot cover capex, rent, electricity and salaries; it is a niche and hard to push.
- Decision: run two segments. The mass segment keeps the kitchen running (rotation, maintenance); premium adds margin.
- Very attractive packaging wins the market.
- Big brands have entered (a well-known brand now sells a full range of laddus and products), which proves the market.
- Prabhu will give good costing for mass and premium items; we help Prabhu grow so he gets volume-based better pricing.
- Jaggery is costlier than sugar; sugar is acceptable. Prefer jaggery-based where price allows; pick whichever gives the better price.
- Namkeen for diabetics, who cannot eat sweets.

Production and capacity

- Production lead currently has 4 people; will add people directly for good orders.
- Internal demand exists daily: donor campaigns, Culture Connect, the corporate relations department, the new Virpaksha campaign (daily donors).
- Weekly minimum order with one fixed delivery day (4 deliveries a month) so the kitchen can plan.
- Festival months (hero campaigns) communicated in advance through the system with quantities from the calendar.
- An exclusive cook for our orders if we commit volume.
- Last Krishna-related order was received and prepared quickly even at the last minute.

- Procurement rule: stop giving prasadam orders to anyone else; order only from the internal production lead.
- Infrastructure can be established if needed; later, a separate building outside the temple can be converted into a unit, as other temples do.
- Catering needs heavy capex and infrastructure; plan it as its own vertical.
- A pantry/service area exists near the restaurant; cooking happens in the main kitchen.

Products

- Criterion one: shelf life of 15–20 days.
- Kaja (including square kaja), khara (savoury) and sweet items.
- Groundnut chikki; black til and white til chikkis.
- Puri unde (puffed-rice balls) with jaggery, coconut and elaichi; poha puffed-rice variant for health-conscious buyers.
- Laddus and a 250 g weekly new item in a see-through box, which had very good response.
- Namkeens / mixtures.
- Pickles, papads, masala powders, sambar powder: another vertical.
- Dry fruits for gifting.
- Samples shown of small machines (e.g. a small red machine) for making items.

Governance and ROI

- Track from DMTT how much effort, time and energy was spent and how much revenue was generated for the temple.
- If someone asks 'you spent this much, what did we get back?', the ROI must be clearly visible.
- Budget for prasadam must be stated per department: LLP, Culture Connect, online donors.
- Approval path: production lead discusses with his reporting manager; then one meeting of Mukunda Dasa, the production lead and the manager to finalise.

Learning visits and long-term vision

- Visit ISKCON Mysore (prasadam there is very good) and Ahmedabad; spend a day with those devotees. Introductions available.
- Tech-platform thinking: Zomato, Swiggy, Zerodha, Amazon own little but scale through technology. Our scale will also come from technology.
- Long-term: 100 employees, export to different countries, 100 QSRs.
- Other related ideas raised: dairy products and ghee; temple advertising projects; education company in 150 languages; Krishna-conscious games; audio/video in 50 languages (outside this plan's scope but share the same DMTT capability).

Smaller details also mentioned

- About 10 days was mentioned for samples and feasibility on internal-department pricing.
- "In 65 days we can do it" was said about getting the vertical moving before the hero campaigns.
- Hero campaigns named: Dasara, Ganesh Chaturthi, New Year, Pitru Paksha, Acharya month and other temple festivals.
- Vasudha is not a competitor; it works on a different platform. Few other temple groups produce sweets and savories at scale.
- Mukunda Dasa recently visited a well-known business that now sells a full range of laddus and products, and brought back samples.
- A visitor with long-running business in Europe offered a connection.
- Companies already pay some vendor for festival gifts; middlemen in purchase departments may take commission, but owners prefer a source they trust.
- Gift boxes can carry the client's branding with a sticker; earlier requests were refused because no facility existed.
- Chinmaya Mission's 50,000-meal enquiry was passed to a professor contact; it should not be lost.
- Google has given the organisation ₹75 lakh in funding for technology products (context for DMTT's capacity).
- Some passages of the transcript are garbled (names, a few numbers); points are recorded as heard.

Market research

- **India packaged sweets market**
  - ₹8,431 crore in 2025, forecast ₹30,506 crore by 2034 (≈16% CAGR). Boxes are the largest packaging format (49%).
  - Source: IMARC Group
- **India namkeen market**
  - Expected to grow by USD 4.89 billion between 2025 and 2030 at ≈10.2% CAGR; Tier-II/III retail expansion is a driver.
  - Source: Technavio
- **Corporate gifting**
  - India's corporate gifting market could cross ₹27,000 crore by 2030, with organised players taking nearly half.
  - Source: Chococraft industry note
- **Diwali gifting mix**
  - About 58% of Diwali gifts in 2025 were for corporate celebrations and 42% personal.
  - Source: Outlook India / MyFlowerTree report
- **Premiumisation**
  - Consumers increasingly prefer premium packaged sweets, curated hampers and customised assortments.
  - Source: Mordor Intelligence
- **GST 2.0**
  - From 22 Sept 2025, pre-packaged and labelled namkeen, bhujia and mixtures moved from 12% to 5% GST; sweets are at 5%. Lower tax helps the mass segment.
  - Source: Upstox / GST Council 56th meeting
- **FSSAI licence thresholds**
  - From 1 April 2026 Basic Registration covers turnover up to ₹1.5 crore (was ₹12 lakh); Central Licence threshold raised from ₹20 crore to ₹50 crore; State Licence in between.

- Source: Mondaq / FSSAI order of 13 March 2026

- **Labelling**
  - Pre-packaged sweets must show date of manufacture and best-before date. The best-before display for loose sweets on trays is now voluntary (recommended anyway).
  - Source: FSSAI / Free Press Journal

- **Temple precedent**
  - ISKCON Govinda's (Bangalore) runs an online store with same-day delivery slots for sweets, snacks, bakery, thalis and catering.
  - Source: iskcongovindas.in

- **Local competition**
  - Hyderabad incumbents: G Pulla Reddy (since 1948, pure ghee, gifting page), Almond House (ships worldwide), Vellanki Foods, Dadu's, Pista House, Olive Mithai, Godavari Vantillu.
  - Source: Brand sites / IndiaShopping

- **Competitors**
  - **G Pulla Reddy Sweets**
    - Heritage pure-ghee brand; strong gifting and online
    - Tier: Premium
    - Our edge: Temple sanctity + satvik + cause; prasadam is offered to the Deity
  - **Almond House**
    - Premium dry-fruit sweets, global shipping
    - Tier: Premium
    - Our edge: Price flexibility (mass tier), institutional network
  - **Vellanki Foods / Godavari Vantillu**
    - Andhra traditional snacks, pickles, powders; online
    - Tier: Mid

- Our edge: Brand trust, festival footfall, donor base

- **Pista House / Dadu's / Olive Mithai**
  - Retail chains, festival boxes
  - Tier: Mid–Premium
  - Our edge: No-chemical, no-colour promise; spiritual story

- **Online gifting platforms**
  - Aggregators (IGP, FNP, etc.) curate hampers
  - Tier: Mid
  - Our edge: Direct relationships with company owners; white-label

- **Other temple Govinda's**
  - ISKCON Bangalore, Jaipur, Ahmedabad stores
  - Tier: Mid
  - Our edge: Not competitors but partners and benchmarks; Hyderabad has no scale player

- **Big national brands**
  - Haldiram's, Bikaji, and new entrants selling laddus
  - Tier: Mass–Mid
  - Our edge: Freshness, devotion, local connect; competitive pricing on mass tier

- **SWOT**
  - **Strengths**
    - ISKCON / Hare Krishna brand trust built over decades
    - Satvik, preservative-free, offered-to-Deity positioning
    - Warm network: company owners, chambers, BNI, Rotary, institutions
    - Large donor databases and top SEO ranking
    - Existing dispatch system, Shopify skills, negotiated vendor rates
    - Proven festival demand (Janmashtami sold out)

- In-house AI, data and marketing team (DMTT)

Weaknesses

- Kitchen capacity: 4 people today
- No dedicated packaging, design and pricing kit yet
- No historical cost/demand data compiled
- Limited cold chain and storage
- Production and marketing in different reporting lines
- Premium-only pricing would not cover fixed costs

Opportunities

- Dasara, Diwali, New Year, Sankranti corporate gifting
- White-label for companies' staff and clients
- 100 gated communities, weekend flea markets
- Large event catering (e.g. 50,000 meals)
- E-commerce pan-India; diaspora / export (Malaysia, Europe)
- QSR franchise with an interested partner
- GST cut to 5% on namkeen; growing packaged-sweets market (≈16% CAGR)

Threats

- Established Hyderabad sweet brands and national players
- Perception that the temple is 'commercialising' prasadam
- Food-safety incident damaging brand reputation
- Trademark/brand-use questions on the ISKCON name
- Ingredient price swings (ghee, jaggery, nuts)
- Festival demand volatility and weather

Target audiences (5 circles)

Circle 1: those who come to us

Temple visitors and festival crowds

- Who: Daily visitors, weekend families, festival crowds (Janmashtami, Mahalaya, Ratha Yatra, Gaura Purnima, etc.)
- Needs: Quick purchase, prasadam to take home, meals on the lawn
- Offer: Restaurant, lawn food court, multiple festival stalls, take-home packs, 250 g see-through boxes
- Channel: Stalls at entrance/exit/Goshala path, restaurant, QR menus, UPI
- Price: Mass tier ₹30–₹250

Donors and life members

- Who: Online donors across India, big donors, sponsors, Virpaksha daily donors
- Needs: Blessed prasadam at home; gifts for family and staff
- Offer: Donor prasadam packs, bahumana boxes, 5 kg namkeen tins, festival hampers
- Channel: Existing donor dispatch system, WhatsApp, donor-care calls
- Price: Mid to premium

Internal departments

- Who: Culture Connect, LLP, online donor team, corporate relations, campaigns
- Needs: Reliable weekly supply at an agreed rate
- Offer: Weekly standing order, one fixed delivery day, festival top-ups
- Channel: Internal order form in the system; monthly budget per department
- Price: Internal transfer price (cost + agreed margin)

Circle 2: those we go to (B2B)

Corporate companies

- Who: Owners/HR/admin of firms with 500–10,000+ staff (steel, IT, pharma, real estate, T-Hub startups)
- Needs: Festival gifts for staff and clients, on time, branded, within budget

- Offer: Own-brand gift boxes (3 tiers) and white-label boxes with company branding; samples, menu, price list
- Channel: Owner-level meetings (Mukunda Dasa + production rep), chamber and BNI referrals, LinkedIn, email
- Price: ₹250–₹2,500 per box; volume slabs

Educational institutions

- Who: MNR group (42 institutions) and other school/college chains
- Needs: Gifts for staff and students; event snacks
- Offer: Low-ticket student packs, staff boxes, event catering
- Channel: Chairman relationships; academic-calendar planning
- Price: Mass tier with bulk slabs

Associations and professional networks

- Who: Telangana Chamber of Commerce, BNI, Rotary, Round Table, Alpha Circle, ICSI/ICAI Hyderabad chapters
- Needs: Member gifts, event hampers, meeting snacks
- Offer: Co-branded hampers, member discount codes, event snack boxes
- Channel: Presidents/secretaries, chapter meetings, newsletters
- Price: Mid tier

Event management companies

- Who: Firms running Dandiya, weddings, corporate events (e.g. Naukaran Entertainment)
- Needs: Return gifts, event food counters
- Offer: Return-gift boxes, live counters, catering
- Channel: Partner commission / referral fee
- Price: Mid tier

Circle 3: open public (B2C outside)

Gated communities

- Who: ~100 gated communities with weekend flea markets
- Needs: Tasty, pure snacks; festival supplies
- Offer: Weekend stall with top sellers, pre-order for festivals, community WhatsApp group
- Channel: Flea-market organisers (free stalls offered before), RWA committees
- Price: Mass tier

Life-event families (open circle)

- Who: Families holding house-warming, naming ceremony, birthdays, weddings, car/vehicle puja, shop openings, shraddha
- Needs: Prasadam packs, return gifts, satvik catering
- Offer: Occasion packs, catering menus, bulk sweets
- Channel: Google Ads, Instagram, referrals, temple ceremony desk
- Price: Mid tier

Circle 4: digital

Online shoppers across India

- Who: Social-media followers, NRIs sending gifts home, health-conscious buyers
- Needs: Trusted, pure, shelf-stable sweets delivered fast
- Offer: Shopify store + Amazon; subscriptions; diabetic-friendly namkeen; jaggery range
- Channel: Meta Ads, Google Ads, WhatsApp, RCS, SMS, SEO, influencers
- Price: Mid tier + shipping

Health-conscious and diabetic buyers

- Who: Buyers avoiding refined sugar, chemicals and colours
- Needs: Jaggery-based, low-sugar, millet, poha puffed rice
- Offer: 'Satvik Wellness' sub-range; namkeen for diabetics
- Channel: Content marketing, doctors/yoga communities
- Price: Premium

- **Circle 5: scale**
  - **Institutional bulk / large gatherings**
    - Who: Spiritual/cultural organisations (e.g. Chinmaya Mission 50,000 meals), government and corporate events
    - Needs: Very large volumes, on time, hygienic
    - Offer: Bulk meal packets, prasadam packs, catering
    - Channel: Direct leadership contact; tender responses
    - Price: Per-plate contract
  - **QSR and restaurant diners**
    - Who: Urban young families and office-goers wanting pure veg fast food
    - Needs: Fast, affordable, pure veg
    - Offer: Satvik QSR outlets (franchise with partner), later fine dine
    - Channel: Franchise partner, food-delivery apps
    - Price: ₹99–₹399 meals
  - **Export and diaspora**
    - Who: Indian diaspora (Malaysia, Europe, USA, Middle East), ISKCON temples abroad, Indian grocery stores
    - Needs: Authentic long-shelf-life sweets, pickles, powders
    - Offer: Export-grade packaged range
    - Channel: Family business in Malaysia, European contacts, APEDA, Amazon Global
    - Price: Export pricing
- **Revenue streams (14)**
  - **R1 Internal supply to departments**
    - What: Weekly standing orders to Culture Connect, LLP, online donors dispatch, corporate relations and campaigns, with one fixed delivery day and festival top-ups.

- Why: Guaranteed base load for the kitchen from day one; replaces outside vendors.
- How: Order-trend analysis (6–12 months) → minimum weekly quantity per department → internal price list → order form in the system.
- Phase: Phase 0–1 · Capex: Low · Margin: Low–Medium
- KPIs: Weekly order fulfilment %, on-time %, internal cost saved vs outside vendors

R2 Festival stalls and counters

- What: Rows of stalls at high-footfall points on festival days; permanent rain-proof pagodas; restaurant takes the entire lawn.
- Why: Proven: Janmashtami 2026 sold out at ≈₹6 lakh with limited counters. Target 10×.
- How: Footfall map → stall layout (entrance, exit queue, Goshala path, staircases, garden, waterfall, Samskara) → UPI + POS → stock plan from calendar → leftovers go online.
- Phase: Phase 1 onward · Capex: Medium (pagodas) · Margin: High
- KPIs: Sales per festival, sales per stall per hour, stock-out time, leftover %

R3 Temple restaurant and lawn food court

- What: Restaurant as the daily anchor; on festival days full-length counters, chairs and round tables across the lawn.
- Why: Captures every visitor; 365-day revenue.
- How: Menu engineering, QR ordering, festival lawn SOP, rental furniture contracts.
- Phase: Phase 1–3 · Capex: Medium · Margin: Medium
- KPIs: Daily covers, average bill, festival-day revenue

R4 Corporate gifting (own brand)

- What: Dasara, Diwali, New Year, Sankranti and other gift boxes in three tiers, with dry fruits and sweets; samples, menu, price list.
- Why: About 58% of Diwali gifting is corporate; our network reaches owners directly; three companies have already asked.
- How: Gift catalogue + samples → owner meetings (Mukunda Dasa with production rep) → PO with 50% advance → production calendar → dispatch.

