HARE KRISHNA GOLDEN TEMPLE (ISKCON) · HYDERABAD

Prasadam, Sweets & Savories
A New Revenue Vertical

Business plan · Target audiences · Revenue models · Roadmap · Project plan

From the house of Radha Krishna: satvik, pure, no preservatives
v1.2, 21 October 2026

EXECUTIVE SUMMARY

Demand is proven; we now have a production owner

₹6 L	10×	14	₹2.2 Cr
Janmashtami 2026 counters (sold out)	festival sales target	revenue streams across 5 audience circles	Year-1 revenue target [estimate]

- Trust is our moat: people believe in ISKCON; satvik, chemical-free prasadam commands loyalty and price.
- Warm network: company owners (10,000-staff firms), MNR's 42 institutions, chambers, BNI, Rotary, 100 gated communities, donors.
- The missing piece is solved: temple production owns the kitchen; Mukunda Dasa and DMTT own marketing, tech and sales.
- Two-tier pricing: a mass tier keeps the kitchen running, a premium tier adds margin.
- Start lean: internal supply, festival stalls, corporate and white-label gifting for Dasara/Diwali 2026. Build capacity only after demand is proven.
- Grow to about ₹4.5 Cr in Year 2 and ₹7.5 Cr in Year 3; then QSRs, pan-India and exports.

THE OPPORTUNITY

Why now: the market is untapped and we are late

What we heard

- Janmashtami counters sold out (~₹6 L)
- 3 companies asked for gift boxes and we could not supply
- Chinmaya Mission asked for 50,000 meals
- Big donors ask for 5 kg namkeen in monsoon
- A partner offers funds for 100 QSRs
- No temple in our group has done this at scale

What the market says

- Packaged sweets: ₹8,431 Cr (2025) → ₹30,506 Cr by 2034, ~16% CAGR
- Namkeen: +USD 4.9 bn by 2030, ~10% CAGR
- Corporate gifting: > ₹27,000 Cr by 2030
- 58% of Diwali gifts are corporate
- GST on packaged namkeen cut 12% → 5%

What we already have

- ISKCON brand and top SEO ranking
- Donor databases, WhatsApp, ads skills
- Online donor prasadam dispatch system
- Shopify experience; ~15,000 Amazon parcels shipped
- Negotiated vendor rates, new kitchen
- AI engineers and data scientists

DIRECTION

Vision, mission and brand

Make prasadam, sweets and savories one of the organisation's biggest verticals: first in Hyderabad, then across South India and all of India, and eventually in export markets. Profits fund our own kitchen, our own staff and machinery, and the temple's service to society.

Offer pure, satvik, preservative-free prasadam, prepared with devotion and offered to Sri Sri Radha Krishna, to every audience we already touch: visitors, donors, devotees, companies, institutions, communities and online buyers. Production is done by the temple kitchen; marketing, technology and sales are done by the DMTT; every rupee and hour is tracked for ROI.

1

Purity

Satvik, no preservatives, no artificial colours

2

Devotion

Prepared with care and offered to the Deity

3

Trust

Decades of ISKCON goodwill in Hyderabad

4

Service

Proceeds support temple seva

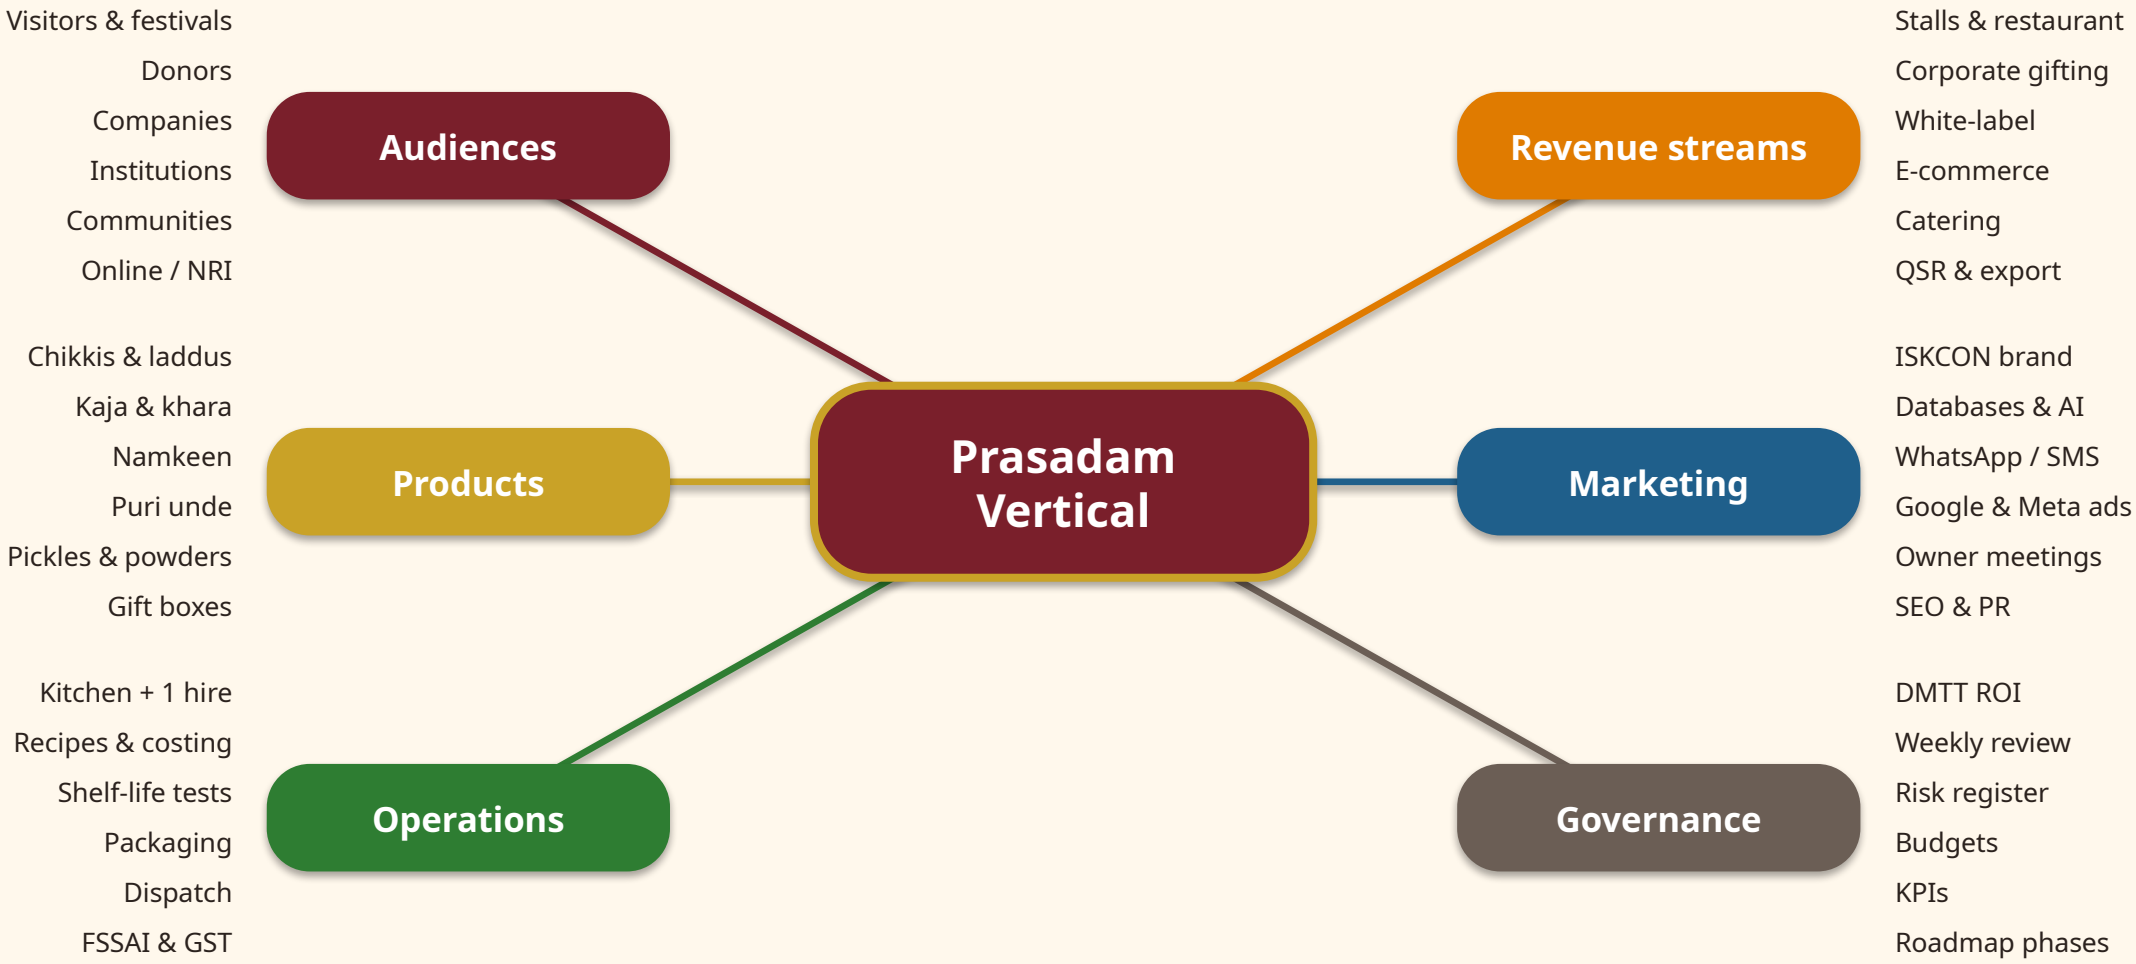

5

Delight

Packaging that makes gifting special

MIND MAP

The whole vertical on one page

TARGET AUDIENCES

Different circles, different products

Circle 1

- Those who come to us
- Temple visitors and festival crowds
- Donors and life members
- Internal departments

Circle 2

- Those we go to (b2b)
- Corporate companies
- Educational institutions
- Associations and professional networks
- Event management companies

Circle 3

- Open public (b2c outside)
- Gated communities
- Life-event families (open circle)

Circle 4

- Digital
- Online shoppers across India
- Health-conscious and diabetic buyers

Circle 5

- Scale
- Institutional bulk / large gatherings
- QSR and restaurant diners
- Export and diaspora

Start inside, then go out: Circle 1 (people already coming to us) funds the kitchen from day one;
Circle 2 (our B2B network) brings the big festival orders; Circles 3–4 add year-round volume; Circle 5 is the long-term scale play.