- Phase: Phase 1 onward · Capex: Low (packaging) · Margin: High
- KPIs: Boxes sold, average order value, repeat clients, advance collected

R5 White-label / co-branded gifting

- What: Same boxes with the client's logo and message (sticker or printed sleeve), so their brand travels with our prasadam.
- Why: Companies are already paying some vendor; the owner prefers a trusted source.
- How: Brand-sticker template, MOQ per design, proof approval, 10–15 day lead time.
- Phase: Phase 1 onward · Capex: Low · Margin: High
- KPIs: White-label orders, lead time, design approval cycle

R6 Daily snacking (365-day retail)

- What: Sweets and savories unconnected to festivals: chikkis, kaja, khara, namkeen, puri unde, laddus, 250 g weekly specials.
- Why: Evergreen demand; rotation keeps the kitchen busy.
- How: Top-10 SKU list, standard pack sizes, shelf-life testing, temple shop + restaurant + online.
- Phase: Phase 1–2 · Capex: Low · Margin: Medium
- KPIs: Units per SKU per week, sell-through, returns/spoilage

R7 E-commerce (own store + marketplaces)

- What: Shopify store and Amazon listing for shelf-stable items, pan-India shipping, subscriptions, donor bundles.
- Why: Scale through technology; reuse donor dispatch and Amazon experience (≈15,000 parcels).
- How: Catalogue & photography → Shopify + payment + courier aggregator → Amazon → ads funnel → WhatsApp retargeting.
- Phase: Phase 2 · Capex: Low · Margin: Medium
- KPIs: Orders/month, CAC, ROAS, repeat rate, delivery TAT

R8 Catering and bulk meals

- What: Satvik catering for house programmes, life events, corporate and institutional events; bulk meal packets (e.g. 50,000 meals).
- Why: Strong demand; many requests already; high visibility for the brand.
- How: Start with drop-off catering from existing kitchen; partner kitchens for very large orders; later dedicated catering unit.
- Phase: Phase 2–4 · Capex: High (at scale) · Margin: Medium
- KPIs: Events/month, plates served, per-plate margin, feedback score

R9 Gated community flea markets

- What: Weekend stalls in ~100 gated communities, pre-orders for festivals, community WhatsApp groups.
- Why: Access already exists; organisers have given free stalls.
- How: Mobile stall kit, 2-person team, route calendar, lead capture for donor/preaching programmes.
- Phase: Phase 2 · Capex: Low · Margin: Medium
- KPIs: Events/month, sales/event, leads captured

R10 Outbound B2B and life-event sales

- What: Sell to companies, event managers and families for openings, naming ceremonies, birthdays, weddings, vehicle pujas.
- Why: The open 'public circle' beyond our own contacts.
- How: Sales executive, CRM pipeline, Google Ads for 'satvik catering Hyderabad', referral fees for event planners.
- Phase: Phase 2–3 · Capex: Low · Margin: Medium
- KPIs: Leads, conversion %, revenue per salesperson

R11 Pickles, papads and powders

- What: Masala powders, sambar powder, pickles, papads: very long shelf life, ideal for online and export.
- Why: Adjacent vertical with low spoilage; strong Andhra/Telangana demand.
- How: Recipe standardisation, lab testing, FSSAI labelling, co-packer if needed.
- Phase: Phase 3 · Capex: Low–Medium · Margin: Medium–High

- KPIs: SKUs live, online share, export enquiries

R12 QSR and fine-dine restaurants

- What: Satvik quick-service outlets under the brand via the interested franchise partner; vision of 100 QSRs in Hyderabad; later fine dine.
- Why: Partner offers network, funds and execution; pure-veg QSR is under-served.
- How: Brand licence agreement, central kitchen, 1–3 pilot outlets, SOPs, then scale.
- Phase: Phase 4–5 · Capex: Partner-funded · Margin: Royalty 4–8% [ESTIMATE]
- KPIs: Outlets live, royalty income, food-safety audit scores

R13 Exports and diaspora

- What: Long-shelf-life range for diaspora markets and temples abroad.
- Why: Family business in Malaysia; European contacts; ISKCON global network.
- How: Central FSSAI licence + IEC + APEDA; export partner; destination-country labelling.
- Phase: Phase 5 · Capex: Medium · Margin: Medium–High
- KPIs: Countries served, export revenue

R14 Donor and sponsor packs

- What: Bahumana gift boxes for big donors, sponsor prasadam for festivals, 5 kg namkeen tins in monsoon.
- Why: Deepens donor relationships; big donors already ask.
- How: Donor-care team offers packs with campaigns; sponsorship tiers include prasadam.
- Phase: Phase 1 onward · Capex: Low · Margin: Medium
- KPIs: Packs sent, donor retention uplift

New business ideas

Satvik Subscription Box

- Monthly box of 4–6 seasonal sweets and savories delivered to homes and offices; donor-exclusive pricing.

Festival Pre-order App/Page

- Pre-book Janmashtami/Diwali boxes online; pick up at a dedicated counter to avoid queues; stock planned from pre-orders.

Corporate 'Prasadam Friday'

- Weekly snack trays for company pantries on a subscription contract.

Student and hostel packs

- Low-ticket packs for MNR and other institutions during exams and festivals.

Diabetic-friendly namkeen line

- Clearly labelled low-sugar/no-sugar range for donors who cannot eat sweets.

Jaggery & millet wellness range

- Premium health range (jaggery chikki, millet laddu, poha puffed-rice unde).

Occasion kits

- House-warming, naming ceremony, vehicle puja, shraddha and wedding return-gift kits.

Monsoon namkeen tins

- 5 kg tins for big donors and showrooms in the rainy season.

World-record event

- Largest laddu / largest chikki / most prasadam packets in a day for PR (India Book of Records).

Live-kitchen experiences

- Weekend 'make your own laddu' workshops for families and corporate teams.

Temple-to-desk vending

- Branded shelf-stable snack racks in corporate offices and co-working spaces.

- **Instagram flash sales**
  - Clear post-festival leftover stock with limited-time offers.
- **Referral programme for event planners**
  - Commission for every catering or return-gift order referred.
- **Sponsor-a-box**
  - Donors sponsor prasadam boxes distributed to the needy on festivals (cause marketing).
- **Travelling prasadam (Yatra tie-in)**
  - Shelf-stable packs for yatris on the temple's pilgrimage tours (links to the Yatra department).
- **NRI gifting portal**
  - Order from abroad, delivered to family in India for festivals.

Products

- **Sweet**
  - **Groundnut chikki**
    - Shelf life 60–90 days
    - Tier: Mass
    - Sweetener: Jaggery
    - Packs: 100 g, 200 g, 500 g
    - Top shelf-life item; ideal for online and gifting
  - **Til chikki (black & white)**
    - Shelf life 60–90 days
    - Tier: Mass/Premium
    - Sweetener: Jaggery
    - Packs: 100 g, 200 g
    - Sankranti hero product

- **Dry-fruit chikki**
  - Shelf life 45–60 days
  - Tier: Premium
  - Sweetener: Jaggery/Sugar
  - Packs: 200 g, gift tin
  - Corporate gifting
- **Puri unde (puffed-rice balls)**
  - Shelf life 20–30 days
  - Tier: Mass
  - Sweetener: Jaggery, coconut, elaichi
  - Packs: 6-pc, 12-pc
  - Karnataka favourite; light, healthy
- **Poha puffed-rice unde**
  - Shelf life 20–30 days
  - Tier: Wellness
  - Sweetener: Jaggery
  - Packs: 6-pc
  - For health-conscious buyers
- **Kaja / square kaja**
  - Shelf life 15–20 days
  - Tier: Mass
  - Sweetener: Sugar syrup
  - Packs: 250 g, 500 g
  - Andhra classic
- **Besan / boondi laddu**
  - Shelf life 10–15 days
  - Tier: Mass/Premium

- Sweetener: Sugar, ghee
- Packs: 250 g, 500 g, 1 kg
- Festival and temple staple

Dry-fruit laddu

- Shelf life 20–30 days
- Tier: Premium
- Sweetener: Dates/jaggery
- Packs: 250 g, gift box
- No added sugar option

Mysore pak

- Shelf life 15–20 days
- Tier: Premium
- Sweetener: Sugar, ghee
- Packs: 250 g, 500 g
- Gift box star

Savory

Khara / mixture namkeen

- Shelf life 30–45 days
- Tier: Mass
- Sweetener: —
- Packs: 200 g, 500 g, 5 kg tin
- Diabetic-friendly choice

Chakli / murukku

- Shelf life 30–45 days
- Tier: Mass
- Sweetener: —
- Packs: 200 g, 400 g

- All-season
- **Ribbon pakoda / chekkalu**
  - Shelf life 30–45 days
  - Tier: Mass
  - Sweetener: —
  - Packs: 200 g
  - Telangana favourite
- **Roasted/spiced nuts**
  - Shelf life 60–90 days
  - Tier: Premium
  - Sweetener: —
  - Packs: 150 g tins
  - Gift boxes

- **Pantry**
  - **Masala powders & sambar powder**
    - Shelf life 180+ days
    - Tier: Mid
    - Sweetener: —
    - Packs: 100 g, 250 g
    - Pickles/powders vertical
  - **Pickles**
    - Shelf life 180+ days
    - Tier: Mid
    - Sweetener: —
    - Packs: 250 g, 500 g
    - Satvik (no onion/garlic) differentiator

- **Papads**
  - Shelf life 180+ days
  - Tier: Mass
  - Sweetener: —
  - Packs: 200 g
  - Long shelf life
- **Gifting**
  - **Dry fruits assortment**
    - Shelf life 90+ days
    - Tier: Premium
    - Sweetener: —
    - Packs: Gift boxes
    - Wooden box option
- **Rotating**
  - **Weekly special (250 g box)**
    - Shelf life 7–20 days
    - Tier: Mass
    - Sweetener: Varies
    - Packs: 250 g see-through
    - Already tested with very good response

Gift boxes & packaging

- **Gift tiers**
  - **Seva box (₹250–₹450)**
    - 3 items (chikki, namkeen, laddu) in a see-through or card box with brand sticker
    - Best for: Staff gifting at scale, students, communities

- **Utsav box (₹600–₹1,200)**
  - 5–6 items including a premium sweet and dry fruits in a printed rigid box
  - Best for: Employees, association members, donors
- **Vaikuntha box (₹1,500–₹3,000+)**
  - Wooden box, dry fruits, premium sweets, small Deity picture / Gita card
  - Best for: Clients, VIPs, directors, big donors
- **White-label add-on (+₹15–₹60 per box)**
  - Client logo sticker/sleeve, greeting card, custom message
  - Best for: Any tier, MOQ applies

Packaging

- See-through plastic boxes (already in use) for counters and the 250 g weekly item; move to food-grade PET with tamper seal.
- Branded stickers: temple brand + FSSAI number + MFD/best-before + ingredients + veg mark; client stickers for white-label.
- Printed rigid boxes for the Utsav tier; wooden boxes (stock in storeroom) for the Vaikuntha tier.
- Gift sleeve with a short story card: 'Prepared with devotion and offered to Sri Sri Radha Krishna'.
- Tins for 5 kg namkeen and premium nuts.
- Eco option: kraft paper boxes and cloth bags for premium buyers; reduce single-use plastic over time.
- Every pack carries a QR code to the online store and to donation pages (cross-sell).

Pricing

Mass / competitive tier

- Priced at or slightly below local shop prices; high volume; keeps the kitchen running and covers fixed costs (rent, salaries, power).
- Used for: Counters, communities, internal supply, student packs

- **Premium tier**
  - Premium ingredients (pure ghee, dry fruits, jaggery), premium packaging; limited volumes, high margin.
  - Used for: Corporate VIP boxes, donors, online wellness range
- **Internal transfer price**
  - Cost + agreed small margin; fixed for a quarter; budget per department.
  - Used for: Culture Connect, LLP, online donors
- **Volume slabs (B2B)**
  - e.g. 100–499 boxes list price; 500–1,999 −5%; 2,000+ −8% [ESTIMATE]; 50% advance, balance before dispatch.
  - Used for: Corporate and institutional orders
- **Festival pricing**
  - Fixed MRP; combos for quick checkout (₹100/₹200/₹500) to reduce queues.
  - Used for: Festival stalls

Marketing & sales

- **Brand story**
  - 'From the house of Radha Krishna': satvik, pure, no preservatives, no artificial colours, offered to the Deity, profits support temple service.
- **Databases**
  - Segment donor, visitor, event and corporate databases; AI scoring to find likely buyers (DMTT data scientists).
- **WhatsApp / SMS / RCS**
  - Festival broadcast calendars, catalogue links, one-tap reorder, community groups for gated societies.
- **Google Ads**
  - Search: 'Diwali gift boxes Hyderabad', 'corporate gifts Hyderabad', 'satvik catering', 'pure ghee sweets online'.

- **Meta Ads & Instagram**
  - Reels of prasadam preparation, Deity offering, festival crowds; flash sales for leftovers; retargeting.
- **SEO & content**
  - Leverage existing top ranking; product pages, recipes, 'why satvik' articles; Google Business Profile for the food court.
- **Owner-level selling**
  - Personal meetings with company owners via chambers, BNI, Rotary, T-Hub; sample box + catalogue + price list.
- **Events & PR**
  - Record attempts, Dandiya tie-ups, stalls at chamber and BNI events; press on 'temple kitchen goes online'.
- **On-campus visibility**
  - Signage and QR codes at darshan exit, Goshala, waterfall, restaurant; 'take prasadam home' messaging.
- **Cross-sell**
  - QR on every pack to store and donation pages; prasadam with donation receipts; yatra packs.
- **Funnel**
  - Awareness: Festival crowds, social reels, SEO, chamber/BNI events
  - Interest: Catalogue on WhatsApp, website product pages, sample boxes
  - Consideration: Owner meeting, price list, white-label mock-up, reviews
  - Purchase: Online checkout / PO with advance / UPI at stall
  - Delivery & delight: On-time dispatch, story card, feedback call
  - Repeat & referral: Festival calendar reminders, subscription, referral rewards

- **Operations**
  - **Kitchen & production**

- Start in the existing/new kitchen with 4 staff + 1 hire now; add seasonal staff for hero campaigns; exclusive cook once weekly volume is committed; later a dedicated unit (converted building outside the temple).

Standard recipes

- Written recipes and yield sheets for every SKU so taste and cost stay constant; batch records.

Shelf-life & quality

- Lab shelf-life test per SKU before online launch; moisture-proof packing; first-in-first-out; batch codes.

Procurement

- Use negotiated temple vendor rates; bulk-buy ghee, jaggery, groundnut, dry fruits before festival season; two suppliers per key item.

Storage

- Dry store with racks, pest control and temperature/humidity monitoring; separate finished-goods store.

Order management

- One system for all orders (internal, B2B, online, festival): Shopify/ERP + production calendar; weekly minimum orders; festival forecasts from the calendar.

Fulfilment

- Reuse donor-dispatch set-up; courier aggregator for fastest partner; own vehicle for Hyderabad B2B; Amazon for marketplace.

Festival stall SOP

- Layout map, stall kit (pagoda, table, POS, UPI QR, signage), cash-handling rules, hourly restocking runners, stock-out alerts.

Compliance

- FSSAI registration/licence matched to turnover, labelling (MFD, best-before, ingredients, veg mark, FSSAI no.), GST 5%, trade licence, fire NOC, staff medical checks, water testing.

Finance & ROI (DMTT)

- Separate cost centre; track revenue, ingredient cost, packaging, salaries, marketing, hours spent by each team; monthly P&L and ROI dashboard.