TARGET AUDIENCES

What each audience needs and what we offer

Audience	Offer	Channel	Price
Temple visitors and festival crowds	Restaurant, lawn food court, multiple festival stalls, take-home packs, 250 g see-through boxes	Stalls at entrance/exit/Goshala path, restaurant, QR menus, UPI	Mass tier ₹30–₹250
Donors and life members	Donor prasadam packs, bahumana boxes, 5 kg namkeen tins, festival hampers	Existing donor dispatch system, WhatsApp, donor-care calls	Mid to premium
Internal departments	Weekly standing order, one fixed delivery day, festival top-ups	Internal order form in the system; monthly budget per department	Internal transfer price (cost + agreed margin)
Corporate companies	Own-brand gift boxes (3 tiers) and white-label boxes with company branding; samples, menu, price list	Owner-level meetings (Mukunda Dasa + production rep), chamber and BNI referrals, LinkedIn, email	₹250–₹2,500 per box; volume slabs
Educational institutions	Low-ticket student packs, staff boxes, event catering	Chairman relationships; academic-calendar planning	Mass tier with bulk slabs
Associations and professional networks	Co-branded hampers, member discount codes, event snack boxes	Presidents/secretaries, chapter meetings, newsletters	Mid tier
Event management companies	Return-gift boxes, live counters, catering	Partner commission / referral fee	Mid tier
Gated communities	Weekend stall with top sellers, pre-order for festivals, community WhatsApp group	Flea-market organisers (free stalls offered before), RWA committees	Mass tier
Life-event families (open circle)	Occasion packs, catering menus, bulk sweets	Google Ads, Instagram, referrals, temple ceremony desk	Mid tier
Online shoppers across India	Shopify store + Amazon; subscriptions; diabetic-friendly namkeen; jaggery range	Meta Ads, Google Ads, WhatsApp, RCS, SMS, SEO, influencers	Mid tier + shipping
Health-conscious and diabetic buyers	'Satvik Wellness' sub-range; namkeen for diabetics	Content marketing, doctors/yoga communities	Premium
Institutional bulk / large gatherings	Bulk meal packets, prasadam packs, catering	Direct leadership contact; tender responses	Per-plate contract
QSR and restaurant diners	Satvik QSR outlets (franchise with partner), later fine dine	Franchise partner, food-delivery apps	₹99–₹399 meals
Export and diaspora	Export-grade packaged range	Family business in Malaysia, European contacts, APEDA, Amazon Global	Export pricing

BUSINESS MODELS

14 revenue streams (1/2)

R1 Internal supply to departments

Weekly standing orders to Culture Connect, LLP, online donors dispatch, corporate relations and campaigns, with one fixed delivery day and festival top-ups.

Phase 0–1 · Capex Low · Margin Low–Medium

R2 Festival stalls and counters

Rows of stalls at high-footfall points on festival days; permanent rain-proof pagodas; restaurant takes the entire lawn.

Phase 1 onward · Capex Medium (pagodas) · Margin High

R3 Temple restaurant and lawn food court

Restaurant as the daily anchor; on festival days full-length counters, chairs and round tables across the lawn.

Phase 1–3 · Capex Medium · Margin Medium

R4 Corporate gifting (own brand)

Dasara, Diwali, New Year, Sankranti and other gift boxes in three tiers, with dry fruits and sweets; samples, menu, price list.

Phase 1 onward · Capex Low (packaging) · Margin High

R5 White-label / co-branded gifting

Same boxes with the client's logo and message (sticker or printed sleeve), so their brand travels with our prasadam.

Phase 1 onward · Capex Low · Margin High

R6 Daily snacking (365-day retail)

Sweets and savories unconnected to festivals: chikkis, kaja, khara, namkeen, puri unde, laddus, 250 g weekly specials.

Phase 1–2 · Capex Low · Margin Medium

R7 E-commerce (own store + marketplaces)

Shopify store and Amazon listing for shelf-stable items, pan-India shipping, subscriptions, donor bundles.

Phase 2 · Capex Low · Margin Medium

BUSINESS MODELS

14 revenue streams (2/2)

R8 Catering and bulk meals

Satvik catering for house programmes, life events, corporate and institutional events; bulk meal packets (e.g. 50,000 meals).

Phase 2–4 · Capex High (at scale) · Margin Medium

R9 Gated community flea markets

Weekend stalls in ~100 gated communities, pre-orders for festivals, community WhatsApp groups.

Phase 2 · Capex Low · Margin Medium

R10 Outbound B2B and life-event sales

Sell to companies, event managers and families for openings, naming ceremonies, birthdays, weddings, vehicle pujas.

Phase 2–3 · Capex Low · Margin Medium

R11 Pickles, papads and powders

Masala powders, sambar powder, pickles, papads: very long shelf life, ideal for online and export.