Team & roles

Executive sponsor

- Temple leadership
- Approves budget, brand use and major decisions

Vertical lead – marketing, sales & technology

- Mukunda Dasa
- Vision, network, marketing, e-commerce, DMTT reporting

Production lead

- Prabhu (production)
- Recipes, costing, samples, capacity, kitchen team

Production manager (reporting line)

- Production lead's manager
- Approves production commitments and resources

E-commerce & logistics advisor

- Subhadra Radha Devi Mataji
- Shopify/Amazon, fastest shipping

Corporate sales representative

- To be assigned by Mukunda Dasa
- Joins owner meetings; manages B2B pipeline

Order coordinator (new hire)

- To hire now
- Order confirmations, internal orders, production calendar

Design & packaging

- DMTT designer

- Catalogue, boxes, stickers, white-label mock-ups

Data & AI

- DMTT data scientists
- Demand analysis, targeting, ROI dashboard

Finance

- Accounts team
- Cost centre, GST, P&L, ROI

Quality & compliance

- To assign
- FSSAI, labelling, hygiene audits

Roadmap

Phase 0 – Foundation · 26 Sep – 10 Oct 2026 (2 weeks)

- Goal: Data, decisions and a ready-to-sell kit
- Share order confirmation details requested by production
- Analyse 6–12 months of prasadam purchases and order volumes
- Estimate weekly minimum and festival peak demand
- Budget per department (LLP, Culture Connect, online donors)
- Final product list, quantities and samples from production
- Costing and two-tier pricing (mass and premium)
- Hire one additional production/order person
- Gift catalogue, menu, price list, sample boxes, sticker templates
- Decision meeting: Mukunda Dasa + production lead + his manager
- Set up DMTT cost centre and ROI tracking sheet
- Check FSSAI licence scope and brand-use approval

Phase 1 – Pilot: Dasara & Diwali · 11 Oct – 30 Nov 2026

- Goal: Prove corporate gifting, stalls and internal supply

- Owner meetings with 20+ companies, MNR, chambers, BNI
- Serve the three companies that already asked
- White-label boxes for first clients
- Mahalaya / Pitru Paksha and Dasara stalls in multiple locations
- Diwali gift box production and dispatch
- Weekly standing internal orders live
- Leftover stock sold online / Instagram
- Post-pilot review: sales, margin, hours, lessons

Phase 2 – Launch channels · Dec 2026 – Mar 2027

- Goal: Year-round revenue and digital sales
- Shopify store + Amazon listing for shelf-stable range
- Shelf-life lab tests and full FSSAI labelling
- New Year, Sankranti (til chikki), Vaikuntha Ekadashi, Gita Jayanti campaigns
- Gated community weekend stalls (start 10, grow to 30)
- Catering pilot: house programmes and small events
- Satvik subscription box beta
- CRM and B2B sales executive

Phase 3 – Scale in Hyderabad · Apr – Sep 2027

- Goal: 10× festival sales and new product lines
- Permanent rain-proof pagodas; lawn food-court SOP
- Pickles, papads and powders line
- Janmashtami 2027 target: 10× 2026 counter sales
- Catering scale-up; partner kitchens for 50,000-meal orders
- Learning visits: ISKCON Mysore and Ahmedabad
- Year-1 review and Year-2 budget

Phase 4 – Dedicated unit & QSR pilot · Oct 2027 – Sep 2028 (Year 2)

- Goal: Own capacity, machinery and first outlets

- Dedicated production unit (converted building), machinery
- State/Central FSSAI licence as turnover grows
- Brand licence agreement with QSR partner; 1–3 pilot outlets
- Pan-India e-commerce push; corporate contracts across South India
- Team of ~25–40

Phase 5 – National & export · Year 3–5 (2028–2031)

- Goal: A national vertical with exports
- Scale QSRs towards the 100-outlet Hyderabad vision
- Export via Malaysia and Europe contacts; APEDA/IEC
- Replicate model with other temples
- ~100 employees

Hero campaign calendar

Mahalaya / Pitru Paksha · 26 Sep – 10 Oct 2026

- Stalls for devotees doing service; prasadam packs
- Demand: Medium

Navaratri & Dasara (Vijayadashami) · 11 – 20 Oct 2026

- Corporate & institution gifting, Dandiya tie-ups
- Demand: Very high

Deepavali · 8 Nov 2026

- Gift boxes, white-label, donors
- Demand: Very high

Kartika month / Damodara · Oct – Nov 2026

- Lamp-offering visitors; stalls
- Demand: High

Gita Jayanti · Dec 2026

- Gita + prasadam gift packs

- Demand: Medium

New Year · 1 Jan 2027

- Corporate new-year gifting
- Demand: High

Vaikuntha Ekadashi · Dec 2026 / Jan 2027

- Huge footfall; stalls
- Demand: Very high

Makara Sankranti · 14 Jan 2027

- Til chikki, sweets, gifting
- Demand: High

Gaura Purnima / Holi · Mar 2027

- Stalls, festival feast
- Demand: Medium

Ugadi & Sri Rama Navami · Mar – Apr 2027

- Ugadi packs, gifting
- Demand: Medium

Narasimha Chaturdashi · May 2027

- Stalls
- Demand: Medium

Ratha Yatra · Jun – Jul 2027

- Street stalls along the route
- Demand: High

Sri Krishna Janmashtami · Aug/Sep 2027

- 10× target on counters, online pre-orders
- Demand: Very high

- **Ganesh Chaturthi · Sep 2027**
  - Laddu/modak demand, gifting
  - Demand: High

Financials [estimate]

- **Internal supply (R1): Y1 ₹36 L**
  - ₹3 L/month average across departments
  - Gross margin 25%
- **Festival stalls (R2): Y1 ₹45 L**
  - Janmashtami 2027 ₹30 L (5× first year) + other festivals ₹15 L
  - Gross margin 50%
- **Restaurant & lawn uplift (R3): Y1 ₹18 L**
  - Incremental ₹1.5 L/month
  - Gross margin 35%
- **Corporate gifting – own brand (R4): Y1 ₹30 L**
  - Diwali/Dasara 5,000 boxes × ₹450 + New Year/Sankranti
  - Gross margin 40%
- **White-label gifting (R5): Y1 ₹12 L**

  - Ramp ₹0.5 L → ₹3 L/month
  - Gross margin 30%

- **Catering & bulk meals (R8): Y1 ₹20 L**
  - Events + 1 large order
  - Gross margin 25%
- **Gated communities (R9): Y1 ₹10 L**
  - 10→30 communities, ₹12k–₹15k per event
  - Gross margin 40%
- **Outbound B2B & life events (R10): Y1 ₹8 L**
  - Sales executive from Phase 2
  - Gross margin 35%
- **Pickles, papads, powders (R11): Y1 ₹4 L**
  - Launch Phase 3
  - Gross margin 40%
- **Donor & sponsor packs (R14): Y1 ₹8 L**
  - Bahumana, monsoon tins
  - Gross margin 35%
- **QSR royalty (R12): Y1 ₹0 L**
  - Year 2 pilots; Year 3 royalty modelled separately
  - Gross margin 100%
- **Year-1 opex**
  - Additional staff salaries: ₹24 L (1 order coordinator now + seasonal cooks + sales exec (Phase 2))
  - Marketing (ads, content, samples): ₹12 L (≈5% of revenue)
  - Packaging design & moulds: ₹3 L (One-time catalogue, dies, stickers)
  - Pagodas & stall kits: ₹6 L (Rain-proof pagodas, tables, signage, POS)
  - Technology (Shopify, apps, POS, CRM): ₹3 L (Subscriptions and integrations)
  - Utilities & kitchen overheads (allocated): ₹8 L (Power, gas, water, maintenance)

- Compliance, testing, licences: ₹2 L (Shelf-life tests, FSSAI, audits)
- Logistics not charged to customers: ₹5 L (Free-shipping offers, B2B deliveries)
- Contingency: ₹4 L (≈5%)

Capex (staged)

- Small machines (chikki cutter, laddu maker, sealing, packing): ₹8–15 L (Phase 2–3)
- Permanent pagodas (8–12 units): ₹6–12 L (Phase 3)
- Storage racks, dehumidifier, weighing & labelling: ₹3–5 L (Phase 2)
- Dedicated production unit fit-out: ₹50 L–1.5 Cr (Phase 4 (only after demand is proven))
- Delivery vehicle: ₹8–12 L (Phase 3–4)

Risks

R-01 Kitchen cannot meet Diwali peak volume (score 20)

- Mitigation: Forecast from order data; seasonal staff; cap orders by capacity; 50% advance; partner kitchens on standby
- Owner: Production lead

R-02 Premium-only pricing fails to cover fixed costs (score 12)

- Mitigation: Two-tier model; mass tier for volume; monthly margin review
- Owner: Mukunda Dasa

R-03 Food-safety incident harms temple reputation (score 10)

- Mitigation: FSSAI compliance, hygiene SOPs, batch codes, shelf-life tests, staff medical checks, recall plan
- Owner: Quality

R-04 Use of the ISKCON name on commercial packaging questioned (score 12)

- Mitigation: Written approval from temple leadership / group legal; consistent brand guidelines; consider a sub-brand
- Owner: Sponsor

- **R-05 Perception that prasadam is being commercialised (score 9)**
  - Mitigation: Passive selling, devotional messaging, transparent use of proceeds, prasadam offered first
  - Owner: Mukunda Dasa
- **R-06 Ingredient price spikes (ghee, jaggery, nuts) (score 12)**
  - Mitigation: Forward-buy before season, two suppliers, sugar/jaggery flexibility, price validity clauses
  - Owner: Production lead
- **R-07 Festival sales below plan; leftover stock (score 9)**
  - Mitigation: Shelf-stable SKUs, pre-orders, online/Instagram clearance
  - Owner: DMTT
- **R-08 Late B2B deliveries during peak (score 12)**
  - Mitigation: Production calendar, cut-off dates, dispatch buffer, own vehicle
  - Owner: Order coordinator
- **R-09 Staff overload across departments (score 12)**
  - Mitigation: Dedicated hires; clear RACI; hours tracked in DMTT
  - Owner: Prod. manager
- **R-10 Online shipping damage/spoilage (score 9)**
  - Mitigation: Moisture-proof packs, tested courier partners, only shelf-stable items online
  - Owner: E-commerce advisor
- **R-11 Rain disrupts festival stalls (score 9)**
  - Mitigation: Rain-proof pagodas; indoor fallback locations
  - Owner: Facilities
- **R-12 Cash/stock leakage at stalls (score 6)**
  - Mitigation: UPI-first, POS, stock reconciliation per shift
  - Owner: Finance

- **R-13 QSR partner quality not aligned with temple standards (score 15)**
  - Mitigation: Strict brand licence, audits, satvik SOPs, exit clauses
  - Owner: Sponsor
- **R-14 Regulatory changes (FSSAI, GST) (score 4)**
  - Mitigation: Quarterly compliance review
  - Owner: Finance

  - Owner: Production team (order coordinator)
  - Due: 29 Sep 2026
- **A2 Hire an additional person for prasadam production work**
  - Owner: Production lead
  - Due: 10 Oct 2026
- **A3 Propose available budget and requested items to production for samples and planning**
  - Owner: Mukunda Dasa's team
  - Due: 30 Sep 2026
- **A4 Analyse 6–12 months of prasadam purchases and order volumes; share regular and festival estimates**
  - Owner: DMTT data
  - Due: 3 Oct 2026
- **A5 Prepare and send the detailed plan for the prasadam and sweets vertical**
  - Owner: Mukunda Dasa
  - Due: 30 Sep 2026 (this document)
- **A6 Identify additional prasadam products with longer shelf life**
  - Owner: Production lead
  - Due: 4 Oct 2026
- **A7 Prepare packaging and product presentation for bulk corporate gifting**

- Owner: DMTT designer + Production lead
- Due: 10 Oct 2026

A8 Send a representative to support meetings with large company owners

- Owner: Mukunda Dasa
- Due: 3 Oct 2026

A9 Hold the finalisation meeting on products and quantities

- Owner: Mukunda Dasa
- Due: 5 Oct 2026

A10 Route all prasadam orders only to the internal production lead

- Owner: All departments
- Due: Immediate

A11 Get pagoda costing done

- Owner: Facilities
- Due: 31 Oct 2026

A12 Respond to the Chinmaya Mission 50,000-meal request

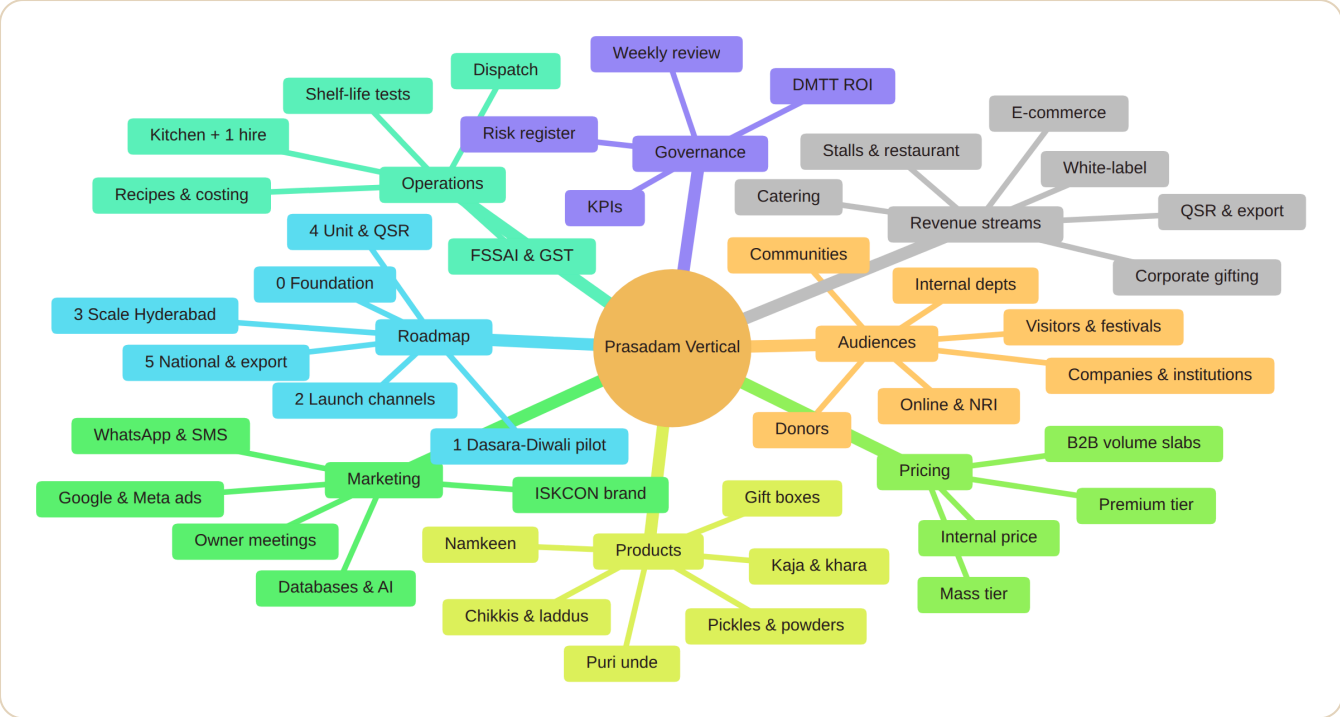

- Owner: Mukunda Dasa
- Due: Immediate

Open questions

- Final product list, quantities and weekly minimum per department?
- Budget allocated for prasadam per department (LLP, Culture Connect, online donors)?
- Pricing model split between premium and competitive tiers?
- Real production capacity per day now, with one more hire, and at peak with seasonal staff?
- Which infrastructure and staffing investments are justified before demand is validated?
- Brand name on packs: 'ISKCON Hyderabad', 'Hare Krishna Golden Temple', or a sub-brand?

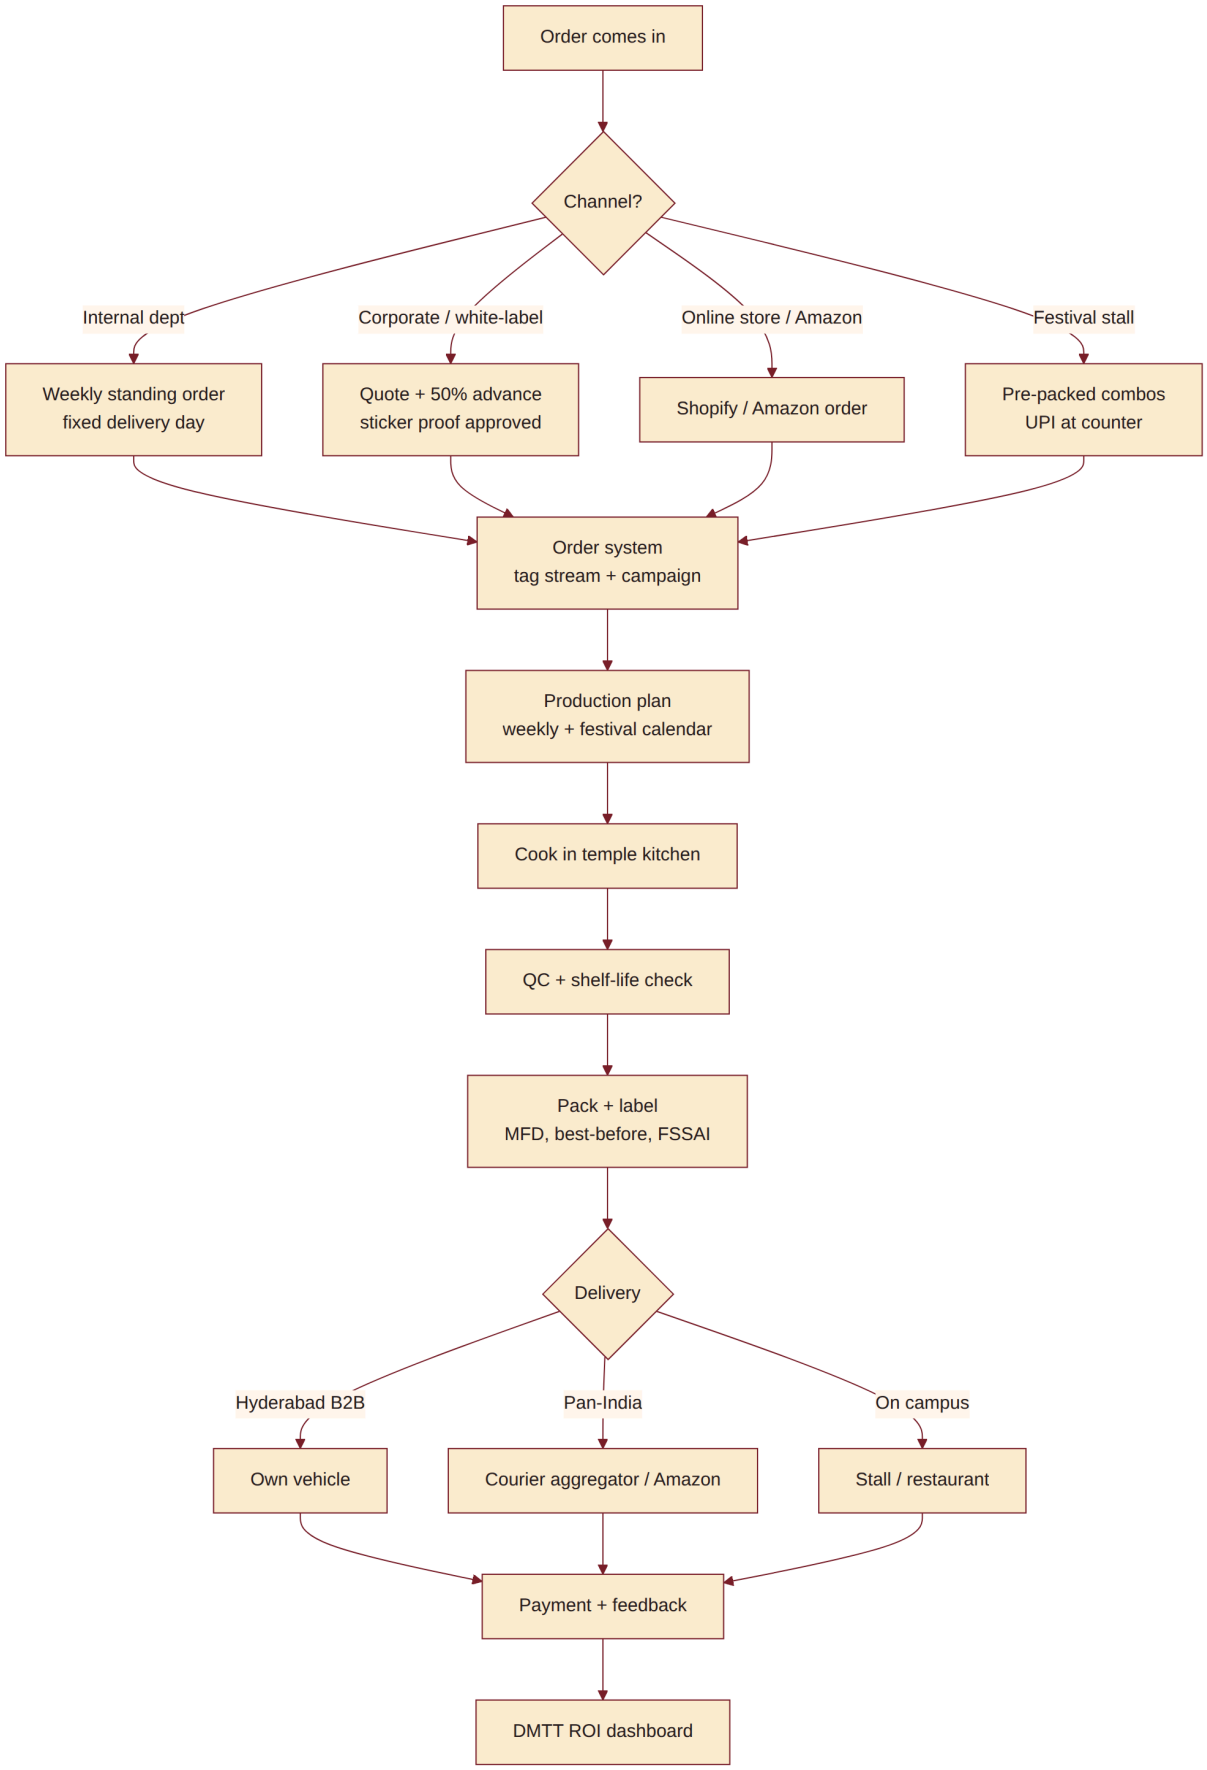

- Which FSSAI licence covers commercial sale and e-commerce, and does it cover off-site stalls?
- Transfer-pricing and profit-sharing between production and marketing teams?
- Who owns catering for very large orders (50,000 meals) until a catering unit exists?

1. Project charter

Field	Detail
Project name	Prasadam, Sweets & Savories Vertical launch
Organisation	Hare Krishna Golden Temple (ISKCON), Banjara Hills, Hyderabad
Sponsor	Temple leadership
Project lead	Mukunda Dasa (marketing, sales, technology)
Production lead	Prabhu (temple production)
Start / pilot end / Year-1 end	26 Sep 2026 / 30 Nov 2026 / 30 Sep 2027
Purpose	Offer pure, satvik, preservative-free prasadam, prepared with devotion and offered to Sri Sri Radha Krishna, to every audience we already touch: visitors, donors, devotees, companies, institutions, communities and online buyers. Production is done by the temple kitchen; marketing, technology and sales are done by the DMTT; every rupee and hour is tracked for ROI.
Business case	Proven festival demand, strong brand, warm B2B network and existing systems; two-tier pricing makes the kitchen viable; Year-1 revenue about ₹2.2 crore [ESTIMATE].
Key constraints	Kitchen capacity (4 staff), no historic cost data compiled, festival deadlines fixed, brand-use approval needed.
Assumptions	Departments move all prasadam orders in-house; B2B orders take 50% advance; seasonal staff available at short notice.

2. Objectives and success criteria

#	Objective	Success criterion
O1	Launch the vertical with a ready sales kit	Catalogue, prices, samples and packaging ready by 10 Oct 2026
O2	Win Dasara/Diwali corporate orders	≥ 5,000 gift boxes and ≥ 10 corporate/institution clients by 8 Nov 2026 [ESTIMATE]
O3	Stabilise internal supply	100% of internal prasadam orders placed with in-house production by Nov 2026
O4	Go online	Shopify + Amazon live with ≥ 12 SKUs by 31 Jan 2027
O5	10× festival counters	Janmashtami 2027 counter sales ≥ ₹60 lakh (10× 2026) as stretch; ₹30 lakh base
O6	Prove ROI	Monthly DMTT ROI report from Nov 2026; vertical cash-positive by month 6
O7	Year-1 revenue	₹2.2 crore gross revenue Oct 2026–Sep 2027 [ESTIMATE]

3. Scope

In scope

- Sweets, savories, gift boxes, pickles/papads/powders
- Internal supply, festival stalls, restaurant/lawn, corporate & white-label gifting
- E-commerce, gated communities, outbound B2B, catering (pilot scale), donor packs
- Packaging, pricing, marketing, technology, ROI tracking
- Planning for QSR partnership and exports (execution later phases)

Out of scope (Year 1)

- Building a new dedicated production facility in Year 1

- Opening QSR outlets in Year 1
- Education company, games, audio/video, advertising projects (separate initiatives)
- Dairy/ghee production (evaluate separately)

Deliverables

- Approved business plan and charter
- Demand forecast from 6–12 months of order data
- Product list, recipes, costing, price list
- Sales kit: catalogue, menu, sample boxes, white-label templates
- Festival stall SOP and layout
- Internal weekly order system
- Shopify store and Amazon listing
- ROI dashboard (monthly)
- Pilot review report
- Year-1 review and Year-2 budget

4. Stakeholders

Stakeholder	Interest	Influence	Engagement
Temple leadership	Revenue, reputation, sanctity of prasadam	High	Quarterly steering, monthly ROI
Production lead & kitchen team	Workable volumes, fair staffing	High	Weekly plan, daily in festival weeks
Production manager	Resource commitments	High	Decision meeting, monthly review
DMTT	Marketing, tech, data, ROI	High	Weekly
Internal departments	Reliable supply, price	Medium	Order cut-offs, monthly budget
Corporate clients & institutions	Quality, on-time, branding	Medium	Account management
Donors & devotees	Purity, devotion, value	Medium	Campaigns
QSR partner	Brand licence, scale	Medium	Year-2 negotiations
Regulators (FSSAI, GST)	Compliance	High	Licences, audits

5. Organisation and RACI

Role	Person	Responsibility
Executive sponsor	Temple leadership	Approves budget, brand use and major decisions
Vertical lead – marketing, sales & technology	Mukunda Dasa	Vision, network, marketing, e-commerce, DMTT reporting
Production lead	Prabhu (production)	Recipes, costing, samples, capacity, kitchen team
Production manager (reporting line)	Production lead's manager	Approves production commitments and resources
E-commerce & logistics advisor	Subhadra Radha Devi Mataji	Shopify/Amazon, fastest shipping
Corporate sales representative	To be assigned by Mukunda Dasa	Joins owner meetings; manages B2B pipeline
Order coordinator (new hire)	To hire now	Order confirmations, internal orders, production calendar
Design & packaging	DMTT designer	Catalogue, boxes, stickers, white-label mock-

		ups
Data & AI	DMTT data scientists	Demand analysis, targeting, ROI dashboard
Finance	Accounts team	Cost centre, GST, P&L, ROI
Quality & compliance	To assign	FSSAI, labelling, hygiene audits

RACI matrix

R = Responsible, A = Accountable, C = Consulted, I = Informed.

6.5	Gated community stalls (10 → 30)	Sales rep	10 Jan 27	31 Mar 27	
6.6	Catering pilot	Production lead	15 Jan 27	31 Mar 27	
6.7	CRM + B2B sales executive	Mukunda Dasa	01 Jan 27	15 Feb 27	
6.8	Subscription box beta	DMTT	01 Feb 27	31 Mar 27	6.2
7	Scale in Hyderabad		01 Apr 27	30 Sep 27	
7.1	Pagoda costing, procurement & installation	Facilities	01 Apr 27	30 Jun 27	
7.2	Pickles, papads, powders launch	Production lead	15 Apr 27	30 Jun 27	6.1
7.3	Learning visits: Mysore & Ahmedabad	Production lead	15 Apr 27	15 May 27	
7.4	Janmashtami 2027 10× plan & execution	Mukunda Dasa + Production lead	01 Jun 27	05 Sep 27	7.1
7.5	Year-1 review & Year-2 budget	Mukunda Dasa	10 Sep 27	30 Sep 27	7.4
8	Year 2+: unit, QSR, exports		01 Oct 27	30 Sep 28	
8.1	Dedicated production unit business case & build	Temple leadership	01 Oct 27	31 Mar 28	7.5
8.2	QSR brand licence & 1–3 pilots	Mukunda Dasa	01 Oct 27	30 Jun 28	7.5
8.3	Export readiness (IEC, APEDA, partners)	Mukunda Dasa	01 Jan 28	30 Sep 28	8.1

7. Milestones

Milestone	Target date	Gate criteria
M1 Plan circulated	30 Sep 2026	Plan shared with production lead and manager
M2 Decision meeting / charter signed	5 Oct 2026	Products, quantities, budget, pricing agreed
M3 Sales kit ready	12 Oct 2026	Catalogue, prices, 10 sample boxes
M4 Dasara delivered	20 Oct 2026	Stalls live, first corporate orders delivered
M5 Diwali delivered	6 Nov 2026	All Diwali orders dispatched on time
M6 Pilot review	30 Nov 2026	P&L, ROI, lessons; go/no-go for Phase 2
M7 Online store live	15 Jan 2027	Shopify live with ≥12 SKUs
M8 Pagodas installed	30 Jun 2027	Permanent stalls in place
M9 Janmashtami 2027	Sep 2027	Counter sales ≥ ₹30 L (base) / ₹60 L (stretch)
M10 Year-1 review	30 Sep 2027	Annual report and Year-2 budget approved

8. Budget [ESTIMATE]

Item	₹ lakh (Y1)	Note

Additional staff salaries	24	1 order coordinator now + seasonal cooks + sales exec (Phase 2)
Marketing (ads, content, samples)	12	≈5% of revenue
Packaging design & moulds	3	One-time catalogue, dies, stickers
Pagodas & stall kits	6	Rain-proof pagodas, tables, signage, POS
Technology (Shopify, apps, POS, CRM)	3	Subscriptions and integrations
Utilities & kitchen overheads (allocated)	8	Power, gas, water, maintenance
Compliance, testing, licences	2	Shelf-life tests, FSSAI, audits
Logistics not charged to customers	5	Free-shipping offers, B2B deliveries
Contingency	4	≈5%
Total opex	67	

Capex item	Estimate	When
Small machines (chikki cutter, laddu maker, sealing, packing)	₹8–15 L	Phase 2–3
Permanent pagodas (8–12 units)	₹6–12 L	Phase 3
Storage racks, dehumidifier, weighing & labelling	₹3–5 L	Phase 2
Dedicated production unit fit-out	₹50 L–1.5 Cr	Phase 4 (only after demand is proven)
Delivery vehicle	₹8–12 L	Phase 3–4

9. Risk register

Likelihood (L) and impact (I) on a 1–5 scale; score = L × I. Scores of 15+ are reviewed weekly.

ID	Risk	L	I	Score	Mitigation	Owner
R-01	Kitchen cannot meet Diwali peak volume	4	5	20	Forecast from order data; seasonal staff; cap orders by capacity; 50% advance; partner kitchens on standby	Production lead
R-02	Premium-only pricing fails to cover fixed costs	3	4	12	Two-tier model; mass tier for volume; monthly margin review	Mukunda Dasa
R-03	Food-safety incident harms temple reputation	2	5	10	FSSAI compliance, hygiene SOPs, batch codes, shelf-life tests, staff medical checks, recall plan	Quality
R-04	Use of the ISKCON name on commercial packaging questioned	3	4	12	Written approval from temple leadership / group legal; consistent brand guidelines; consider a sub-brand	Sponsor
R-05	Perception that prasadam is being commercialised	3	3	9	Passive selling, devotional messaging, transparent use of proceeds, prasadam offered first	Mukunda Dasa
R-06	Ingredient price spikes (ghee, jaggery, nuts)	4	3	12	Forward-buy before season, two suppliers, sugar/jaggery flexibility, price validity clauses	Production lead
R-07	Festival sales below plan; leftover stock	3	3	9	Shelf-stable SKUs, pre-orders, online/Instagram clearance	DMTT
R-08	Late B2B deliveries during peak	3	4	12	Production calendar, cut-off dates, dispatch buffer, own vehicle	Order coordinator
R-09	Staff overload across departments	4	3	12	Dedicated hires; clear RACI; hours tracked in DMTT	Prod. manager
R-10	Online shipping damage/spoilage	3	3	9	Moisture-proof packs, tested courier partners, only shelf-stable items online	E-commerce advisor
R-11	Rain disrupts festival stalls	3	3	9	Rain-proof pagodas; indoor fallback locations	Facilities
R-12	Cash/stock leakage at stalls	2	3	6	UPI-first, POS, stock reconciliation per shift	Finance
R-13	QSR partner quality not aligned with temple standards	3	5	15	Strict brand licence, audits, satvik SOPs, exit clauses	Sponsor

R-14	Regulatory changes (FSSAI, GST)	2	2	4	Quarterly compliance review	Finance

10. Quality management

- Standard recipes and yield sheets for every SKU; taste panel sign-off before launch.
- Shelf-life lab test per SKU and pack type before selling online.
- Batch codes, MFD and best-before on every pack; FIFO in stores.
- Hygiene SOP: head covers, gloves, hand-wash, pest control, cleaning log; staff medical checks.
- Supplier checks for ghee, oil, jaggery, nuts; retain samples of each batch for 30 days.
- Customer complaint log with 48-hour response and root-cause review.
- Monthly internal audit; external FSSAI audit readiness.