Phase 3 · Capex Low–Medium · Margin Medium–High

R12 QSR and fine-dine restaurants

Satvik quick-service outlets under the brand via the interested franchise partner; vision of 100 QSRs in Hyderabad; later fine dine.

Phase 4–5 · Capex Partner-funded · Margin Royalty 4–8% [ESTIMATE]

R13 Exports and diaspora

Long-shelf-life range for diaspora markets and temples abroad.

Phase 5 · Capex Medium · Margin Medium–High

R14 Donor and sponsor packs

Bahumana gift boxes for big donors, sponsor prasadam for festivals, 5 kg namkeen tins in monsoon.

Phase 1 onward · Capex Low · Margin Medium

PRICING STRATEGY

Two segments: volume + premium

Mass / competitive tier

- Local-shop price or slightly below; huge volumes
- Covers rent, power, salaries; keeps kitchen rotating
- Counters, communities, internal supply, students

Premium tier

- Pure ghee, dry fruits, jaggery, wooden boxes
- Limited volume, high margin
- VIP corporate boxes, donors, wellness range

Gift box	Price	Contents	Best for
Seva box	₹250–₹450	3 items (chikki, namkeen, laddu) in a see-through or card box with brand sticker	Staff gifting at scale, students, communities
Utsav box	₹600–₹1,200	5–6 items including a premium sweet and dry fruits in a printed rigid box	Employees, association members, donors
Vaikuntha box	₹1,500–₹3,000+	Wooden box, dry fruits, premium sweets, small Deity picture / Gita card	Clients, VIPs, directors, big donors
White-label add-on	+₹15–₹60 per box	Client logo sticker/sleeve, greeting card, custom message	Any tier, MOQ applies

PRODUCT RANGE

Products: 15–20+ days shelf life first

Sweet

- Groundnut chikki (60–90 d)
- Til chikki (black & white) (60–90 d)
- Dry-fruit chikki (45–60 d)
- Puri unde (puffed-rice balls) (20–30 d)
- Poha puffed-rice unde (20–30 d)
- Kaja / square kaja (15–20 d)
- Besan / boondi laddu (10–15 d)
- Dry-fruit laddu (20–30 d)
- Mysore pak (15–20 d)

Savory

- Khara / mixture namkeen (30–45 d)
- Chakli / murukku (30–45 d)
- Ribbon pakoda / chekkalu (30–45 d)
- Roasted/spiced nuts (60–90 d)

Pantry

- Masala powders & sambar powder (180+ d)
- Pickles (180+ d)
- Papads (180+ d)

Gifting

- Dry fruits assortment (90+ d)

Rotating

- Weekly special (250 g box) (7–20 d)

PACKAGING

Attractive packaging wins the market

- See-through plastic boxes (already in use) for counters and the 250 g weekly item; move to food-grade PET with tamper seal.
- Branded stickers: temple brand + FSSAI number + MFD/best-before + ingredients + veg mark; client stickers for white-label.
- Printed rigid boxes for the Utsav tier; wooden boxes (stock in storeroom) for the Vaikuntha tier.
- Gift sleeve with a short story card: 'Prepared with devotion and offered to Sri Sri Radha Krishna'.
- Tins for 5 kg namkeen and premium nuts.
- Eco option: kraft paper boxes and cloth bags for premium buyers; reduce single-use plastic over time.
- Every pack carries a QR code to the online store and to donation pages (cross-sell).

Every pack carries

- Temple brand + story card
- FSSAI logo & number
- MFD, best-before, batch
- Ingredients & allergens
- Veg mark, net weight, MRP
- QR to store & donation page
- Client logo (white-label)

GO-TO-MARKET

Marketing: brand + network + technology

Brand story

'From the house of Radha Krishna': satvik, pure, no preservatives, no artificial colours, offered to the Deity, profits support temple service.

Databases

Segment donor, visitor, event and corporate databases; AI scoring to find likely buyers (DMTT data scientists).

WhatsApp / SMS / RCS

Festival broadcast calendars, catalogue links, one-tap reorder, community groups for gated societies.

Google Ads

Search: 'Diwali gift boxes Hyderabad', 'corporate gifts Hyderabad', 'satvik catering', 'pure ghee sweets online'.

Meta Ads & Instagram

Reels of prasadam preparation, Deity offering, festival crowds; flash sales for leftovers; retargeting.

SEO & content

Leverage existing top ranking; product pages, recipes, 'why satvik' articles; Google Business Profile for the food court.

Owner-level selling

Personal meetings with company owners via chambers, BNI, Rotary, T-Hub; sample box + catalogue + price list.

Events & PR

Record attempts, Dandiya tie-ups, stalls at chamber and BNI events; press on 'temple kitchen goes online'.