11. Communication plan

Audience	What	How
Temple leadership	Monthly ROI report, quarterly steering deck	Email + meeting
Production team	Weekly production plan, festival forecasts	System + WhatsApp group
Internal departments	Order cut-offs, price list, delivery day	System notice
Corporate clients	Catalogue, quotes, order status	Email, WhatsApp
Donors & public	Festival campaigns, launches	WhatsApp, SMS, social, website

12. Governance and reporting

Cadence	Forum	Chair
Daily (festival weeks)	Stand-up: production + stalls + dispatch	Production lead
Weekly	Order & pipeline review (orders, production plan, sales pipeline, issues)	Mukunda Dasa
Monthly	P&L and ROI review with DMTT & finance; KPI dashboard	Mukunda Dasa + Finance
After each hero campaign	Post-campaign review and lessons learned	Vertical lead
Quarterly	Steering review with temple leadership; budget and capex decisions	Sponsor

KPI dashboard

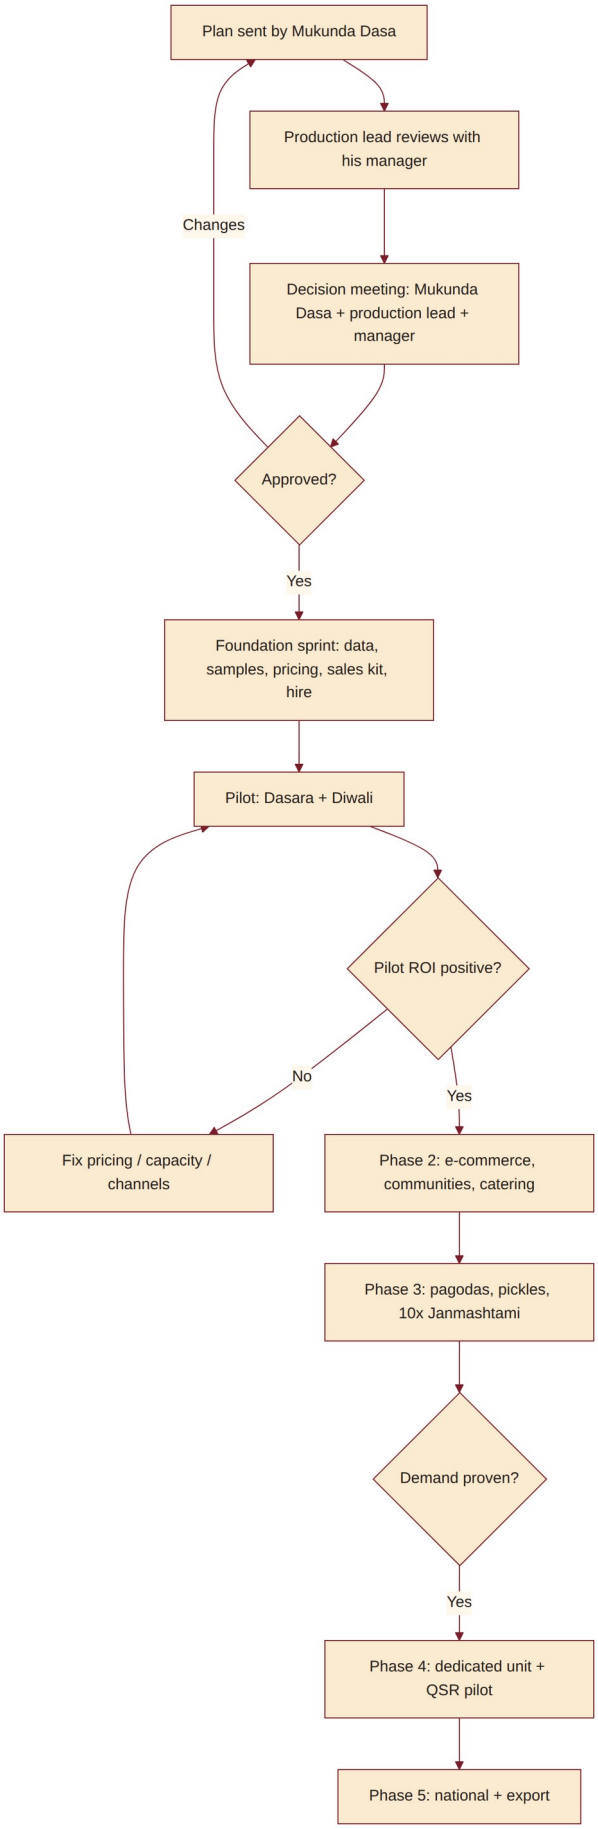

KPI	Definition	Unit	Frequency
Revenue	Monthly gross revenue by stream	₹ lakh	Monthly
Gross margin	Revenue minus ingredients, packaging, direct labour	%	Monthly
ROI	(Contribution − DMTT & marketing cost) ÷ total invested cost	%	Monthly
Hours invested	Hours spent by DMTT, production, sales on the vertical	hours	Weekly
Festival sales	Sales per festival and per stall-hour	₹	Per event
Corporate pipeline	Leads, meetings, proposals, POs, boxes	count	Weekly
Online	Orders, conversion rate, CAC, ROAS, repeat rate	various	Weekly
Operations	On-time delivery %, order fill rate, spoilage %	%	Weekly

Quality	Complaints per 1,000 orders; audit score	count / score	Monthly
Customer	Rating, NPS, repeat B2B clients	score	Quarterly

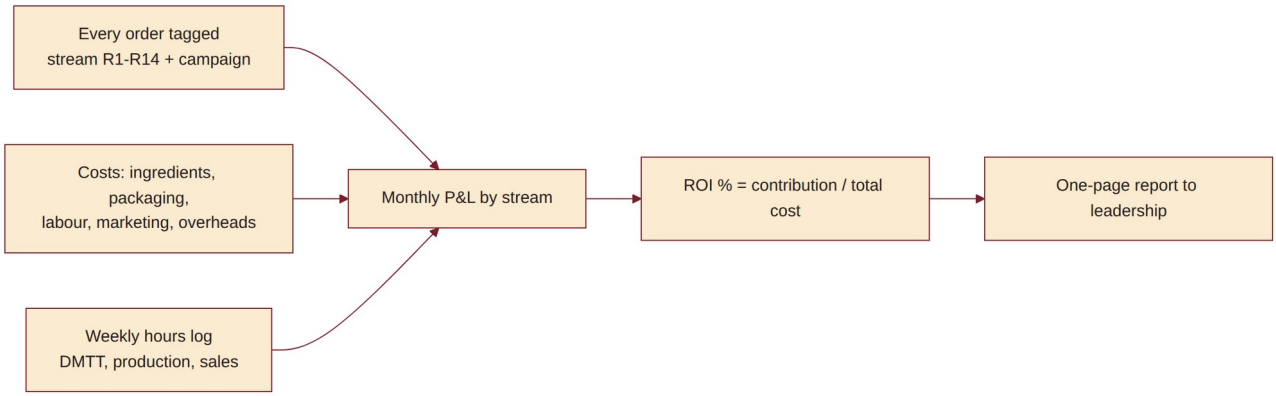

DMTT ROI tracking

- Separate cost centre for the vertical in accounts.
- Every order tagged by stream (R1–R14), channel and campaign.
- Weekly time log by each team member working on the vertical.
- Marketing spend tagged by campaign; ROAS per campaign.
- Monthly P&L by stream and a one-page ROI summary for leadership.

Decision and phase-gate flow

DMTT ROI tracking flow

13. Change control

1. Any change to scope, budget above ₹1 lakh, pricing tiers or brand use is raised as a change request.
2. Project lead assesses impact on cost, time, capacity and risk within 3 working days.
3. Changes up to ₹5 lakh approved by project lead and production manager; above that by the sponsor.
4. Approved changes are logged in the tracker and communicated to all affected teams.

14. Issue and decision log

Date	Decision / issue	By	Status
26 Sep 2026	Two price segments (mass + premium) will run together	Meeting	Agreed
26 Sep 2026	All prasadam orders go only to the internal production lead	Mukunda Dasa	Agreed
26 Sep 2026	Shelf life of 15–20 days is the first product criterion	Meeting	Agreed
26 Sep 2026	Sugar acceptable where jaggery is too costly	Meeting	Agreed
26 Sep 2026	Weekly minimum order with fixed delivery day	Meeting	Agreed
26 Sep 2026	Start with internal demand before external expansion	Meeting	Agreed
—	Brand name to use on packs	Sponsor	Open
—	Budgets per department	Mukunda Dasa	Open

15. Action items

#	Action	Owner	Due
A1	Provide the order confirmation information requested for prasadam orders	Production team (order coordinator)	29 Sep 2026
A2	Hire an additional person for prasadam production work	Production lead	10 Oct 2026
A3	Propose available budget and requested items to production for samples and planning	Mukunda Dasa's team	30 Sep 2026
A4	Analyse 6–12 months of prasadam purchases and order volumes; share regular and festival estimates	DMTT data	3 Oct 2026
A5	Prepare and send the detailed plan for the prasadam and sweets vertical	Mukunda Dasa	30 Sep 2026 (this document)
A6	Identify additional prasadam products with longer	Production lead	4 Oct 2026

	shelf life		
A7	Prepare packaging and product presentation for bulk corporate gifting	DMTT designer + Production lead	10 Oct 2026
A8	Send a representative to support meetings with large company owners	Mukunda Dasa	3 Oct 2026
A9	Hold the finalisation meeting on products and quantities	Mukunda Dasa	5 Oct 2026
A10	Route all prasadam orders only to the internal production lead	All departments	Immediate
A11	Get pagoda costing done	Facilities	31 Oct 2026
A12	Respond to the Chinmaya Mission 50,000-meal request	Mukunda Dasa	Immediate

Open questions

- Final product list, quantities and weekly minimum per department?
- Budget allocated for prasadam per department (LLP, Culture Connect, online donors)?
- Pricing model split between premium and competitive tiers?
- Real production capacity per day now, with one more hire, and at peak with seasonal staff?
- Which infrastructure and staffing investments are justified before demand is validated?
- Brand name on packs: 'ISKCON Hyderabad', 'Hare Krishna Golden Temple', or a sub-brand?
- Which FSSAI licence covers commercial sale and e-commerce, and does it cover off-site stalls?
- Transfer-pricing and profit-sharing between production and marketing teams?
- Who owns catering for very large orders (50,000 meals) until a catering unit exists?

Prasadam, Sweets & Savories Vertical – Project Tracker

Hare Krishna Golden Temple (ISKCON), Banjara Hills, Hyderabad
v1.2, 21 October 2026

How to use

• WBS & Gantt: update Status and % done every week; the Gantt bars are drawn by formulas from Start/End.
• Risk register: Score = Likelihood × Impact (formula). 15+ is red, 8–14 amber.
• Financial model: yellow cells are inputs (blue text). Replace [ESTIMATE] numbers with the 6–12 month order data.
• KPI tracker and ROI log: fill monthly/weekly; ROI is calculated automatically.
• Action items: the 12 actions from the 26 Sep 2026 meeting.

Generated from src/content.py – edit there and run src/build_all.py to rebuild all documents.

ID	Stream	What	Why	How	Phase	Capex	Margin	KPIs
R1	Internal supply to departments	Weekly standing orders to Culture Connect, LLP, online donors dispatch, corporate relations and campaigns, with one fixed delivery day and festival top-ups.	Guaranteed base load for the kitchen from day one; replaces outside vendors.	Order-trend analysis (6–12 months) → minimum weekly quantity per department → internal price list → order form in the system.	Phase 0–1	Low	Low–Medium	Weekly order fulfilment %, on-time %, internal cost saved vs outside vendors
R2	Festival stalls and counters	Rows of stalls at high-footfall points on festival days; permanent rain-proof pagodas; restaurant takes the entire lawn.	Proven: Janmashtami 2026 sold out at ≈₹6 lakh with limited counters. Target 10×.	Footfall map → stall layout (entrance, exit queue, Goshala path, staircases, garden, waterfall, Samskara) → UPI + POS → stock plan from calendar → leftovers go online.	Phase 1 onward	Medium (pagodas)	High	Sales per festival, sales per stall per hour, stock-out time, leftover %
R3	Temple restaurant and lawn food court	Restaurant as the daily anchor; on festival days full-length counters, chairs and round tables across the lawn.	Captures every visitor; 365-day revenue.	Menu engineering, QR ordering, festival lawn SOP, rental furniture contracts.	Phase 1–3	Medium	Medium	Daily covers, average bill, festival-day revenue
R4	Corporate gifting (own brand)	Dasara, Diwali, New Year, Sankranti and other gift boxes in three tiers, with dry fruits and sweets; samples, menu, price list.	About 58% of Diwali gifting is corporate; our network reaches owners directly; three companies have already asked.	Gift catalogue + samples → owner meetings (Mukunda Dasa with production rep) → PO with 50% advance → production calendar → dispatch.	Phase 1 onward	Low (packaging)	High	Boxes sold, average order value, repeat clients, advance collected
R5	White-label / co-branded gifting	Same boxes with the client's logo and message (sticker or printed sleeve), so their brand travels with our prasadam.	Companies are already paying some vendor; the owner prefers a trusted source.	Brand-sticker template, MOQ per design, proof approval, 10–15 day lead time.	Phase 1 onward	Low	High	White-label orders, lead time, design approval cycle
R6	Daily snacking (365-day retail)	Sweets and savories unconnected to festivals: chikkis, kaja, khara, namkeen, puri unde, laddus, 250 g weekly specials.	Evergreen demand; rotation keeps the kitchen busy.	Top-10 SKU list, standard pack sizes, shelf-life testing, temple shop + restaurant + online.	Phase 1–2	Low	Medium	Units per SKU per week, sell-through, returns/spoilage
R7	E-commerce (own store + marketplaces)	Shopify store and Amazon listing for shelf-stable items, pan-India shipping, subscriptions, donor bundles.	Scale through technology; reuse donor dispatch and Amazon experience (≈15,000 parcels).	Catalogue & photography → Shopify + payment + courier aggregator → Amazon → ads funnel → WhatsApp retargeting.	Phase 2	Low	Medium	Orders/month, CAC, ROAS, repeat rate, delivery TAT
R8	Catering and bulk meals	Satvik catering for house programmes, life events, corporate and institutional events; bulk meal packets (e.g. 50,000 meals).	Strong demand; many requests already; high visibility for the brand.	Start with drop-off catering from existing kitchen; partner kitchens for very large orders; later dedicated catering unit.	Phase 2–4	High (at scale)	Medium	Events/month, plates served, per-plate margin, feedback score
R9	Gated community flea markets	Weekend stalls in ~100 gated communities, pre-orders for festivals, community WhatsApp groups.	Access already exists; organisers have given free stalls.	Mobile stall kit, 2-person team, route calendar, lead capture for donor/preaching programmes.	Phase 2	Low	Medium	Events/month, sales/event, leads captured
R10	Outbound B2B and life-event sales	Sell to companies, event managers and families for openings, naming ceremonies, birthdays, weddings, vehicle pujas.	The open 'public circle' beyond our own contacts.	Sales executive, CRM pipeline, Google Ads for 'satvik catering Hyderabad', referral fees for event planners.	Phase 2–3	Low	Medium	Leads, conversion %, revenue per salesperson
R11	Pickles, papads and powders	Masala powders, sambar powder, pickles, papads: very long shelf life, ideal for online and export.	Adjacent vertical with low spoilage; strong Andhra/Telangana demand.	Recipe standardisation, lab testing, FSSAI labelling, co-packer if needed.	Phase 3	Low–Medium	Medium–High	SKUs live, online share, export enquiries
R12	QSR and fine-dine restaurants	Satvik quick-service outlets under the brand via the interested franchise partner; vision of 100 QSRs in Hyderabad; later fine dine.	Partner offers network, funds and execution; pure-veg QSR is under-served.	Brand licence agreement, central kitchen, 1–3 pilot outlets, SOPs, then scale.	Phase 4–5	Partner-funded	Royalty 4–8% [ESTIMATE]	Outlets live, royalty income, food-safety audit scores
R13	Exports and diaspora	Long-shelf-life range for diaspora markets and temples abroad.	Family business in Malaysia; European contacts; ISKCON global network.	Central FSSAI licence + IEC + APEDA; export partner; destination-country labelling.	Phase 5	Medium	Medium–High	Countries served, export revenue
R14	Donor and sponsor packs	Bahumana gift boxes for big donors, sponsor prasadam for festivals, 5 kg namkeen tins in monsoon.	Deepens donor relationships; big donors already ask.	Donor-care team offers packs with campaigns; sponsorship tiers include prasadam.	Phase 1 onward	Low	Medium	Packs sent, donor retention uplift