On-campus visibility

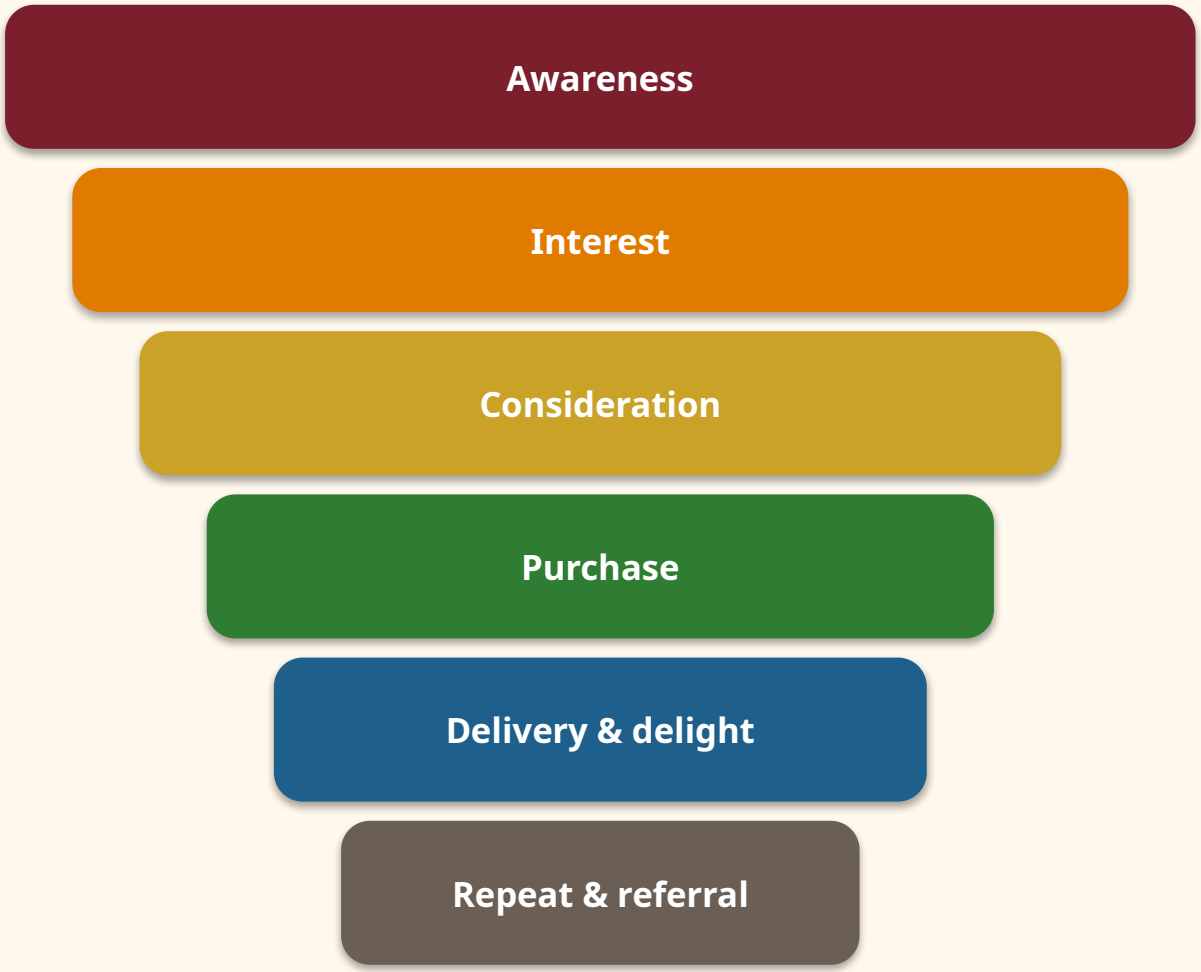

Signage and QR codes at darshan exit, Goshala, waterfall, restaurant; 'take prasadam home' messaging.

Cross-sell

QR on every pack to store and donation pages; prasadam with donation receipts; yatra packs.

SALES FUNNEL

From first touch to repeat order

Festival crowds, social reels, SEO, chamber/BNI events

Catalogue on WhatsApp, website product pages, sample boxes

Owner meeting, price list, white-label mock-up, reviews

Online checkout / PO with advance / UPI at stall

On-time dispatch, story card, feedback call

Festival calendar reminders, subscription, referral rewards

TEMPLE CAMPUS

Festival stalls: 10× by going where the crowd is

Main entrance	**Darshan exit queue**	**Goshala walking path**	**Staircases**
Garden / lawn	**Waterfall & benches**	**Goshala entrance → Samskara**	**Restaurant takes the lawn**

- One stall draws 10–50 people and the rest walk away. Put many counters in a row.
- Pre-packed combos (₹100/₹200/₹500), UPI at every counter, runners restock every hour.
- Permanent rain-proof pagodas: closed in rain, open otherwise.
- Passive selling: we are not pushing. People choose to approach, so this is not commercialising the temple.
- Shelf-stable stock is the hedge: leftovers go online / Instagram within 48 hours.

OPERATIONS

Operations: start with what we have

Kitchen & production

Start in the existing/new kitchen with 4 staff + 1 hire now; add seasonal staff for hero campaigns; exclusive cook once weekly volume is committed; later a dedicated unit (converted building outside the temple).

Standard recipes

Written recipes and yield sheets for every SKU so taste and cost stay constant; batch records.

Shelf-life & quality

Lab shelf-life test per SKU before online launch; moisture-proof packing; first-in-first-out; batch codes.

Procurement

Use negotiated temple vendor rates; bulk-buy ghee, jaggery, groundnut, dry fruits before festival season; two suppliers per key item.

Storage

Dry store with racks, pest control and temperature/humidity monitoring; separate finished-goods store.

Order management

One system for all orders (internal, B2B, online, festival): Shopify/ERP + production calendar; weekly minimum orders; festival forecasts from the calendar.

Fulfilment

Reuse donor-dispatch set-up; courier aggregator for fastest partner; own vehicle for Hyderabad B2B; Amazon for marketplace.

Festival stall SOP

Layout map, stall kit (pagoda, table, POS, UPI QR, signage), cash-handling rules, hourly restocking runners, stock-out alerts.

Compliance

FSSAI registration/licence matched to turnover, labelling (MFD, best-before, ingredients, veg mark, FSSAI no.), GST 5%, trade licence, fire NOC, staff medical checks, water testing.

Finance & ROI (DMTT)

Separate cost centre; track revenue, ingredient cost, packaging, salaries, marketing, hours spent by each team; monthly P&L and ROI dashboard.

PROCESS

One order flow for every channel

- Internal departments: weekly minimum order, one fixed delivery day, festival top-ups entered in advance.
- B2B: 50% advance, sticker proof approval, locked production slot, dispatch buffer before festival.
- All prasadam orders go only to the in-house production lead; no outside vendors.

ROADMAP

Roadmap: six phases from foundation to export

0 — Foundation

26 Sep – 10 Oct 2026

Data, decisions and a ready-to-sell kit

- Share order confirmation details requested by production
- Analyse 6–12 months of prasadam purchases and order volumes
- Estimate weekly minimum and festival peak demand
- Budget per department (LLP, Culture Connect, online donors)
- Final product list, quantities and samples from production
- Costing and two-tier pricing (mass and premium)

1 — Pilot: Dasara & Diwali

11 Oct – 30 Nov 2026

Prove corporate gifting, stalls and internal supply

- Owner meetings with 20+ companies, MNR, chambers, BNI
- Serve the three companies that already asked
- White-label boxes for first clients
- Mahalaya / Pitru Paksha and Dasara stalls in multiple locations
- Diwali gift box production and dispatch
- Weekly standing internal orders live

2 — Launch channels

Dec 2026 – Mar 2027

Year-round revenue and digital sales

- Shopify store + Amazon listing for shelf-stable range
- Shelf-life lab tests and full FSSAI labelling
- New Year, Sankranti (til chikki), Vaikuntha Ekadashi, Gita Jayanti campaigns
- Gated community weekend stalls (start 10, grow to 30)
- Catering pilot: house programmes and small events
- Satvik subscription box beta

3 — Scale in Hyderabad

Apr – Sep 2027

10× festival sales and new product lines

- Permanent rain-proof pagodas; lawn food-court SOP
- Pickles, papads and powders line
- Janmashtami 2027 target: 10× 2026 counter sales
- Catering scale-up; partner kitchens for 50,000-meal orders
- Learning visits: ISKCON Mysore and Ahmedabad
- Year-1 review and Year-2 budget

4 — Dedicated unit & QSR pilot

Oct 2027 – Sep 2028

Own capacity, machinery and first outlets

- Dedicated production unit (converted building), machinery
- State/Central FSSAI licence as turnover grows
- Brand licence agreement with QSR partner; 1–3 pilot outlets
- Pan-India e-commerce push; corporate contracts across South India
- Team of ~25–40

5 — National & export

Year 3–5

A national vertical with exports

- Scale QSRs towards the 100-outlet Hyderabad vision
- Export via Malaysia and Europe contacts; APEDA/IEC
- Replicate model with other temples
- ~100 employees

IMMEDIATE PLAN

The next 60 days: Dasara and Diwali pilot

Week 1–2 · 26 Sep – 10 Oct

- Order data analysis
- Budgets per department
- Samples & costing
- Pricing & gift tiers
- Catalogue & stickers
- Hire 1 person
- Decision meeting 5 Oct

Week 3–4 · 11 – 24 Oct

- Owner meetings
- Serve 3 waiting companies
- Mahalaya & Dasara stalls
- Weekly internal orders live
- Seasonal staff