Audience	Circle	Who	Needs	Offer	Channel	Price
Temple visitors and festival crowds	Circle 1: those who come to us	Daily visitors, weekend families, festival crowds (Janmashtami, Mahalaya, Ratha Yatra, Gaura Purnima, etc.)	Quick purchase, prasadam to take home, meals on the lawn	Restaurant, lawn food court, multiple festival stalls, take-home packs, 250 g see-through boxes	Stalls at entrance/exit/Goshala path, restaurant, QR menus, UPI	Mass tier ₹30–₹250
Donors and life members	Circle 1: those who come to us	Online donors across India, big donors, sponsors, Virpaksha daily donors	Blessed prasadam at home; gifts for family and staff	Donor prasadam packs, bahumana boxes, 5 kg namkeen tins, festival hampers	Existing donor dispatch system, WhatsApp, donor-care calls	Mid to premium
Internal departments	Circle 1: those who come to us	Culture Connect, LLP, online donor team, corporate relations, campaigns	Reliable weekly supply at an agreed rate	Weekly standing order, one fixed delivery day, festival top-ups	Internal order form in the system; monthly budget per department	Internal transfer price (cost + agreed margin)
Corporate companies	Circle 2: those we go to (B2B)	Owners/HR/admin of firms with 500–10,000+ staff (steel, IT, pharma, real estate, T-Hub startups)	Festival gifts for staff and clients, on time, branded, within budget	Own-brand gift boxes (3 tiers) and white-label boxes with company branding; samples, menu, price list	Owner-level meetings (Mukunda Dasa + production rep), chamber and BNI referrals, LinkedIn, email	₹250–₹2,500 per box; volume slabs
Educational institutions	Circle 2: those we go to (B2B)	MNR group (42 institutions) and other school/college chains	Gifts for staff and students; event snacks	Low-ticket student packs, staff boxes, event catering	Chairman relationships; academic-calendar planning	Mass tier with bulk slabs
Associations and professional networks	Circle 2: those we go to (B2B)	Telangana Chamber of Commerce, BNI, Rotary, Round Table, Alpha Circle, ICSI/ICAI Hyderabad chapters	Member gifts, event hampers, meeting snacks	Co-branded hampers, member discount codes, event snack boxes	Presidents/secretaries, chapter meetings, newsletters	Mid tier
Event management companies	Circle 2: those we go to (B2B)	Firms running Dandiya, weddings, corporate events (e.g. Naukaran Entertainment)	Return gifts, event food counters	Return-gift boxes, live counters, catering	Partner commission / referral fee	Mid tier
Gated communities	Circle 3: open public (B2C outside)	~100 gated communities with weekend flea markets	Tasty, pure snacks; festival supplies	Weekend stall with top sellers, pre-order for festivals, community WhatsApp group	Flea-market organisers (free stalls offered before), RWA committees	Mass tier
Life-event families (open circle)	Circle 3: open public (B2C outside)	Families holding house-warming, naming ceremony, birthdays, weddings, car/vehicle puja, shop openings, shraddha	Prasadam packs, return gifts, satvik catering	Occasion packs, catering menus, bulk sweets	Google Ads, Instagram, referrals, temple ceremony desk	Mid tier
Online shoppers across India	Circle 4: digital	Social-media followers, NRIs sending gifts home, health-conscious buyers	Trusted, pure, shelf-stable sweets delivered fast	Shopify store + Amazon; subscriptions; diabetic-friendly namkeen; jaggery range	Meta Ads, Google Ads, WhatsApp, RCS, SMS, SEO, influencers	Mid tier + shipping
Health-conscious and diabetic buyers	Circle 4: digital	Buyers avoiding refined sugar, chemicals and colours	Jaggery-based, low-sugar, millet, poha puffed rice	'Satvik Wellness' sub-range; namkeen for diabetics	Content marketing, doctors/yoga communities	Premium
Institutional bulk / large gatherings	Circle 5: scale	Spiritual/cultural organisations (e.g. Chinmaya Mission 50,000 meals), government and corporate events	Very large volumes, on time, hygienic	Bulk meal packets, prasadam packs, catering	Direct leadership contact; tender responses	Per-plate contract
QSR and restaurant diners	Circle 5: scale	Urban young families and office-goers wanting pure veg fast food	Fast, affordable, pure veg	Satvik QSR outlets (franchise with partner), later fine dine	Franchise partner, food-delivery apps	₹99–₹399 meals
Export and diaspora	Circle 5: scale	Indian diaspora (Malaysia, Europe, USA, Middle East), ISKCON temples abroad, Indian grocery stores	Authentic long-shelf-life sweets, pickles, powders	Export-grade packaged range	Family business in Malaysia, European contacts, APEDA, Amazon Global	Export pricing

Product	Category	Shelf life (days)	Tier	Sweetener	Pack sizes	Notes
Groundnut chikki	Sweet – brittle	60–90	Mass	Jaggery	100 g, 200 g, 500 g	Top shelf-life item; ideal for online and gifting
Til chikki (black & white)	Sweet – brittle	60–90	Mass/Premium	Jaggery	100 g, 200 g	Sankranti hero product
Dry-fruit chikki	Sweet – brittle	45–60	Premium	Jaggery/Sugar	200 g, gift tin	Corporate gifting
Puri unde (puffed-rice balls)	Sweet – laddu	20–30	Mass	Jaggery, coconut, elaichi	6-pc, 12-pc	Karnataka favourite; light, healthy
Poha puffed-rice unde	Sweet – laddu	20–30	Wellness	Jaggery	6-pc	For health-conscious buyers
Kaja / square kaja	Sweet – fried	15–20	Mass	Sugar syrup	250 g, 500 g	Andhra classic
Besan / boondi laddu	Sweet – laddu	10–15	Mass/Premium	Sugar, ghee	250 g, 500 g, 1 kg	Festival and temple staple
Dry-fruit laddu	Sweet – laddu	20–30	Premium	Dates/jaggery	250 g, gift box	No added sugar option
Mysore pak	Sweet – ghee	15–20	Premium	Sugar, ghee	250 g, 500 g	Gift box star
Khara / mixture namkeen	Savory	30–45	Mass	—	200 g, 500 g, 5 kg tin	Diabetic-friendly choice
Chakli / murukku	Savory	30–45	Mass	—	200 g, 400 g	All-season
Ribbon pakoda / chekkalu	Savory	30–45	Mass	—	200 g	Telangana favourite
Roasted/spiced nuts	Savory	60–90	Premium	—	150 g tins	Gift boxes
Masala powders & sambar powder	Pantry	180+	Mid	—	100 g, 250 g	Pickles/powders vertical
Pickles	Pantry	180+	Mid	—	250 g, 500 g	Satvik (no onion/garlic) differentiator
Papads	Pantry	180+	Mass	—	200 g	Long shelf life
Dry fruits assortment	Gifting	90+	Premium	—	Gift boxes	Wooden box option
Weekly special (250 g box)	Rotating	7–20	Mass	Varies	250 g see-through	Already tested with very good response

Tier	Price	Contents	Best for
Seva box	₹250–₹450	3 items (chikki, namkeen, laddu) in a see-through or card box with brand sticker	Staff gifting at scale, students, communities
Utsav box	₹600–₹1,200	5–6 items including a premium sweet and dry fruits in a printed rigid box	Employees, association members, donors
Vaikuntha box	₹1,500–₹3,000+	Wooden box, dry fruits, premium sweets, small Deity picture / Gita card	Clients, VIPs, directors, big donors
White-label add-on	+₹15–₹60 per box	Client logo sticker/sleeve, greeting card, custom message	Any tier, MOQ applies

Festival	When (approx.)	Opportunity	Demand	Forecast qty	Staff needed	Owner

MEETING RECORD

Prasadam Revenue Generation Plan

26 September 2026 · Hare Krishna Golden Temple (ISKCON), Hyderabad · speakers: Mukunda Dasa and the production team (labelled Speaker 1–5 in the transcript)

> This record holds three things: every point from the meeting grouped by theme (as used in the plan), the automatic meeting summary exactly as produced, and the full automatic transcript exactly as produced. The transcript was machine-generated from the audio recording (about 1 hour 3 minutes); some passages are garbled and are kept as they are. The audio file itself (Prasadam_Revenue_Generation_Plan.mp3, 11 MB) is kept with the meeting owner, not in this PDF.

1. Everything said, grouped by theme

Why now

- Mukunda Dasa is already driving revenue generation for the temple from several sources (gift items, e-commerce); prasadam is one of them.
- "Already we are late. If not today, tomorrow we have to start." Target to be doing this at scale within one year at most.
- First-mover advantage: no temple in the Bangalore group of temples has done this at large scale yet; the market is untapped.
- Earlier attempts (with Vasudha, with T-Hub and Justdial.com founders and government networks) stalled because margins did not work and nobody owned production. Now a dedicated production lead (Prabhu) is in place, so the missing piece is solved.
- Division of labour: "You take care of production. We take care of marketing and technology."
- A devotee must own the vision for 5–10 years and keep driving it.

Brand advantage

- When customers hear it is from ISKCON, customer acquisition is easy; people trust the name.
- Competing small shops often use chemicals and artificial colours; buyers do not trust them.
- Positioning: 'from the house of Radha Krishna', satvik, pure, without preservatives. People will pay for that.
- Strong SEO and digital presence: anyone searching for ISKCON Hyderabad finds our pages first.
- Proposal discussed to move email addresses to an iskconhyderabad.org-style domain for brand consistency.
- Brand-building stunt idea: an India Book of Records / world-record attempt (e.g. via the 'Mandal Yatra' platform) for a large-quantity preparation, used on social media and the website.

Existing assets to reuse

- Huge databases, networks and warm contacts who have already contributed to the temple.
- Existing system for dispatching prasadam to online donors all over India; other departments already copy this system.
- Existing human resources, spaces, vendor list and negotiated rates.
- Existing e-commerce experience: Shopify, order management, fastest-courier comparison.
- Subhadra Radha Devi Mataji has shipped around 15,000 parcels via Amazon across the country and knows fastest shipping.

- AI engineers and data scientists in the team; cross-sell databases; SMS, WhatsApp, RCS, Google Ads, Meta Ads and organic marketing.
- A new kitchen was recently inaugurated.
- Wooden gift boxes are already available in the storeroom; see-through plastic boxes already in use.
- Personal network in the trade: Mukunda Dasa's cousins run a large sweets business in Malaysia and have supplied bahumana sweets before; family has long experience in this business.

Named contacts and circles

- MNR group: 42 institutions (schools, colleges: medical, engineering, commerce, arts). Staff and student gifting at Dasara.
- Steel/foundry company owners with ~10,000 employees across Karnataka, AP, Telangana, Kerala, Tamil Nadu.
- T-Hub mentors, directors, CEOs, founders.
- Event-management firms, e.g. Naukaran Entertainment (Kavitaji); high-profile Dasara Dandiya events attended by prominent people.
- Telangana Chamber of Commerce (president is close); member companies registered on its platform.
- Rotary, Round Table, Alpha Circle, BNI.
- Institute of Company Secretaries and chartered accountants, Hyderabad chapter (president, secretary).
- About 100 gated communities with weekend flea markets; organisers have given free stalls before.
- About 100 companies currently in touch; outbound selling is possible with manpower.
- Chinmaya Mission Bhagavad Gita recitation event asked for 50,000 meals over two days: an order we should not lose.
- Big donors (e.g. from large showrooms) phone asking for 5 kg of namkeen in the rainy season.
- Three companies have asked us for gift boxes, calendars and Dasara gifts; we could not serve them yet ("my heart is paining").
- A partner has offered network, funds and execution for 100 restaurants / 100 QSRs in Hyderabad under the brand (KFC-style popularity).

Festival counters evidence

- Janmashtami 2026: almost all prasadam counters sold out; around ₹6 lakh sales. Target: 10 times more.
- A family member of the production lead watched the corner stall for four hours; continuous crowds.
- Mahalaya (Pitru Paksha) brings many people for service; a figure of about 200 lakh was mentioned for last year (the transcript is unclear on what it measured). Put sweets and savories stalls there too.
- One stall causes queues of 10–50 people and others walk away; put many stalls in a row.
- Place stalls where footfall is: entrance, exit (especially the darshan exit queue), Goshala walking path, staircases, garden, near benches and the waterfall, from Goshala entrance to Samskara hall.
- A counter in a garden where people do not gather is of no use; traffic goes out through the exit.
- Permanent pagodas that can be closed in rain and opened otherwise; costing was requested earlier but not done.
- The restaurant should take over the entire lawn on festival days: chairs, round tables, full-length counters, sweets and savories in a full row.
- Answer to 'the temple is becoming commercial': this is passive selling. We are not pushing; people choose to approach a stall.
- Shelf-stable stock is the hedge: if festival sales fall short, sell the balance online / via Instagram with a small discount.

Pricing and unit economics

- Two options: premium price for limited premium customers (limited staff, high revenue per order), or competitive price for huge volumes.

- Illustration used: 1 lakh orders per month at a small ticket making ₹10 lakh, versus 10,000 premium orders.
- Premium alone cannot cover capex, rent, electricity and salaries; it is a niche and hard to push.
- Decision: run two segments. The mass segment keeps the kitchen running (rotation, maintenance); premium adds margin.
- Very attractive packaging wins the market.
- Big brands have entered (a well-known brand now sells a full range of laddus and products), which proves the market.
- Prabhu will give good costing for mass and premium items; we help Prabhu grow so he gets volume-based better pricing.
- Jaggery is costlier than sugar; sugar is acceptable. Prefer jaggery-based where price allows; pick whichever gives the better price.
- Namkeen for diabetics, who cannot eat sweets.

Production and capacity

- Production lead currently has 4 people; will add people directly for good orders.
- Internal demand exists daily: donor campaigns, Culture Connect, the corporate relations department, the new Virpaksha campaign (daily donors).
- Weekly minimum order with one fixed delivery day (4 deliveries a month) so the kitchen can plan.
- Festival months (hero campaigns) communicated in advance through the system with quantities from the calendar.
- An exclusive cook for our orders if we commit volume.
- Last Krishna-related order was received and prepared quickly even at the last minute.
- Procurement rule: stop giving prasadam orders to anyone else; order only from the internal production lead.
- Infrastructure can be established if needed; later, a separate building outside the temple can be converted into a unit, as other temples do.
- Catering needs heavy capex and infrastructure; plan it as its own vertical.
- A pantry/service area exists near the restaurant; cooking happens in the main kitchen.

Products

- Criterion one: shelf life of 15–20 days.
- Kaja (including square kaja), khara (savoury) and sweet items.
- Groundnut chikki; black til and white til chikkis.
- Puri unde (puffed-rice balls) with jaggery, coconut and elaichi; poha puffed-rice variant for health-conscious buyers.
- Laddus and a 250 g weekly new item in a see-through box, which had very good response.
- Namkeens / mixtures.
- Pickles, papads, masala powders, sambar powder: another vertical.
- Dry fruits for gifting.
- Samples shown of small machines (e.g. a small red machine) for making items.

Governance and ROI

- Track from DMTT how much effort, time and energy was spent and how much revenue was generated for the temple.
- If someone asks 'you spent this much, what did we get back?', the ROI must be clearly visible.
- Budget for prasadam must be stated per department: LLP, Culture Connect, online donors.
- Approval path: production lead discusses with his reporting manager; then one meeting of Mukunda Dasa, the production lead and the manager to finalise.

Learning visits and long-term vision

- Visit ISKCON Mysore (prasadam there is very good) and Ahmedabad; spend a day with those devotees. Introductions available.
- Tech-platform thinking: Zomato, Swiggy, Zerodha, Amazon own little but scale through technology. Our scale will also come from technology.
- Long-term: 100 employees, export to different countries, 100 QSRs.
- Other related ideas raised: dairy products and ghee; temple advertising projects; education company in 150 languages; Krishna-conscious games; audio/video in 50 languages (outside this plan's scope but share the same DMTT capability).

Smaller details also mentioned

- About 10 days was mentioned for samples and feasibility on internal-department pricing.
- "In 65 days we can do it" was said about getting the vertical moving before the hero campaigns.
- Hero campaigns named: Dasara, Ganesh Chaturthi, New Year, Pitru Paksha, Acharya month and other temple festivals.
- Vasudha is not a competitor; it works on a different platform. Few other temple groups produce sweets and savories at scale.
- Mukunda Dasa recently visited a well-known business that now sells a full range of laddus and products, and brought back samples.
- A visitor with long-running business in Europe offered a connection.
- Companies already pay some vendor for festival gifts; middlemen in purchase departments may take commission, but owners prefer a source they trust.
- Gift boxes can carry the client's branding with a sticker; earlier requests were refused because no facility existed.
- Chinmaya Mission's 50,000-meal enquiry was passed to a professor contact; it should not be lost.
- Google has given the organisation ₹75 lakh in funding for technology products (context for DMTT's capacity).
- Some passages of the transcript are garbled (names, a few numbers); points are recorded as heard.

2. Meeting summary (verbatim)

Prasadam Revenue Generation Plan

September 26, 2026

Overview

The meeting proposed building a scalable sweets, savories, prasadam, gifting, catering, and restaurant business using temple resources, networks, technology, and the ISKCON brand.

Business Model

- Mukunda described multiple revenue channels: e-commerce, prasadam, corporate gifting, white-label products, festival stalls, daily snacks, catering, restaurant operations, QSRs, and eventual exports.
- Target customers include schools and colleges such as MNR, companies with thousands of employees, event-management firms, chambers of commerce, BNI, Round Table, gated communities, donors, and temple visitors.
- Corporate offerings should include branded packaging, gift combos, samples, menus, pricing, and both premium and competitive product segments.