Week 5–6 · 25 Oct – 8 Nov

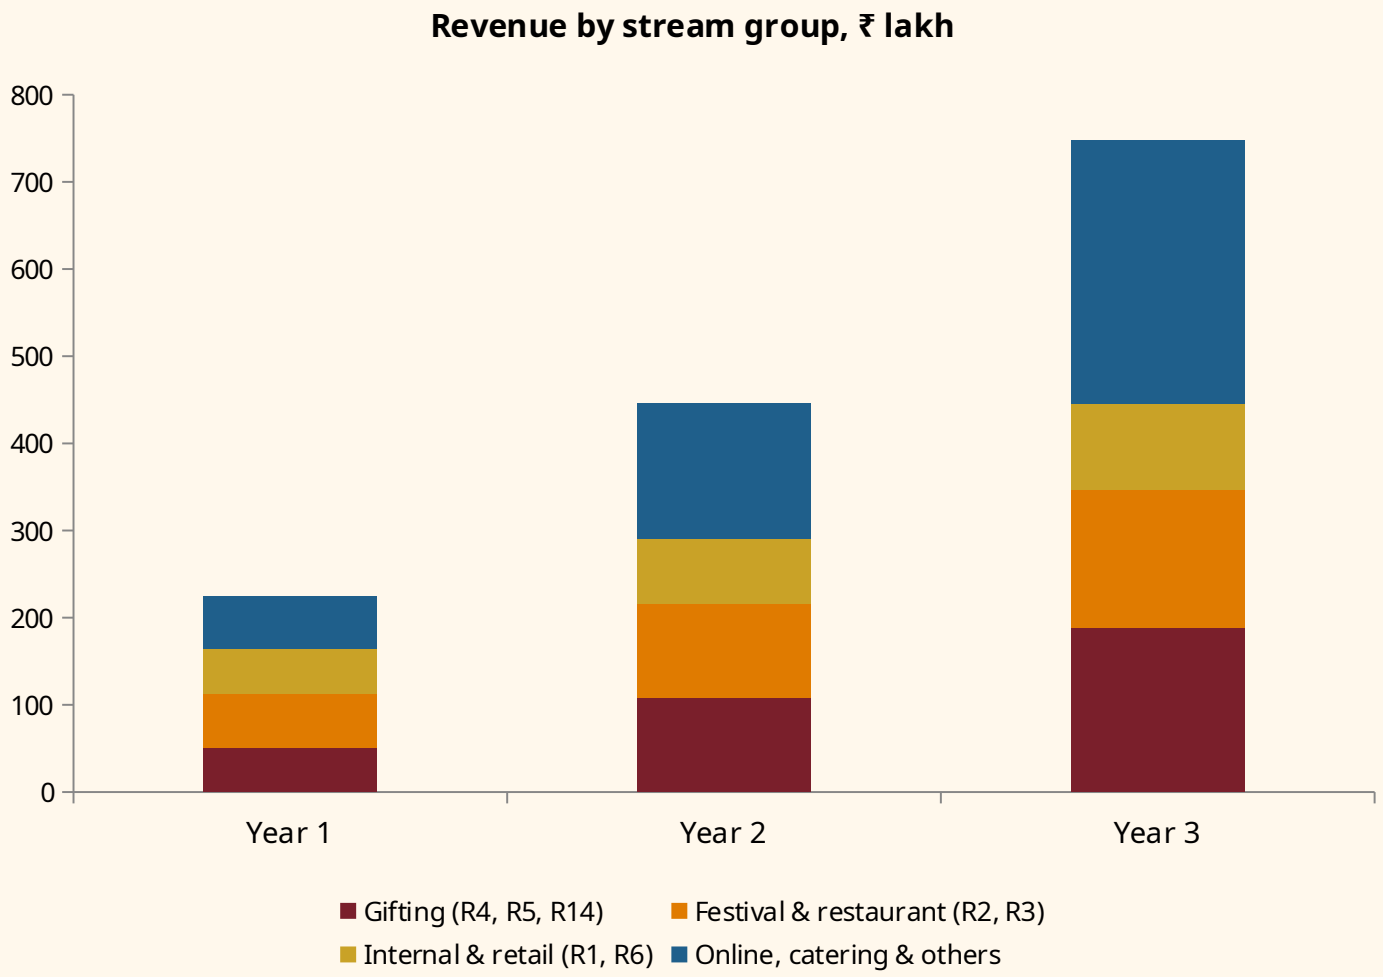

- Diwali production
- White-label dispatch
- Donor bahumana boxes
- Daily stand-ups

Week 7–9 · 9 – 30 Nov

- Leftovers online / Instagram
- Collect payments
- P&L + ROI
- Pilot review & go/no-go

FINANCIALS

Financial outlook [estimate]

Year 1 at a glance

- Revenue ≈ ₹224 L
- Gross profit ≈ ₹82 L (37%)
- Incremental opex ≈ ₹67 L
- Net contribution ≈ ₹15 L before capex
- Capex < ₹30 L (machines, pagodas, storage)
- B2B 50% advances fund the pilot
- Year 2 ≈ ₹446 L · Year 3 ≈ ₹749 L
- Replace with real order data (task 2.2)

TEAM & GOVERNANCE

Who does what

Role	Person	Responsibility
Executive sponsor	Temple leadership	Approves budget, brand use and major decisions
Vertical lead – marketing, sales & technology	Mukunda Dasa	Vision, network, marketing, e-commerce, DMTT reporting
Production lead	Prabhu (production)	Recipes, costing, samples, capacity, kitchen team
Production manager (reporting line)	Production lead's manager	Approves production commitments and resources
E-commerce & logistics advisor	Subhadra Radha Devi Mataji	Shopify/Amazon, fastest shipping
Corporate sales representative	To be assigned by Mukunda Dasa	Joins owner meetings; manages B2B pipeline
Order coordinator (new hire)	To hire now	Order confirmations, internal orders, production calendar
Design & packaging	DMTT designer	Catalogue, boxes, stickers, white-label mock-ups
Data & AI	DMTT data scientists	Demand analysis, targeting, ROI dashboard
Finance	Accounts team	Cost centre, GST, P&L, ROI
Quality & compliance	To assign	FSSAI, labelling, hygiene audits

Governance rhythm

- Daily (festival weeks): Stand-up: production + stalls + dispatch
- Weekly: Order & pipeline review (orders, production plan, sales pipeline, issues)
- Monthly: P&L and ROI review with DMTT & finance; KPI dashboard
- After each hero campaign: Post-campaign review and lessons learned
- Quarterly: Steering review with temple leadership; budget and capex decisions

RISK

Top risks and how we handle them

20 **Kitchen cannot meet Diwali peak volume**

Forecast from order data; seasonal staff; cap orders by capacity; 50% advance; partner kitchens on standby

15 **QSR partner quality not aligned with temple standards**

Strict brand licence, audits, satvik SOPs, exit clauses

12 **Premium-only pricing fails to cover fixed costs**

Two-tier model; mass tier for volume; monthly margin review

12 **Use of the ISKCON name on commercial packaging questioned**

Written approval from temple leadership / group legal; consistent brand guidelines; consider a sub-brand

12 **Ingredient price spikes (ghee, jaggery, nuts)**

Forward-buy before season, two suppliers, sugar/jaggery flexibility, price validity clauses

12 **Late B2B deliveries during peak**

Production calendar, cut-off dates, dispatch buffer, own vehicle

12 **Staff overload across departments**

Dedicated hires; clear RACI; hours tracked in DMTT

10 **Food-safety incident harms temple reputation**

FSSAI compliance, hygiene SOPs, batch codes, shelf-life tests, staff medical checks, recall plan

KPIS & ROI

'What did we get back?': one ROI dashboard

Revenue

Monthly gross revenue by stream

Monthly

Gross margin

Revenue minus ingredients, packaging, direct labour

Monthly

ROI

Monthly

Customer

Rating, NPS, repeat B2B clients

Quarterly

ROI % = (Revenue − ingredients − packaging − labour − marketing − overheads − value of hours invested) ÷ total cost × 100

INNOVATION PIPELINE

More ideas to test cheaply

Satvik Subscription Box

Monthly box of 4–6 seasonal sweets and savories delivered to homes and offices; donor-exclusive pricing.

Festival Pre-order App/Page

Pre-book Janmashtami/Diwali boxes online; pick up at a dedicated counter to avoid queues; stock planned from pre-orders.

Corporate 'Prasadam Friday'

Weekly snack trays for company pantries on a subscription contract.

Student and hostel packs

Low-ticket packs for MNR and other institutions during exams and festivals.

Diabetic-friendly namkeen line

Clearly labelled low-sugar/no-sugar range for donors who cannot eat sweets.

Jaggery & millet wellness range

Premium health range (jaggery chikki, millet laddu, poha puffed-rice unde).

Occasion kits

House-warming, naming ceremony, vehicle puja, shraddha and wedding return-gift kits.

Monsoon namkeen tins

5 kg tins for big donors and showrooms in the rainy season.

World-record event

Largest laddu / largest chikki / most prasadam packets in a day for PR (India Book of Records).

Live-kitchen experiences

Weekend 'make your own laddu' workshops for families and corporate teams.

Temple-to-desk vending

Branded shelf-stable snack racks in corporate offices and co-working spaces.

Instagram flash sales

Clear post-festival leftover stock with limited-time offers.

Referral programme for event planners

Commission for every catering or return-gift order referred.

Sponsor-a-box

Donors sponsor prasadam boxes distributed to the needy on festivals (cause marketing).

Travelling prasadam (Yatra tie-in)

Shelf-stable packs for yatris on the temple's pilgrimage tours (links to the Yatra department).

NRI gifting portal

Order from abroad, delivered to family in India for festivals.

THE ASK

Decisions needed at the 5 October meeting

- Final product list, quantities and weekly minimum per department?
- Budget allocated for prasadam per department (LLP, Culture Connect, online donors)?
- Pricing model split between premium and competitive tiers?
- Real production capacity per day now, with one more hire, and at peak with seasonal staff?
- Which infrastructure and staffing investments are justified before demand is validated?
- Brand name on packs: 'ISKCON Hyderabad', 'Hare Krishna Golden Temple', or a sub-brand?
- Which FSSAI licence covers commercial sale and e-commerce, and does it cover off-site stalls?
- Transfer-pricing and profit-sharing between production and marketing teams?
- Who owns catering for very large orders (50,000 meals) until a catering unit exists?

Action items this week

- A1: Provide the order confirmation information requested for prasadam orders (Production team (order coordinator), 29 Sep 2026)
- A2: Hire an additional person for prasadam production work (Production lead, 10 Oct 2026)
- A3: Propose available budget and requested items to production for samples and planning (Mukunda Dasa's team, 30 Sep 2026)
- A4: Analyse 6–12 months of prasadam purchases and order volumes; share regular and festival estimates (DMTT data, 3 Oct 2026)
- A5: Prepare and send the detailed plan for the prasadam and sweets vertical (Mukunda Dasa, 30 Sep 2026 (this document))
- A6: Identify additional prasadam products with longer shelf life (Production lead, 4 Oct 2026)
- A7: Prepare packaging and product presentation for bulk corporate gifting (DMTT designer + Production lead, 10 Oct 2026)
- A8: Send a representative to support meetings with large company owners (Mukunda Dasa, 3 Oct 2026)

Somebody has to take the first bold step.

Depending on Srila Prabhupada and Krishna, let us start today: production by the temple kitchen, marketing and technology by DMTT, every result tracked.

Hare Krishna