Operations

- Production would initially use the existing internal department, with Prabhu providing samples, costing, and supply capacity. The group discussed weekly repeat orders, larger festival volumes, and additional staffing when required.
- Priority products should have 15–20 days of shelf life, including chikkis, kaja, khara and sweet items, puffed-rice products, pickles, papads, powders, and namkins. Packaging options include see-through boxes, branded stickers, and wooden gift boxes.
- Festival selling should expand beyond one counter to high-traffic locations such as entrances, exits, walking paths, the goshala area, and garden spaces; permanent or rain-protected pagodas were also discussed.

Decisions And Risks

- The ISKCON name and goodwill were identified as a major customer-acquisition advantage, especially for preservative-free and satvik products.
- Revenue, effort, time, costs, staffing, and return on investment must be tracked clearly through DMTT and related systems.
- Open questions: What product list, quantities, budget, pricing model, and production capacity should be finalized? Which infrastructure and staffing investments are justified before demand is validated?

Action Items

- Provide the order confirmation information requested for the prasadam orders.
- Hire an additional person to support the prasadam production work.
- Propose the available budget and requested product items to Prabhu for sample and production planning.
- Analyze prasadam purchases and order volumes from the past six to twelve months, then share the data and estimates for regular and festival demand.
- Prepare and send the detailed plan for developing the prasadam and sweets business vertical. (Mukunda Dasa)
- Identify additional prasadam products with longer shelf life for consideration in the product range.
- Prepare the packaging and product presentation needed for pitching bulk corporate gifting orders.
- Send a representative to support meetings with large company owners about corporate gifting orders. (Mukunda Dasa)

Outline

Strategic Vision

- Establish prasadam and sweets as a major organizational vertical across Hyderabad, India, and potentially international markets.
- Combine production capacity with technology, marketing, databases, AI, social media, WhatsApp, Google Ads, Meta Ads, and e-commerce.
- Use the ISKCON brand to build trust and reduce customer-acquisition barriers.

Revenue Segments

- Corporate gifting and white-label branded products.
- Temple restaurant, festival counters, daily snacks, and catering.
- Gated-community flea markets and external sales.
- QSR and restaurant expansion, including a possible 100-restaurant vision in Hyderabad.
- E-commerce sales, donor orders, events, ceremonies, and exports.

Products And Packaging

- Shelf-stable sweets, savories, chikkis, kaja, puffed-rice products, namkins, pickles, papads, and spice powders.
- Premium and competitive product tiers.
- Gift boxes with customer branding, stickers, samples, menus, and pricing.
- Packaging formats discussed included see-through plastic boxes and wooden boxes.

Supply And Capacity

- Prabhu to support samples, feasibility, pricing, production, and order fulfillment.
- Use historical order trends to estimate regular and festival demand.
- Add personnel during peak campaigns and consider exclusive production resources.
- Develop kitchen, storage, infrastructure, and potentially permanent covered stalls as demand grows.

Controls And Growth

- Track revenue, expenses, time, effort, staffing, and return on investment.
- Begin with internal demand and repeat weekly orders before expanding externally.
- Use festival campaigns such as Janmashtami, Ganesh Chaturthi, New Year, and other major temple events to validate scale.

3. Full transcript (verbatim)

Mukunda Dasa 00:00
My plan is I will tell you what is my plan. So I mean anyway I am working on revenue generation for temples for various sources. We are going to mark talent and power. So this all this gift items whatever you see all these items. So e-commerce business and Prasadam also is one of that. Yeah, so many e-commerce marketing we want to do and generate the revenue for the general. Another for that we have designed a plan. So in that plan we want to have good contacts like nuclear company owners, wherein they have, for example, MNR schools, MNR. He has 42 college, 42 institutions, schools, colleges, medical, engineering, commerce, arts, all those things. So they are very close to us. So they will ask Dasa Rati family. We want to give something to our staff. They'll have huge staff, and even the children if they want to give like that MS Underal foundries steel company owners. They have 10,000 employees for Karnataka, Andhra Telangana, Kerala, And Tamil Nadu, all South India, they have like that. We know many companies like Tihab, Tiha mentor director, CEO, founder. Everybody is very close to us. So like we have many contacts, many many company owners. You know, very hard enterprises, and also the big event management companies are there. Now Dasa Ra is coming Dhandia, that is very very public. So attended by all big people. So they are, for example, Naukaran Entertainment, Kavitaji, she is close touches, and Telangana Chamber of Commerce President, so where all the business company owners register their company in the platform. They are very close to us. So implements your roadway, Roundtable, Alpha Circle, BNI. We have big networks. The company secretary, chartered accountants, chapter of Hyderabad. They are also very close to us. The president, secretary. We have huge databases, huge connections, huge networks. We are already in touch with them. One or other way, they have contributed something to us. So we know all of them. So using all of them, we want to promote prasadam. So one is vital being. So whatever branding they want, we can put on it. That is also one. So that their brand is carryable. That's what they see. Second is our own prasadam for our own social media followers, our own contacts on the e-commerce platform. So we want to touch that level of contacts also, and because anyway we are sending online donors to sadam all over India, we are very well educated. Even the LP department also is taking our key from because we have system from minis. Nobody has to create a new system. So we have resource, human resource spaces, so rates and all negotiated rates. We have everything. So same thing, we will utilize all those resources for this facade sweets and savories and make it them also if you want to get. But in this all these things, only one thing is we also want to track from DMTT how much endeavors, how much time and energy we have also put? How much revenue we have generated for the temple? So that tomorrow, if somebody questions, you are spending this much money. What did you get back? Return on investment. What is that? It has to be very clearly tracked. So that's all my requirements. So this is what I wanted to explain to you in a nutshell, but you build lot of things. So it gives Ometo Shopify, maintaining the order, and then getting the fastest part, competing all those things we have done. So, like Subhana Radha Devi Mata Industrial distributed around 15,000 bagels for Amazon to the country. So she is also very expert in how to get the fastest part. So all those things. So now you tell me, Prabhu, you are okay with this proposal? Yeah. You are okay with that proposal. So you are reporting to admissible Prabhu. Then you can discuss with Prabhu about this proposal. Prabhu says okay. Then finally one meeting you can have with Prabhu, you me and Prabhu. You can take it, Parvo. Sure. that, we will put a water to water also. Provo also will say okay. Then we can take it further. So my goal, my desire, my wish is to make this assa room as one of the big vertical in our organization, not only for Hyderabad, but all over India, and get good revenue.

Mukunda Dasa 05:45
So if you get good revenue, you can build your own kitchen. You can have your own staff. You can bring machinery from any country. Then it will be a very big vertical. So a very unique business. You alone have to do all these things. It's not all. From my side, I'll produce limited collections and separate. Correct. So finally, we want to make it as a very big thing because this is the evergreen business. Yes, sir. In 65 days, we can, yeah, we can do. And we have hero campaigns like Dasa Rajitavami, Ganesh Chaturthi, Nivea. All these are these are hero campaigns where generally gifting is there by the companies, so and I also have interest in this. So from beginning I also have interest, and we can take advantage of all the resources we have. We put AI. We have a lot of people who are working on AI, so they will also a engineer, a data scientist. So we will not leave. Then we have only cross-up databases. So all those databases will hit. So SMARTS, WhatsApp, RCA, Google Ads, Meta Ads, organic marketing. So all those things. So this is the whole media. Somewhere or the other we have to start. If not today, tomorrow please we have to start. Already we are late. So

Speaker 1 07:38
through the other day, with respect to pricing, we had a discussion

Mukunda Dasa 07:43
coming. Ah, for our internal department, so you are also in the NSA. I am not discussing. So

Speaker 1 07:52
make sure how we go feasibility and there will try to adjust that.

Mukunda Dasa 08:07
10 days

Speaker 2 08:18
we can prove that master be very

Speaker 3 08:20
clearly.

Speaker 1 08:20
So 10 days when I

Mukunda Dasa 08:23
items. So premium items can be anything. Lot of options are there. So, mass magnitude of you, ajalon is hard to sweet. And ground nut chicken, or Festival season need to be huge. Otherwise, regular season it will be less.

Speaker 2 09:20
Approach because currently I have. have four people. If it is a good order, I'll

Mukunda Dasa 09:26
put few more people directly. Yeah, totally. Call I not handling directly. Okay, so we do echo Dasa Campaigns we do among us we do campaigns we will have donors so apart from the regular cultivation, that also culture clinic department created companies that also will be having. And now Virpaksha started, so everyday camping, everyday donors will be so somehow the other minimum order will be there, but festival dates, which are our human campaigns, will tell those months extra human resource you want to add, you can have.

Speaker 2 10:32
Okay, the order confirmation, you know, providing this might ask, I will do that.

Mukunda Dasa 10:37
And also you can also see our orders trend analysis. How much order we are giving? One or two months. If you observe, you will get an idea. This much quantity they are giving. This is the human resource required. Like if you can answer. Yeah, that is one thing. So. I think apart from like Ignatian protein, nobody is producing any sweets and savories. So psychish or not, they are not the and Vasudha. Anyway, we are not competing with Vasudha. Vasudha is ready to ignore it, and they are not competing with them. They are no different platforms. And compatible skills, anyway, they are not doing anything nowadays. So here some challenges will be the price point. There are two ways of thinking. I'm just telling you. So we can keep a premium price point. Have the premium customers created limited customers? So we can have premium price point, premium customers, limited business, and limited staff. Everything and revenue will be high. Yeah. Or we can have competitive price point and have huge orders, huge numbers, and have huge business and revenue also will go ahead. Yes. So unit economics will play. We can sell one lakh products or one lakh orders we can receive per month and make 10 lakh rupee revenue, or we can make only 10,000 orders. This one is running. This premium, premium, Dasa premium. That is niche market. Not every time business will happen. We are very difficult to push. Two segments. You can have two segments, but this segment, if we have capital expenditure, kitchen, rent, electricity, salaries, only if we depend on premium products, premium price point, we will not be able to survive. If we have this, this premium segment also will generate some revenue. In fact, this will maintain the

Speaker 2 13:45
yeah for regular maintenance at all for rotation purpose. This can only this is the only option.

Mukunda Dasa 13:50
So and then finally very attractive means very attractive packages that will. win the market. I went to Valava last two days. So we went to after the movie. So almost after I was there only. So they have started Lada Mudram. The book is last time you were there. So now they are into all varieties of products. You can see later. I will share with you Lada Mudra. All verities are products. He gave me some samples. I sent it with popular store. I don't give it to ambition. So imagine such big people also are in this business. That's a good market.

Speaker 3 14:58
Yes, yes.

Speaker 2 15:04
A

Mukunda Dasa 15:08
price

Speaker 4 15:17
may convenient and do something to it. Then it's arranged. Yeah, they are throwing ideas again. That's it.

Mukunda Dasa 15:47
He is supposed to come today. I was put into a. They had a proper Mukunda.

Speaker 3 16:42
Actually, they are doing business in Europe also for long time. So, teacher, they brought for the connection. Motor just switch legs.

Mukunda Dasa 17:31
Monday, feel free coming. Thank you. How they are being asked?

Speaker 4 17:42
Today.

Mukunda Dasa 17:55
So, if I mean, if infrastructure has to be established for especially for the week. We can do that also.

Speaker 2 18:04
Okay. Currently, we have. I need to hire a

Mukunda Dasa 18:10
person. Ah, that there must be meeting time. I also came. Yeah. Whatever process. That was the inauguration day. Kitchen inauguration. Already that about one hour. and

Speaker 2 18:23
other things are there. Major thing is there.

Mukunda Dasa 18:32
One advantage, what we have, I'll tell you before I forget. When we say it is from Iscon brand. Yeah, customer acquisition is easy. Yes, people believe in Skan. Yeah, the name itself is an advantage. The brand name we have to take marriage. So that is the advantage that we have, which other companies don't have. Don't just put side. Not small place. if they are there, they use chemicals, artificial colors, so people don't believe. When we say we are selling this corn from the house of Radha Krishna or satvik or something or pure without any preservatives, people will pay. That is the advantage that we have. We have to write and learn in goodwill that we scorn has earned all globally. Generally, we do that term. It hasn't asked. So now, anyway, nature was discussing with me. Can we change all the email address to iscon hyderabad.org, insert hyderabad.org. So we were discussing yesterday. So very prominently we are we are using from long time we are using Ian for our digital marketing, SEO, all those things. Anybody searches about Iskan, our pages will appear. Yes, so that. why I am feeling if with the blessings of Radha Kurinda and Lopa we can make it a very big vertical

Speaker 2 20:30
this program.

Mukunda Dasa 20:32
So we both have to work definitely,

Speaker 3 20:33
etc.

Mukunda Dasa 20:34
And tomorrow, if Krishna wishes, there will be 100 employees. You can export it to different countries. When it's temple, we don't have special unit. Outside, outside, and like this one building, we can take, we can convert it. That is what they are doing. Now we came back to higher test also. Highest Dasa flows. Highest maintained. Arvind Chaudhary ini.

Speaker 2 21:28
Recent dual Mukunda. One year. Three months from the next floor. By the boloka factor,

Mukunda Dasa 21:51
So many people do catering business so finely invest.

Speaker 4 21:57
Requires lot of capex, lot of everything in infrastructure. But

Mukunda Dasa 22:12
if you can look at that, also again one more big vertical. This Chinmaya patient built Bhagavad Gita recitation in. They asked me, "We want 50,000 meals for two days, so 50,000 packets. I sent it to Satyabar professor. We should take this order. We should not lose. Professor will. there also is called brand. The brand name will play a big picture and visibility, online visibility. Anybody want to search anything, ours will come first. They'll pick. I mean, this content you can say. I mean, you can create tariffs or words in such a way. They will believe there's a brand, this brand. So it will be very easy to do customer application. You can discuss that also with Prabhu. Prabhu, open up. Ah, cattling business.

Speaker 2 23:33
So linear obsessive.

Mukunda Dasa 23:36
I mean different segments. It is sweets,

Speaker 2 23:39
series. No, no, it's a kitchen cutting opportunity, kitchen construction, Dasa, mana, Dasa masuk, Dasa, las Dasa Dasa, restaurant, so Dasa permasu teker gap lah, so bera bisa

Mukunda Dasa 23:57
Mukunda, tu nira ni tu, Dasa dok Dasa,

Speaker 2 24:02
Mukunda, lara

Mukunda Dasa 24:20
So cooking will happen in the kitchen. This will be kind of pantry and survey. I like cooking also. The

Speaker 2 24:28
restaurant will actually

Mukunda Dasa 24:30
kitchen. This is the pantry and other only poorly kitchen items.

Speaker 2 24:35
Like pattern, the kitchen of the belly, sir.

Mukunda Dasa 24:42
Okay, but anyway, this is here we can do business only whatever crowd comes to our campus.

Speaker 1 24:51
Yes, but we should go outside.

Mukunda Dasa 24:54
So this also we have to do. Yeah, one person we have to do. One who is coming to us and from whom we are going. See, Sada means nothing but. with South India, and we can slowly go to all over India. Now it's all global village, no boundaries, only proper planning, idea, network, technology. Now tomato siki are only technology companies. They have not been cooking or anything. Only technology platform. So if you see like that any big companies, then we are only technology companies. Even Zeroda is stock market. Some millions of dollars. So Swiggy, LinkedIn, anything you like, even Amazon you take, you cut everything. They don't own anything. Products are sold by the sellers. Sellers, they ship it and deliver it, but they make billions of dollars. So it's a technology platform. So the technology platform that is actually will make the difference in the society if you want to scale. So you think about it, Prabhu. Whenever you get time, discuss it. I'm just throwing some random ideas. Not random. Actually, I have proper plan. Yeah, chances. I have little detailed plan. Been working on that. So because I got the opportunity, I'm sharing with you. So, one is inside our temple, mainly the restaurant and festival time. Restaurant should take our entire naan area. And apart from that, outside also we have to put up civilian Dasa stalls, and everybody should be back to. See, people don't have time, patience. One stall only we have put up. Some 1020, 3040, 50 people are accumulated. Nobody will come there. That's all. There will be one. Put up stall from Koshala entrance to Samskara, all stalls. My mind full of stalls. Wherever it is, every people will come. You see, buy. Yeah. So like that, we have to small idea. It will make lot of difference. We have put up all stalls like that. We have to plant some shelf life, more shelf life items. Inventory. Even worst case scenario, Krishna forbid that festival sales are not up to the mark. Whatever remaining, we can ship it. We can sell it on that. Give some disqualifying and review this blanket zap. Instagram Instagram itself is a big business plan. So whether we can do more. So okay, sweet sense. Okay, we are starting with the temple restaurant, and then after that entire lawn, you should take over. So put chairs and round tables, hiring, and do on festival days full life contours. So then sweets and this nice cookies will be item of full entire row you should set up and you should yes so once that is exhausted so then this is gifting segment so this Dasa rati kavali will be called as white labeling that is one and apart from that our own brand Dasa brand Dasa Radhikawali gifting item so even dry floats this that everything you can do and apart from that, sweets and savories. That is again snacking. Saturday snacking items that is regular every day 365 day business. There is nothing connected to festival that can go on. Then catering business. So our own department catering. Yeah, many teachers are asking me to do actually. So that is very very gen and customers are that yes, very good customers. So for example, we only did 44 again. Yes, we need prasad. So Jan master will get 25. We need prasada. Yes, ma'am. So all numbers will double. Obviously, all elements, house programs, the need to start. So everybody needs. So many. So many people. Sufiya bro called me couple of days ago. He was telling very company, very big. company people also ask, so that we can win, we can win their heart, we can generate good relationship also will generate lot of revenue. That's a connecting point. So these are all hooks. Capra is one hook. So that is one segment of customers. So one more segment is all out. We will go. We will sell. Like BCBC is there. I don't know whether you are taking huge orders. All activities like opening a car naming ceremony, birthday, marriage. So when we raise car, so like the. so that is one more segment. Not connected to this circle. It's called the OT circle. It's not there. Public, click, public. So one more circle. Apart from that, next level is fine diner stories. Before find and QSR, so QSR also is one.

Mukunda Dasa 31:24
That one of our is talking to me from long time. You just tell us, we will do everything. We have all connects, all network, all funds. We are in different. So they are interested. He is saying in Hyderabad, this column should have 100 restaurant, 100 QSRs. You just give it to us, we will do. Because KFS are very popular now. Very very popular. So that is another big level. So then you can think even going all over India and expanding and export to other countries also is possible. Yes, Krishna blesses. Okay, this is the roadmap. That's what I mean. Different audiences, different circles, and different products for each audience. Fine. So coming back to our this discussion. So for our department, so Prabhu is ready to give us a sample for all the requirements online, don't we? Over 11. our culture connect department. So Prabhu is telling you propose me what is the budget that you have and what item you want. So we try to make whatever best possible. So kind of how much will be the quantity? What is the repeat order in a month, how much order will be there? Festival time it will be peak orders, big number, big good sizeable orders. Other than festival months, it will be minimum order. So accordingly, Prabhu will have human resource also. So if required, Prabhu will put an exclusive resource who can cook for us. Yes, that also Prabhu. If we promise. with this much order we will give, then every proverb can actually equip the thing. So now, so you sit down, you work on some trends. Last six months, one year, how much percent we have purchased, how many orders we have shared. Then you share the data. We will have one more meeting. We'll finalize. So minimum order will be this much. These are the items. And then festival month. So we will put that month also. That must be month. Good decoration. Pitrapaksha month. Acharya month. New Year month, all those hero campaign months. We will put that also. We will say, bro, this month the order may go up to this minimum will be this. We will go up to more also. We can give some rough estimate with the picture to Prabhu. So he will plan all the resources align everything. That we have to do. So I have discussed with Prabhu that we need a good shelf life. The first criteria. So 15-20 days, no problem. Grammar, chiki, kaja, square kaja, khara, as well as sweeter. That is also considered. Rawnut chickies one thing and puriunda I think puriunde puriunde means basically puffed rice. That also will stay for long. And January puffed rice and coconut. All right. This three-four is a great and elachi. Yeah, ilachi. Many years. We used to eat from childhood. Yes, yes. This next to our house on Brahmin family, they are into catering business. A grown-up being in their house. Whenever catering order will come, they will prepare Brahmins. Very nice, very big order. They used to give me. I mean, I used to go eat, so it was very cordial. So I've seen all those things. So this Karnataka is very popular. Here also it is very puffed rice is one variety, and avalanche puri basically poha puffer rice. Poha puffa rice is also one more variety. So conscious people can eat that. You know, think which will spoil the health. One is jaggery, one is tofu, one is coconut, and ilachi and grommet, and most importantly, shelf life is

Speaker 2 36:18
more. The

Mukunda Dasa 36:21
concept.

Speaker 2 36:22
we are launched for new item two, 250 grams per week is called. It is very. We have very good response to this. We will bring today. Some other time can still same as TDD level went together. Oh yes. given in a box and given a box, box, see-through box. Now in our personal computer, fully see-through box plastic. The

Mukunda Dasa 37:00
last name I came. All counters, all the items were sold out. Janmas meeting. Parvas me, I don't remember. I came. I saw all the prasadam counters. Almost all items were sold. Festival day stock was.

Speaker 2 37:16
In fact, my father also came to the festival. Four hours he was there in the corner. I was shocked. Actually, continuously calling it a lot of people are coming. Everything is getting.

Mukunda Dasa 37:31
They had around six lakhs or something. We should do 10 times more. All you should take over garden area. That walking path. Actually speaking, this Mahalayama says that a lot of people will come to serve. Last year also under 200 slacks.

Speaker 2 38:08
For donors itself, we arrange some other things. DSP will separate your value to submit.

Mukunda Dasa 38:15
So there also we should put up sweets and savories stall, and we should sell. I'm just thinking where more football is there, where more people spend time. There, our items have to be visible, and we should sell. They don't mind. It's people don't think as commercial. Also, if somebody argues, you should tell this counter argument I'm telling you. There are two varieties of selling. One is active selling. One is passive selling. We are not doing any active selling. We have put up a stall. If it's a passive selling, if somebody want to come and approach and take, it's a tool. Yes, bro. Nobody will think the temple is a country. So, if anybody brings that argument, you should come. So, there's nothing wrong in putting up counters where more crowd is. So, there's no problem at all. And festival time, too much big festival. The Saddam since contest is there now. Their benches are there. Waterfall are there. Actually, there also you should put one line, one single line or double line or one line. At least you should put that side also. People should come and buy this side. Also people should come. There is nothing. from that, we don't have any other area. So these are the main areas for us. Or if it is a medium scale festival, that Goshala walking path on the staircases somewhere, or gosha lava king for there only which are put and especially exit time after Dasa exit queue as the exit issue. So people don't mind. We may have the counter in the garden, but public is not going to gather. No use. Yes, traffic is going back through Dasa Allah exit only. Then if we put up our stalls in private

Speaker 2 40:36
is coming, the people will obviously go inside.

Mukunda Dasa 40:40
We have to wait out. We should not leave. We should take advantage.

Speaker 2 40:57
First, got a nice plan. Actually, we should

Speaker 1 41:00
invest into the larger area. Then

Mukunda Dasa 41:08
we can put pagodas permanently also. All this is the center lah. All that we can put permanent pagodas. Lambda provides when we ask to find out the casting, I did not work on it. I had told long answer. I had told her we should get pagoda when rain is there. The pagoda should be closed. Still, we should be able to use it. If rain is there, we can open. Open long also. So yes, Prabhu. So think about it. So we start with our internal internal. Immediately we want. So you are correct immediately and clearly we have one more meeting to finalize all the products and quantities. I can put up other

Speaker 2 41:59
people also. Actually, for you, I think question.

Mukunda Dasa 42:10
Even gated community, we are in touch with 100 gated communities, and every weekend a flea market will do that. You heard about flea market? Yeah, gated communities will get the stall, eatery, stall shopping, everything. So they'll come. They'll put up stall. So we have actually worked with the free market organizers. They are giving free stall also. Okay. This is one of the way for integrated community was that also. That also. So that's how we got access. Then we generate tweeted event. We got our contacts started preaching, making them donors, so we have access now. So even now, 100 billion companies we are in touch. If we have manpower, even we can go and sell them also. It's all about how much we want to do, how much resources we have. Yes. Anyway, all these things are recorded, so I will make one proper plan and send it to us. Last time on the crystal mundu, I saw actually quickly the order was received and prepared. I was thinking last minute may not be possible to cook and prepare.

Speaker 2 43:44
I was actually waiting.

Mukunda Dasa 43:51
No, so Mahabodhi, stop giving order to anybody. So only from Aj Prabhu only we should take. So Prabhu also will help us with good costing for mass items, premium items. Anyway, it will be premium price. So that whatever best possible, Prabhu will give us. We will also help Prabhu to make this business grow. So Prabhu will have some soft color, so in that way we'll get better pricing. Don't worry. So we have to give only to Prabhu all the others is the final thing. So your responsibility, you work on this quickly. Now we can say every week does the minimum quantity, and every week, one day they can give four weeks, four times they can deliver. It's a repeater, no tension. They'll also be clear. They'll also plan on their work. Whenever cook surgery, they'll get it done. So like that, 100 even fresh also. So we need not to worry that also. And festival time, we will give Bilal that also prove this generation to hala in our system. We need this many things and this much content. So that ones we can give. We have calendar. We can prepare. And for our function to be clear, what is the budget? How much we are allocated for Pasan? So for the LLP also, for culture collect also, for online dollars also. Any other items you please let us know, which will have more shelf life.

Speaker 2 45:44
Yeah, definitely.

Mukunda Dasa 45:46
And mostly jag based.

Speaker 3 45:48
Yeah, okay.

Mukunda Dasa 45:48
No sugar based. And sugar is costly or jagged is costly.

Speaker 2 45:55
Jagger is costly.

Mukunda Dasa 45:56
Then sugar also okay, na for us. Sugar is okay for us. No problem. Whatever is better price. And apart from the nunking, this diabetes patients cannot eat sweet at all. So we will give them namkins. So namkins happily value this book, especially rainy season. A lot of big donors also they call, they tell me from Jaglasha or the big showroom. Five kg can you send their their heads.

Speaker 2 46:40
There must be time. The longer you could pay

Speaker 4 46:42
to over the items. Good question.

Speaker 2 46:49
I got 10 people

Mukunda Dasa 46:51
expediently for general. Very nice. So that's a massive order. Yeah. Same there must be sponsors also big. Number of sponsors. you make any big quantities, actually there are India book of records. One platform is called Mandal Yatra. They are getting records. You can do that also just for brand building to put up in our social media website. Find the home. I think we have got clarity. Yes. So now only request from our side is you think of some more items which will have more shelter. What varieties? If you have some more time, 510 minutes, I'll show one website. Yeah. Which is final is now only. You also be there so that we can finalize some basic numbers now, so that we can start doing the analysis. Anyway, you know now my cousin selected this business only. You know.

Speaker 2 49:03
Ah, bro.

Mukunda Dasa 49:06
Mahavishandra also used to order for Bahumana sal from my cousins only. They have very big business in Malaysia, and I someday our Rajas, Navara and Bashan, they are even my aunt, my father said, is into this business for a long time.

Speaker 5 49:27
Ah, I forgot.

Mukunda Dasa 49:48
Four, but I small big. This is small. One is this red color machine. And this is small, very small. This, which means this.

Speaker 3 50:18
Butter, cooking, all mutual, the.

Mukunda Dasa 50:35
So this is one variety, and. Basically, that peanuts. Black till white till I don't know. Many are there. It's not opening. There is some pop-ups. This again one more business pickles, papads, powders, masala powders, sambar powder, sambars.

Speaker 2 51:56
Again one more vertical. That time we went very good in there, but my so that I purchased that masala powder there.

Speaker 5 52:17
Yeah, very nice product there, very good day. Nice person.

Mukunda Dasa 52:31
So after that, I did not go. I want to go also. So

Speaker 2 52:35
first time in actually how we learn to.

Mukunda Dasa 52:43
Ah, bindu malah perlu. Ada, explain. Why should

Speaker 2 52:56
I? I am

Mukunda Dasa 53:10
not going for any trips actually. I want to go. I am also missing all that. So many services. I am also going crazy because so many projects, so many things are increasing. And after years come, we are trying to develop so many projects for education. We want to make one big education company. Of course, not one language, 150 languages. Oh my God! So we are working on that. Recently, Google has given us 75 lakhs funding. Oh, so a lot of technology products we are developing. So many things are happening after AI has come. We are into so many product developments. One more games, games, Krishna conscious games. We are trying to work on generating revenue through audio, video in 50 languages. That also we have pure Krishna conscious content as well, not completely pure Krishna conscious devotion. Little Krishna conscious elements, but modern way representing to mass arguments. There is one more way of all trips, ashram trips, events. But Mysore Prasadam was very nice. Even our ashram, my soul, Masal Dasa, Masal Dasa and India from raising to us. Sweet flow. Sometimes we should take our time and go and meet those devotees. This I'll connect if you want. Sure, all of them are my friends, so you can connect. go at least one day. You spend, you will get some idea. I think Ahmedabad. Anyway, you know. But no, e-commerce leaf in leather, intraday, one temple, or even some business. Dairy products, agi,

Speaker 2 56:22
well temple by

Mukunda Dasa 56:38
That's what I'm envisioning one plan, one concept, an idea. Also requires some gets, and implementing also requires some bold steps. So, as per my knowledge, on our Japan Bangalore group of temples, nobody has at least currently today has done this big scale project. Yeah, if we would have done, we would have come to know. Yeah, nobody has done it. But it's untapped market, and it's for this one. That's why all brands have many other many other things. So number one. Vasudha, international provo and myself, wanted funny before Vasudha we started. Freshwa wasda. That time only we went and met the big people. My to tea hub founder, justile.com founder, Manik. So they also pitched in lot of meetings here. We brought them lot of proposals, discussions, planning. They have a network of different governments. So Bru also was looking for good funding, good team, good ideas. So then, somehow margins were not working. But possibilities, if you want to do possibilities there, and of course, ignition tour is busy in many projects. So, some devotee like you should want this, take it up, and at least have a vision. Okay, after five years, 10 years, at least we have to do this. So, one devotee at least should keep driving. Then things will take you. That's why I told you today. These are the segments. These are the ideas. These are the concepts. These are the markets. Unfortunately, this con also is not well done on the space. So we can make a we can make a first mover advantage. We can make the first mover advantage also. And if we don't do now, normally at least in within one year, we should be doing it. Then when we will do? We'll not do after five years. So somebody has to take that one bold step, depending on Prabhupada and Krishna, let us do something. I've been talking to Satyagrah for a long time. Who is okay? Who is very good? But infrastructure also is. See, for me, I can't put my brain in producing the salad. Yes, yes. I am good in technology. I am good in marketing. I am good in technology. You can take it into the market. But somebody else has to produce it. What was missing earlier? Now because you came. Now it is very easy for us. For daily combination, you take care of product production. We take care of marketing. Yes, that's it.

Speaker 2 1:00:08
And one more thing is that Dasa and only the offices are the gifting council. They give suites. One or two companies also if they can take from us.

Mukunda Dasa 1:00:16
Huh? We have direction. We have. But we have to be ready with some designs, menu, gifts, combos. This is the pricing. This sampling, samples,

Speaker 2 1:00:31
sample. Samples and pricing I

Mukunda Dasa 1:00:33
do. If you go present then, okay, Swamiji, then say I will say your branding. That also we should main and take. We will put the sticker and take it. So then there is an occasion. You say please do. Many people asked in the past that time the local facility can say no. Now we can

Speaker 2 1:00:58
even running big company with the bulk body loss is sufficient to start with.

Mukunda Dasa 1:01:03
Ah, we have three companies. That's why my heart is paining. We are not able to take mileage. We have to do it now. Any company? They have asked also. They ask calendar. They ask Dasa then. They ask the gifting boxes. anyway they have to pay and take

Speaker 3 1:01:28
their

Mukunda Dasa 1:01:28
paying to some vendor then pay loss and then make for them no difference so of course the middlemen employees may get some market backs commission the purchase department that the owner will feel convinced then no problem. Owner will tell no no his call is best we know somebody for 15 years just give order to someone then over so yes prabhu tell me we'll work on this I'll send one of our person. He'll only come. We both can go and meet the big company owners wherein they have 5000 employees, 10,000 employees. Their orders will be like that only. Then even one clicks also. It's a very good business. Yeah, but for that, so you have to be ready with the packaging.

Speaker 2 1:02:25
Okay.

Mukunda Dasa 1:02:26
Presentation. What I've seen. This is that one boxing

Speaker 4 1:02:39
that you see. Yes, the other scene. working.

Mukunda Dasa 1:03:01
This also we are working on in a big way. What we are trying to put on business development and create a lot of money from advertisement projects. A lot of companies have huge advertisement projects, so we want to work on that.

Speaker 3 1:03:21
We are actually working on that box.

Mukunda Dasa 1:03:23
Take little time, but little click. So apart from that box, if you want this wooden boxes, other you see backside in the storeroom. You can store room keys. Who is having? So you go and see one scene store. Sir Trishi.
